

REQUEST FOR PROPOSALS

Design and Construction Support Services for Storage Tank Additions

Procurement No. 8425

Metro Transit is seeking the services of a qualified firm for Design and Construction Support Services for Storage Tank Additions at several of its facilities. Metro Transit requires the firm to prepare complete design plans and specifications for building additions to house above ground fuel storage tanks at the FTH & Nicollet garages; decommission and demolish existing in-use underground storage tanks at the FTH and Nicollet garages; demolish existing decommissioned tanks at the Ruter garage; and design and construct storage systems (Urea) at the FTH, Nicollet, East Metro, Ruter and South garages. This project is the last phase of the planned multi-year project to replace all facilities underground storage tanks with above ground storage systems. It also includes the installation of new Urea storage systems. The additions and all new tanks must be fire rated and designed per the State and/or City Fire Marshall Codes

A Disadvantaged Business Enterprise participation goal of 15 percent has been established for this project.

Proposals are due no later than 2:00 p.m. on November 6, 2009.
