

TAAC Minnesota State Fair Transit Update for 2023

Items added in 2023.

We added two additional ADA porta potty stations, one at Cottage grove. The other at the State Fair Transit Center for our staff.

Items that need to be addressed for 2024.

1. Signage at the Bloomington site parking ramp needs additional way finding arrows. Passengers will better know how to get into the ramp and where to board.
2. Discussions about adding tents/benches near the loading gates at the State Fair Transit Center for shade and for those that may have mobility limitations.
3. The timing for the elevators at Bloomington and County 73 Park and Ride needs to be adjusted to not lock before the last bus returns to the parking ramp from the State Fair Transit Center.
