The Metropolitan Council is the regional planning organization for the seven-county Twin Cities area. The Council operates the regional bus and rail system, collects and treats wastewater, coordinates regional water resources, plans and helps fund regional parks, and administers federal funds that provide housing opportunities for low- and moderate-income individuals and families. The 17-member Council board is appointed by and serves at the pleasure of the governor.

On request, this publication will be made available in alternative formats to people with disabilities. Call Metropolitan Council information at 651-602-1140 or TTY 651-291-0904.

Introduction

The seven-county Twin Cities metropolitan area is home to a system of regional parks and trails that are nationally renowned for their beauty, size and variety of features. With 54 regional parks and preserves, comprising nearly 55,000 acres, more than 300 miles of interconnected trails, and eight special recreation features, the system provides a wealth of opportunities for recreation, exercise, and just plain fun. It also preserves significant green space and wildlife habitat.

The Regional Parks System draws more than 48 million visits every year—more than the Mall of America—and makes communities in the region more vital and attractive.

The Regional Parks System

The Regional Parks System is operated by 10 partner agencies, including cities, counties, and special park districts, which work with the Council to protect natural resources and provide outdoor recreation for public enjoyment. The Council provides long-range system planning, investment, and coordination.

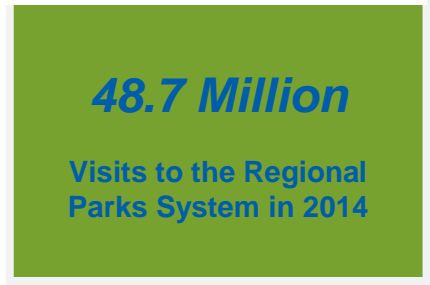

Highlights of the 2014 Report

The Metropolitan Council produces a Regional Parks System visit estimate on an annual basis. This report highlights the estimated number of visits to the Metropolitan Regional Parks System for 2014. Visit data is collected within each unit, 99 park and trails overall, and extrapolated to produce an annual estimate. A few highlights are as follows:

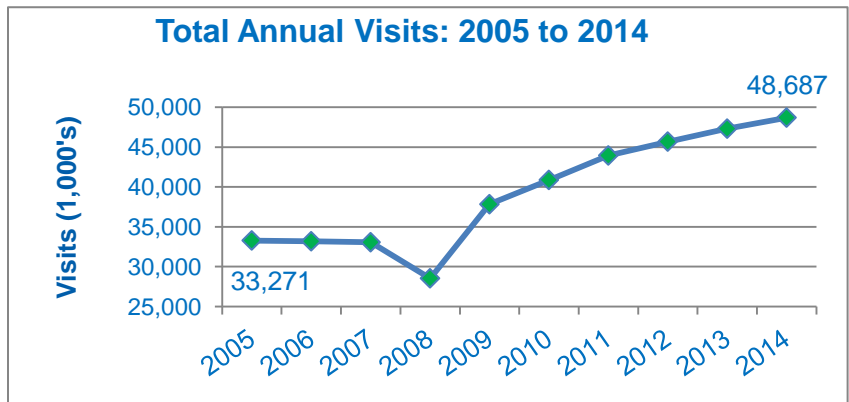

- An estimated **48.7 Million** were made to the Metropolitan Regional Parks System in 2014.
- **Annual visits increased 3.3% from 2013 to 2014.**
- **Since 2005**, annual visits have increased by over 15 million.

Cedar Lake Farm Regional Park, Scott County

Como Regional Park & Special Recreation Feature, Saint Paul

St. Croix Bluffs Regional Park, Washington County

- Overall, **27% of all visits in 2014 were to regional trails and 73% were visits to regional parks, park reserves and special recreation features.**
- Although Anoka County Riverfront, Minneapolis Chain of Lakes, and Mississippi Gorge are regional parks, the majority of visits to these parks are for trail use. If the trail visits to these regional parks were included in the trail totals, 40% of all 2014 visits were to regional trails.
- Approximately **53% of all estimated visits occurred in regional parks and trails in Minneapolis and Saint Paul.**

- The share of visits to Minneapolis and Saint Paul parks and trails in the regional system has decreased over time. The decrease is likely due to the addition of park and trail facilities and population growth occurring outside these two cities.
- **Park visits increased most significantly in Carver County regional parks and trails**, wherein visits increased 103% from the preceding year. This is predominately due to the opening of Southwest Regional Trail in 2014.
- The City of Bloomington saw the most significant decline in visits to their regional parks and trails from the preceding year (-5.6%).
- In 2014, the **Minneapolis Chain of Lakes Regional Park was the most frequently visited Regional Park**, with nearly 5.5 million visits. The table below illustrates the five most-visited regional parks, trails and special recreation features in 2014.

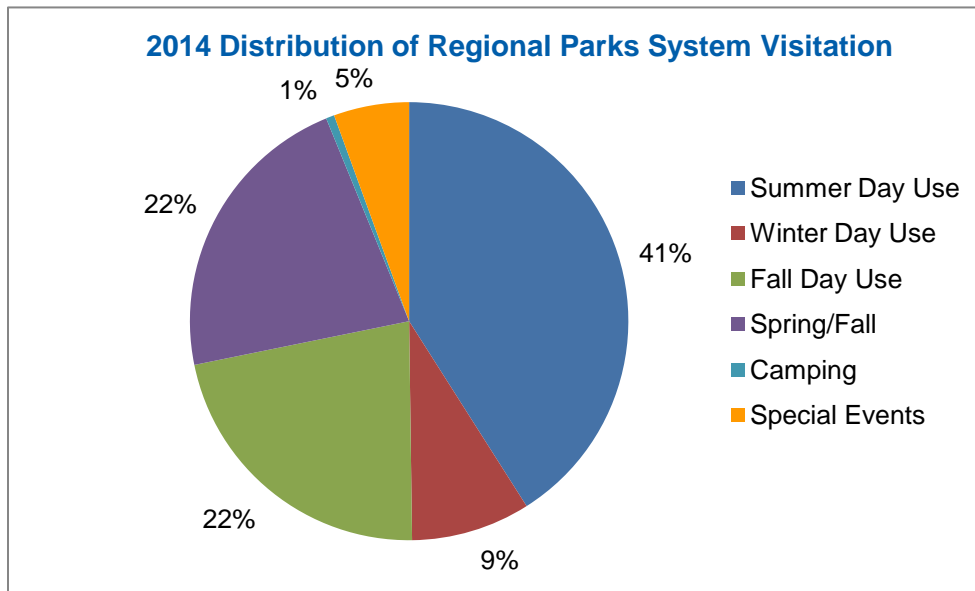

Battle Creek Regional Park, Ramsey County

The Top-Five Most Frequently Visited Parks in Regional Parks System.

<i>Park/Reserve/Trail</i>	<i>2014 Visits</i>
1. Minneapolis Chain of Lakes Regional Park	5,476,400
2. Como Regional Park, Zoo and Conservatory Special Recreation Feature	4,311,000
3. Mississippi Gorge Regional Park	2,692,700
4. Central Mississippi Riverfront Regional Park	2,275,800
5. Minnehaha Regional Park	1,686,600

- The most popular time to visit regional parks is during the summer months (41%).

- Based on the [Metropolitan Council Regional Parks and Trails Survey 2008](#), 55% of all visits to regional parks and trails are considered “local” visits. A local visit is defined as a visit to a park or trail by a person who lives within the jurisdiction of the park agency that owns or operates that park or trail. Conversely, 45% of all visits to regional parks and trails are “non-local” visits, which demonstrate that the system serves a regional audience.

Baylor Regional Park, Carver County

How the Annual Use Estimate is Calculated

Use estimates are reported in “visits.” One person entering the park represents one visit. Therefore, if a person visits a particular park once each week for a year, that represents 52 visits to that park.

The annual use estimate is based on the average of four years (2011 – 2014) of summer counts of bikers, pedestrians, horse riders, boats, vehicles, and charter buses that enter the park through recognized park entrances. People in vehicles and buses are not counted individually. To determine the number of people entering in vehicles or buses, a person-per-vehicle average is multiplied by the number of vehicles or buses in each sample count. The person-per-vehicle averages come from the [Metropolitan Council Regional Parks and Trails Survey 2008](#).

Counts are taken in two-hour samples between Memorial Day and Labor Day. Two-hour samples begin at 8 a.m., 10 a.m., 12 p.m., 2 p.m., 4 p.m. and 6 p.m. The entrances and times are randomly chosen, with the samples split evenly between weekdays and weekends. To accurately estimate summer use, at least 25 samples on weekends and 25 samples on weekdays in each park and trail are necessary, but it is cost-prohibitive to do 50 samples per park and trail every year.

Lebanon Hills Regional Park, Dakota County

Therefore, the samples for the current year and the three previous years are combined to determine the annual use for each park and trail. For each year, at least 16 samples are drawn for each park and trail. The four-year approach results in a minimum of 32 samples on weekends and 32 samples on weekdays, which meets the statistical requirements for estimated visits.

*Nokomis-Hiawatha Regional Park,
Minneapolis Park and Recreation
Board*

The four-year approach reduces the effect of extreme weather or other anomalies on each park’s estimated visitation. It reduces the effects of a temporary closure of a popular facility and from road construction to the facility. The four-year average also somewhat underestimates increased visitation associated with a major new facility such as a swim pond or play structure. By the fourth year of the facility’s existence, its visitation is fully represented in the data. The annual estimate makes no attempt to correct for overestimates for temporary closures or underestimates for facility additions. All agencies in the regional system are adding desirable facilities and experiencing temporary closures of facilities that are being redeveloped. Therefore, it is believed that the four-year average has negligible effects when comparing visitation across agencies.

Summer visitation is calculated by taking the total number of people entering the park during each sample and multiplying it by the number of entrances and time slots that sample represents. Winter, spring and fall seasonal visitation estimates are then calculated from the summer visitation using seasonal multiplier data derived from the [Metropolitan Council Regional Parks and Trails Survey 2008](#).

The Regional Parks
System Annual Use
Estimate has been
calculated since
1995

Camping visits are also added to the annual estimate. A camping visit is defined as a camper in the park for any part of a day, so a family of four who camped one night would be counted as 8 total visits. Special events are also added to the annual use estimate when the attendance was greater than 300 people and the event did not take place during the sample counts. If sample counts occurred during a special event, counts were not included in the estimate. Camping and special event data are not averaged across four years since the implementing agencies have records reflecting those types of visits on an annual basis.

Scott County	358.9	339.9	(19.0)	-5.3%
Three Rivers (Hennepin Co.)	9,390.4	9,741.8	351.4	3.7%
Three Rivers (Scott County)	325.6	355.1	29.5	9.1%
Washington	1,567.6	1,524.4	(43.2)	-2.8%
Total	47,304.8	48,855.3	1,550.5	3.3%

Notes:

¹ Carver County opened Southwest Regional Trail in 2014.

Table 4: Comparison of 2013 and 2014 park vs. trail visitation

	2013	2014	# change	% change	% of all visits in 2014
	<i>(1,000's)</i>	<i>(1,000's)</i>	<i>(1,000's)</i>		
Trail Visits ¹	12,465.5	13,191.2	725.7	5.8%	27.0%
Park/Reserve/SRF Visits	34,839.4	35,664.2	824.8	2.4%	73.0%
Total Visits	47,304.8	48,855.3	1,550.5	3.3%	100.0%

Notes:

¹ About 80% of all visits to the Minneapolis Chain of Lakes and Anoka County Riverfront RP are trail visits. Mississippi Gorge Regional Park is also more similar to a parkway with a regional trail than a regional park. However, the above trail totals do not include those trail visits.

Values are rounded.

If Mississippi Gorge, Minneapolis Chain of Lakes, and Anoka County Riverfront RP trail visits are included in the regional trail total, 40.6% (19.9 million) of all visits are trail visits.

Table 5: Most-visited regional parks and trails - 2014

Rank by visits	Park/trail	Agency	2014 Visitation (1,000's)	Cumulative percent of total visitation

% of 2014 visits		73%		27%		100%

Notes:

¹ Activity pattern data of regional park and trail visitors was collected in 2008 and published in the *Metropolitan Council Regional Parks and Trails Survey 2008*. The activity patterns were applied to the 2008 visit estimate to generate this table. Visitors could do more than one activity during their visit to a regional park or trail. Each time they participated in an activity, it was considered an activity occasion. Therefore, the total number of activity occasions is greater than the actual number of visits.

² "Relaxing" was a general activity on a list of activities that park visitors used to indicate what they did during their park visit. This activity was not specifically defined.

³ For trail visits, survey respondents indicated that the trails were providing access to these activities. For example, 2% of trail visits provided access to swimming and 1% of trail visits provided access to fishing.

Table 12: Visitor origin by agency ¹

Agency	Total visits (1,000s)	Number and percent of visits from people who live in the following agency jurisdictions: (in 1,000s)

NOTES:

All visits are listed in units of 1,000.

Local visits are defined as visits to a park by visitors who reside in that park agency's jurisdiction. Local visits for each agency are in bold and are highlighted.

¹ Visitor origin data is from the *Metropolitan Council Regional Parks and Trails Survey 2008*. Percentages were adjusted to disregard "unknown" visitor origin and therefore may differ slightly from the survey report.

Three Rivers Park District owns and operates two regional parks in Scott County. The amounts shown in this table reflect visits to park and trail units located in Scott County regardless of managing entity.

Visitor origin data is from the *Metropolitan Council Regional Parks and Trails Survey 2008*. Percentages were adjusted to disregard "unknown" visitor origin and therefore may differ slightly from the survey report.

Acknowledgements

The Metropolitan Regional Parks System is owned and operated by 10 city, county, or special park districts. Each agency is responsible for conducting the annual counts for their respective Regional Parks System units. The 2014 annual use estimate counts amounted to over 4,200 staff hours across the 10 agencies, along with significant time dedicated to staff training and oversight. Without the help of the 10 agencies, the annual use estimate would not be possible. The agencies and their count supervisors are as follows:

Anoka County—Cindy Bornetun
City of Bloomington—Mark Morris
Carver County—Sam Pertz
Dakota County—Doug Gross
Minneapolis Park and Recreation Board—Ginger Cannon
