She also served as an AmeriCorps member.
The audit team completed seven of sixteen projects on the 2023 Audit Plan (44%). Six projects from the 2023 Audit Plan are in process right now including several nearing completion. There were three audits that spun off from investigations. We also received eight “inquiries”—requests for consulting, research, review or technical assistance on policy or compliance topics in 2023.

**Accomplishments**

**Job Classification**
Audit reviewed the controls, processes, and documentation related to the Council’s job classification process. We recommended that the Council implement automated forms, improve communication with clients, and develop and implement a maintenance schedule for reviewing position class worksheets.

**Technology Change Management**
Several recommendations were made including creating a charter and assigning authority with defined roles and responsibilities for the Council’s Change Advisory Board, commissioning technology change management policies, procedures and standards.

**Contract Administration**
Audit reviewed a sample of contracts for professional/technical services and goods as well as contracts for IT software, hardware, and IT services. Audit also looked more in depth at contracts between MnDOT and the Council as well as the Gold Line A&E Contract review.

Recommendations that came out of the various contract administration reviews include:

- Streamline processes and continue efforts to improve communications, update work instructions and clarify roles and responsibilities. (MnDOT)
- Standardize receiving, reviewing and paying invoices.
- Regular file reviews to ensure compliance with document management plan. (Gold Line)
**Metro Transit Police Department Property Room**
Audit reviewed a sample of inventory items to confirm they were stored in the correct location. We also reviewed the forfeiture policy and physical access controls. There were no findings or recommendations and Audit plans to resume regular audits going forward.

**Metro Transit Grants Administration**
Audit reviewed a sample of Metro Transit formula funded projects to ensure that expenses were in scope of the grant, budgets and schedules were being monitored, and FTA requirements were followed. There were no findings or recommendations for this audit.

**Unemployment Insurance**
Audit reviewed the process of how staff review and respond to unemployment insurance claims and timeliness of payments to Minnesota Unemployment Insurance (MNUI). We recommended that a process be implemented to support on time payments to MNUI, review what unemployment documentation needs to be maintained, and review the option to appeal determinations made by MNUI.

**Technical Assistance**
Several staff on the Audit team helped Metropolitan Transportation Services with their biannual satisfactory continuing control inventory.

**Special Projects**

**EthicsPoint**
Staff within the Program Evaluation and Audit team continue to be the administrators for EthicsPoint, the Council’s system for employees to report issues or concerns regarding policy and procedure violations and for staff to manage complaints. The department has and continues to provide support to departments within the Council on EthicsPoint and seeks to maximize their usage.

**Training**
Staff continue to attend training to continue to build audit skills and knowledge in specific areas to assist in the department’s audit work. Staff attended twenty-four trainings in 2023 accounting for 240 CPE credits.

**Staff Engagement**
In 2023 staff worked to increase their visibility around the Council. This has included participating in Metro Transit’s Great Day in Transit, attending employee resource group events, riding the blue line train, touring the Gold Line Construction project, and visiting the Metro Plant. Below are photos from the various visits.
Reports of Policy and Procedure Issues

The Council’s ethics and reporting hotline, EthicsPoint, has been live since October 2020. In 2023, 120 reports were opened in EthicsPoint. Reports were received by a variety of methods, but most were received via the Council’s web portal. Audit did initial intake for twenty-eight reports related to conflict of interest, fraud, and other matters in 2023. Of these reviewed complaints, six resulted in significant investigations in 2023 and three spin off audits.
