An introduction to Thrive MSP 2040: What lies ahead?

June 5, 2019

Committee of the Whole

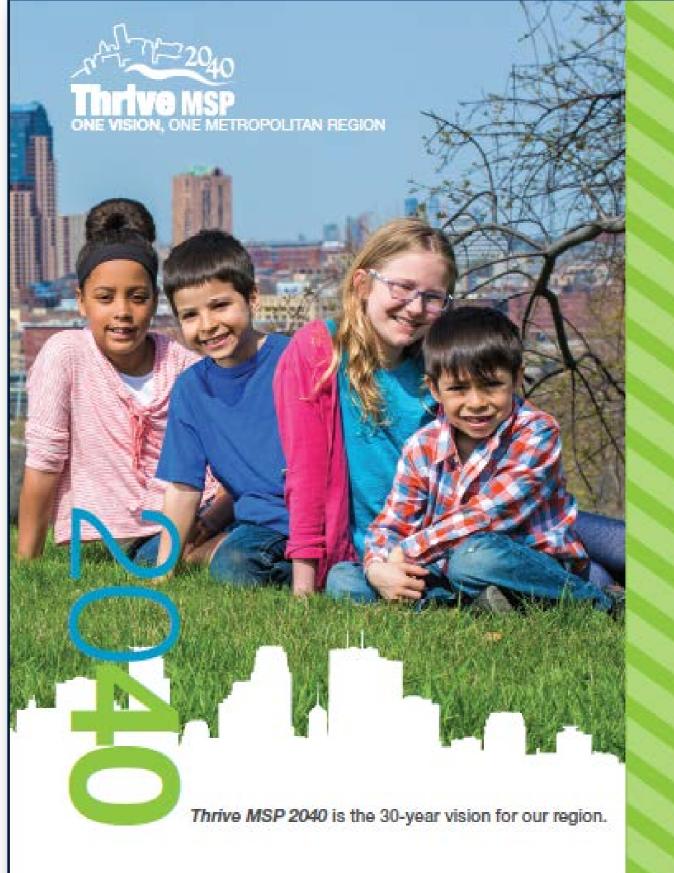

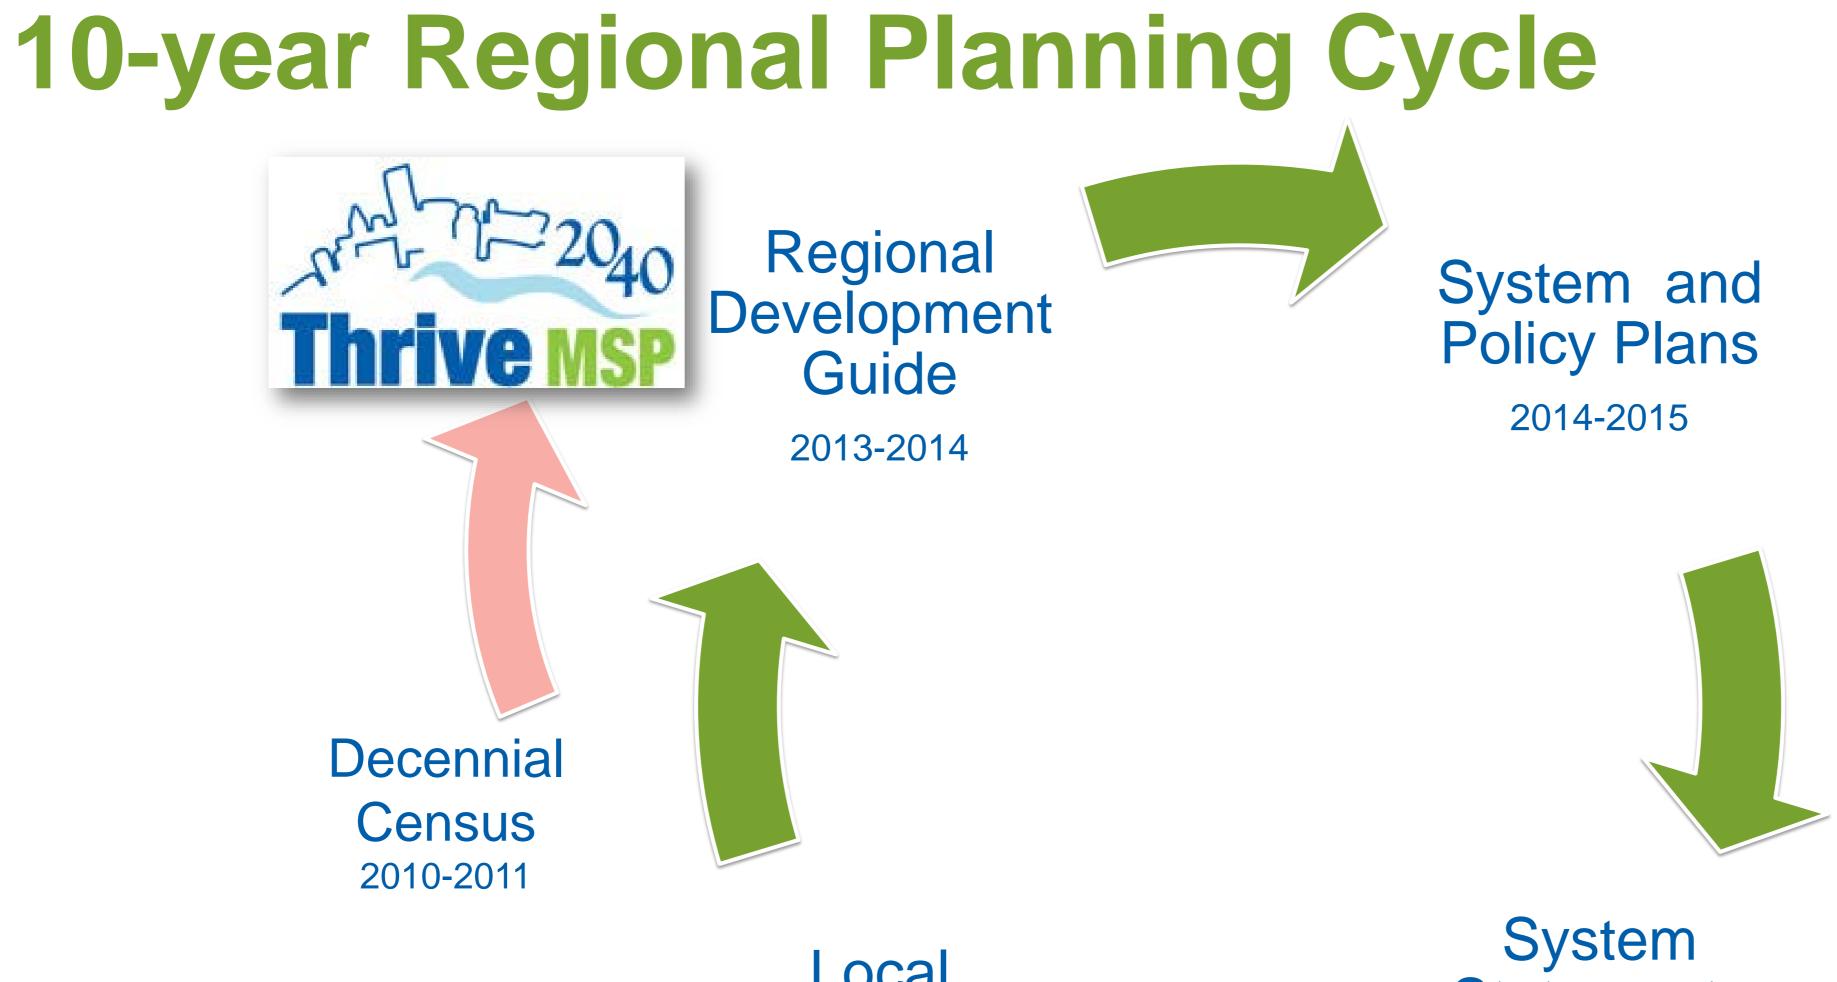

What is Thrive MSP 2040?

- A statutory document (the "comprehensive development guide") that informs local comprehensive plans?
- The foundation of metropolitan system plans?
- An aspirational vision for the region's future?
- The foundation of the Thrive lens that outlines outcomes in Council business items?
- A strategic plan for the Council and beyond?

2018

Statements

2015 Local Planning Handbook

Statute Requires Development Guide

"The Metropolitan Council shall prepare and adopt, after appropriate study and such public hearings as may be necessary, a consist of a compilation of policy statements, goals, standards, programs, and maps prescribing guides for the orderly and economical development, public and private, of the metropolitan area."

comprehensive development guide for the metropolitan area. It shall -- Minn. Stat. § 473.145

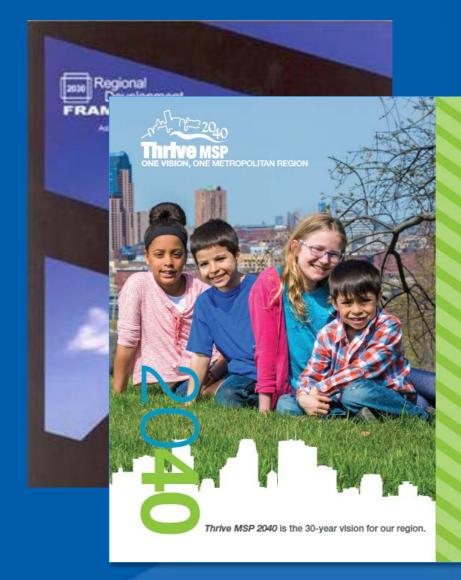

Development Guides 1968-2014

The context for developing Thrive

Looking back to 2011-12 in the region

- Housing construction begins to recover from the Great Recession, led by affordable and multifamily housing in the center cities
- As employment begins to recover from the Great Recession, the need for regional economic cooperation leads to Greater MSP
- Water levels in White Bear Lake reach alarmingly low levels

ver from ble and es om the nal ater MSP

Looking back to 2011-12 at the Council

- A newly-seated Metropolitan Council
- Completed the 2008 comprehensive planning cycle
- Stops for Us secured three additional stops along the Green Line in 2010
 - No Equity Advisory Committee
 - No Public Engagement Plan
- First major construction season for the Green Line along University Avenue in 2012

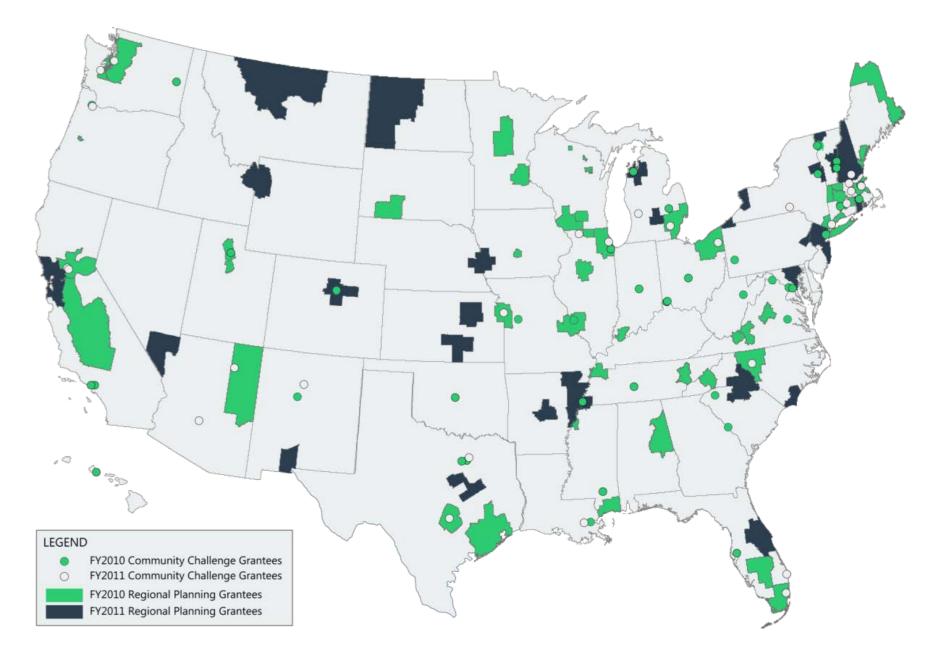

\$5 million federal Sustainable Communities Regional Planning Grant (2011-2013)

- HUD's priorities for the grant:
 - New, inclusive decision-making tables
 - Emphasis on community engagement informing decisions
 - "strategies that direct long-term development and reinvestment, demonstrate a commitment to addressing issues of regional significance, use data to set and monitor progress toward performance goals, and engage stakeholders and residents in meaningful decision-making roles"
 - "craft an authentic vision for an equitable and prosperous future"

Corridors of Opportunity Consortium

Vision

Transitway corridors will guide our region's growth, vitality and competitiveness. Development along transitways will create distinctive places and strengthen local assets while increasing ridership and expanding access to jobs, affordable housing, and essential services for residents of all incomes and backgrounds.

Corridors of Opportunity Policy Board

- Adopted by the consortium of elected officials, philanthropy, non-profit leaders, and community leaders
- Balance between equity and economic competitiveness

Choice, Place and Opportunity

- Fair Housing and Equity Assessment required by HUD grant
- Where are Areas of Concentrated Poverty where at least 50% of residents are people of color?
- What is our history of housing segregation? What is the geography of opportunity across the region?

CHOICE, PLACE AND

March 2014

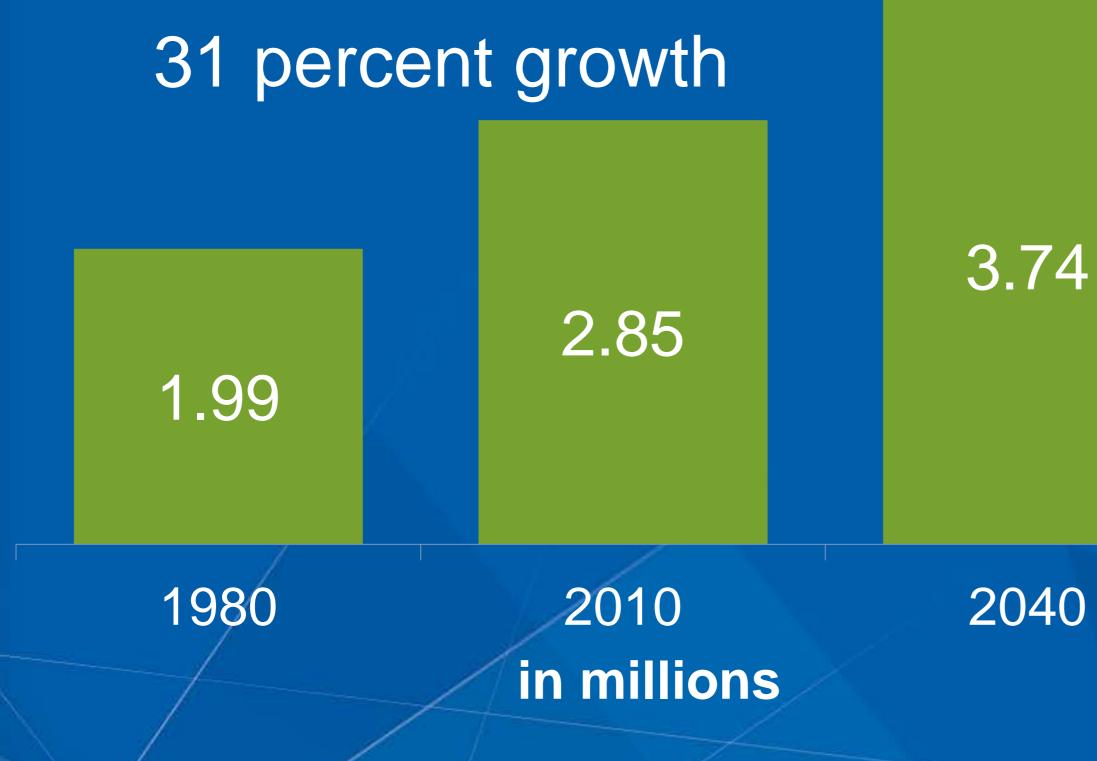

Our population is changing

The region will add 800,000+ people from 2010-2040

Context for Thrive

- Continued population growth, but slowing geographic expansion of the region
- Constrained fiscal resources yet emerging need to maintain infrastructure
- New recognition of impact of socioeconomic disparities by race on the region
- Corridors of Opportunity created a regional table of stakeholders interested in
- Emerging environmental challenges around water and climate
- New regional planning priorities
- Increasing necessity of regional economic cooperation

equitable development and community engagement around transit investments

Outreach and Engagement

Core ideas in Thrive come from public engagement

- Reflect the interests and priorities of the many stakeholders of the region
- Engage a crosssection of the region's residents in developing a shared regional vision
- Both in-person and online

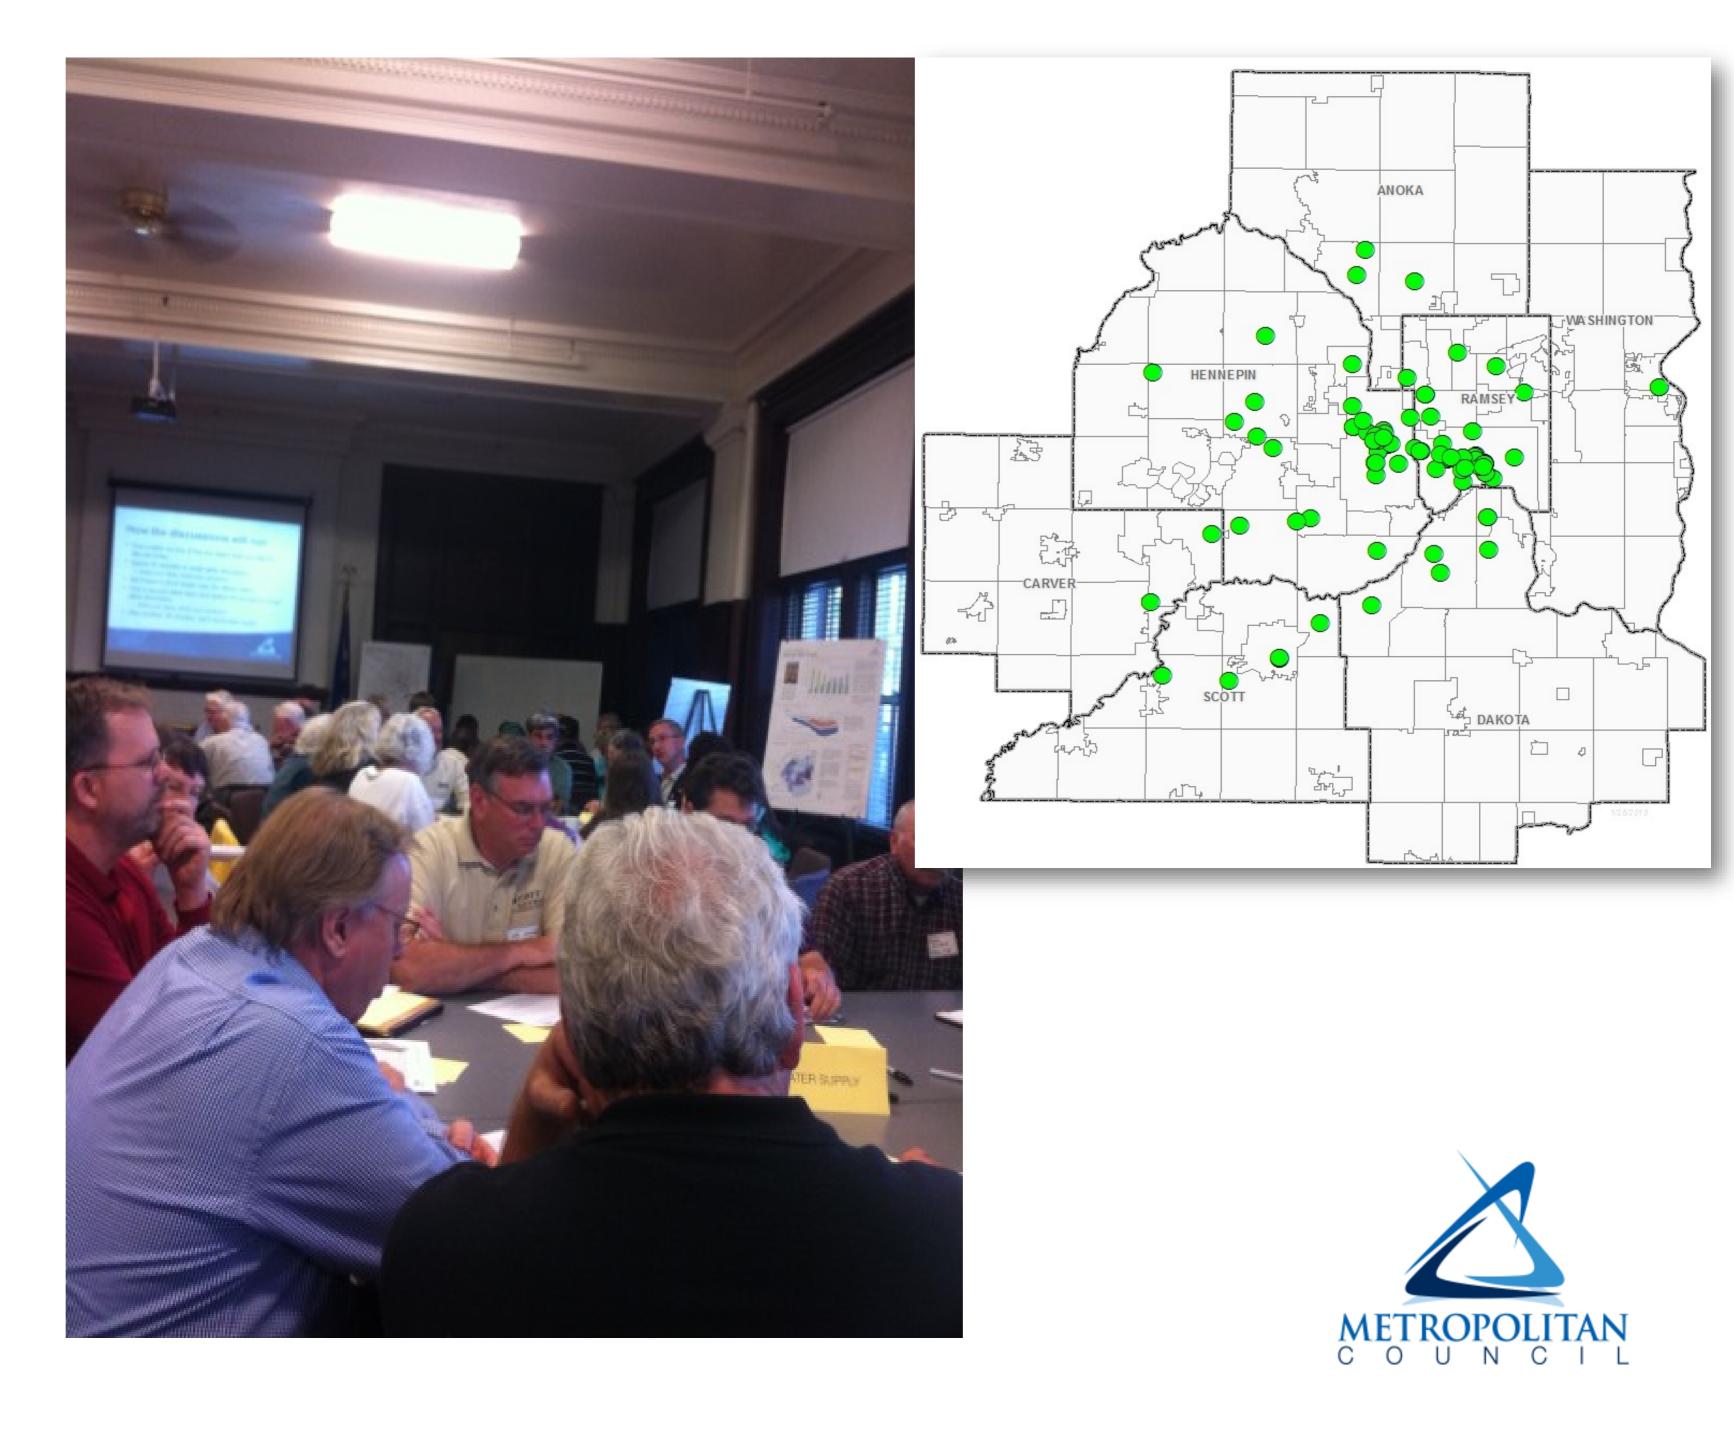

Over 100 inperson meetings:

What does our region need to **thrive**?

What kind of region do we want for our children? For our children?

What **decisions** can we make today that will set us on a path toward achieving that vision?

Two months of public comment from...

... the draft publication of Thrive MSP 2040 lays out an ambitious, equitable and sustainable vision that, if implemented, will result in expanded opportunity for our residents and greater resiliency for our communities. The long-term planning effort that has led to the draft Thrive MSP 2040 deserves the region's support.

The support is deserved ... because of Thrive MSP 2040's steadfast commitment to stewardship, prosperity, equity, livability and sustainability as the region's foundational pillars for future growth.

Ultimately, so long as the region remains steadfastly committed to its five core principles, implementation challenges associated with infrastructure, land use and natural resources will be resolved without losing sight of why regional partnership and planning is integral to solving significant challenges that are too big for individual communities to address on their own.

-- Autumn Lehrke, Chair, Washington County Board of Commissioners and Jim McDonough, Chair, Ramsey County Board of Commissioners

. . .

.

- Personally, I take this as a threat and a reversal of the notion of by the People for the People. Thrive 2040 violates what America stands for - it cedes control of our personal prosperity and
 - We don't need this MET council dictating where, how, and when we can do what we want to
 - We don't need this Thrive 2040 plan. In order to thrive we need LIBERTY and FREEDOM.

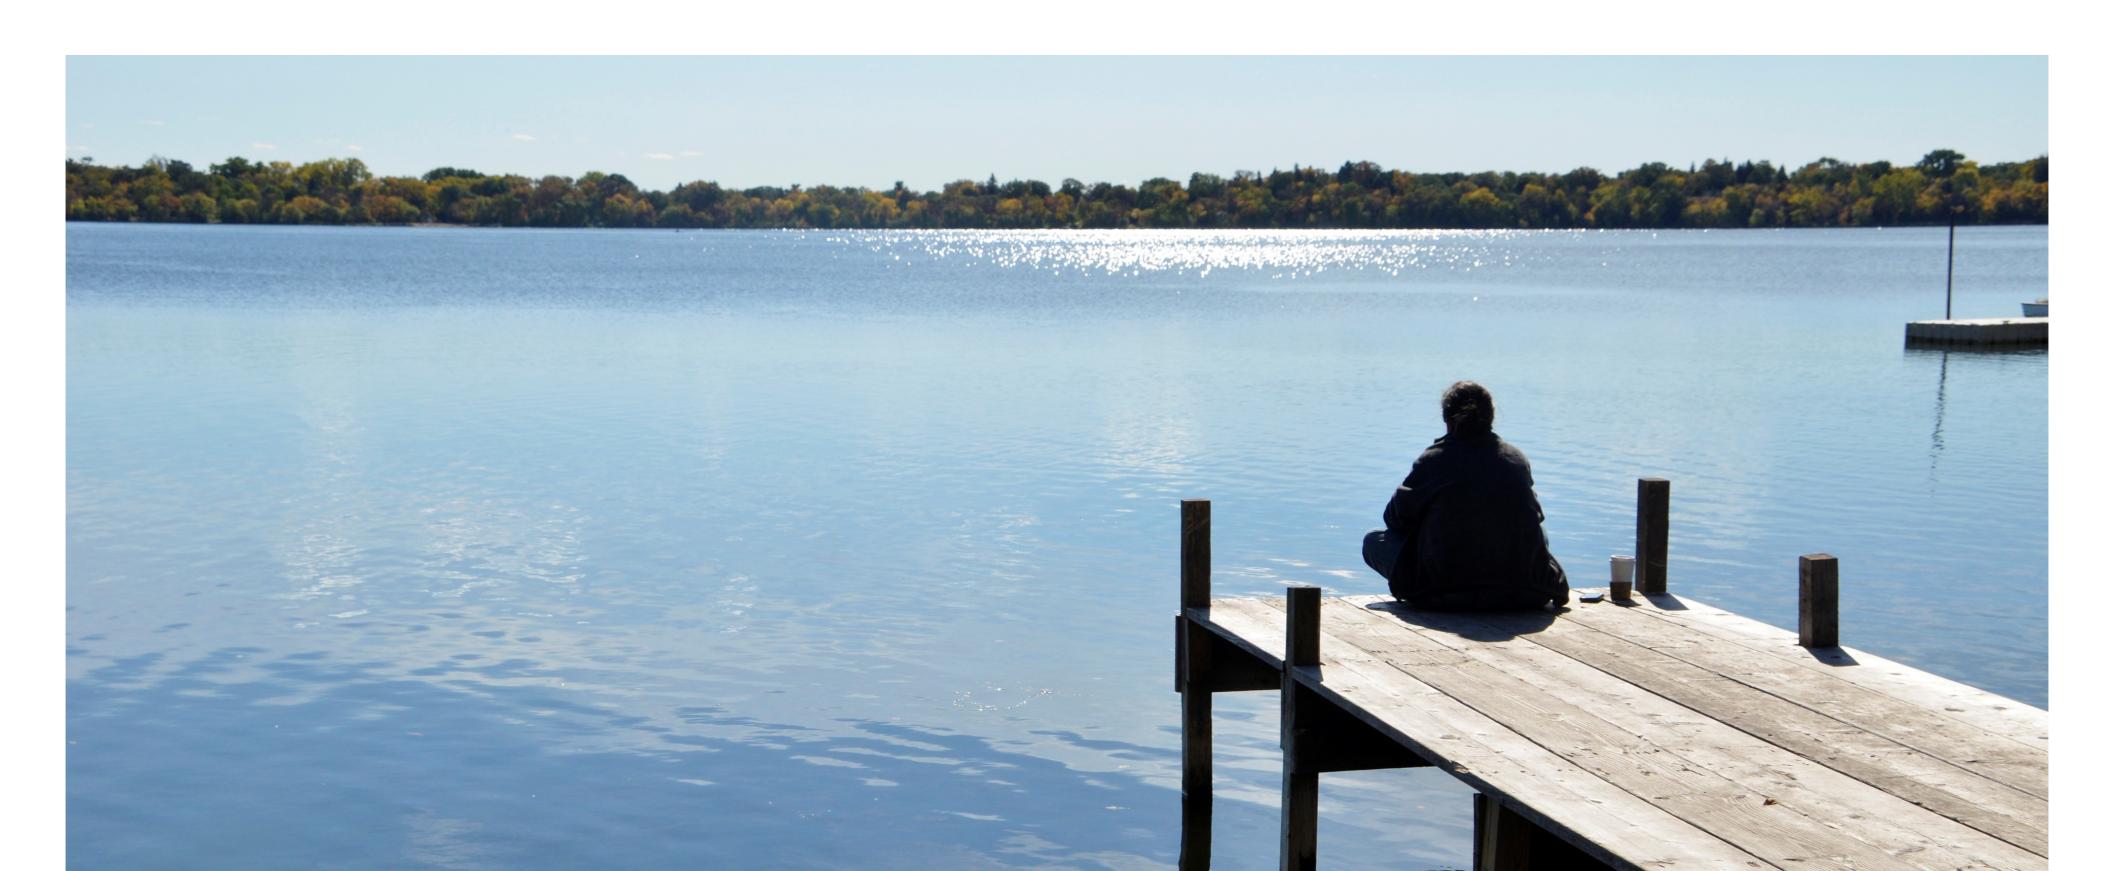

Thrive: Outcomes and Principles

Stewardship ...responsibly managing the region's resources, and making strategic investments in our region's future.

Stewardship

- Natural resources lakes, rivers, streams, wetlands, groundwater, natural habitats, and agricultural soils
- Financial resources, including tax base and use of public dollars.
- Pivoting from expanding to maintaining our region's wastewater and highway infrastructure.
- Leveraging transit investments with higher expectations of land use.

Prosperity ... investments that attract and retain successful businesses, a talented workforce, and, consequently, wealth.

Prosperity

- Fostering the conditions for shared economic vitality by balancing major investments across the region.
- Protecting natural resources that are the foundation of prosperity.
- Planning for and investing in infrastructure, amenities, and quality of life needed for economic competitiveness.
- Encouraging redevelopment and infill development.

Equity ...connecting all residents to opportunity and creating viable housing, transportation, and recreation options for people of all races, ethnicities, incomes, and abilities.

Equity

- ability.
- corridors.
- Engaging a full cross-section of the community in decision-making.

Using our influence and investments to build a more equitable region.

• Creating real choices in where we live, how we travel, and where we recreate for all residents, across race, ethnicity, economic means, and

Investing in a mix of housing affordability along the region's transit

Livability ...how places and infrastructure create and enhance the quality of life that makes our region a great place to live.

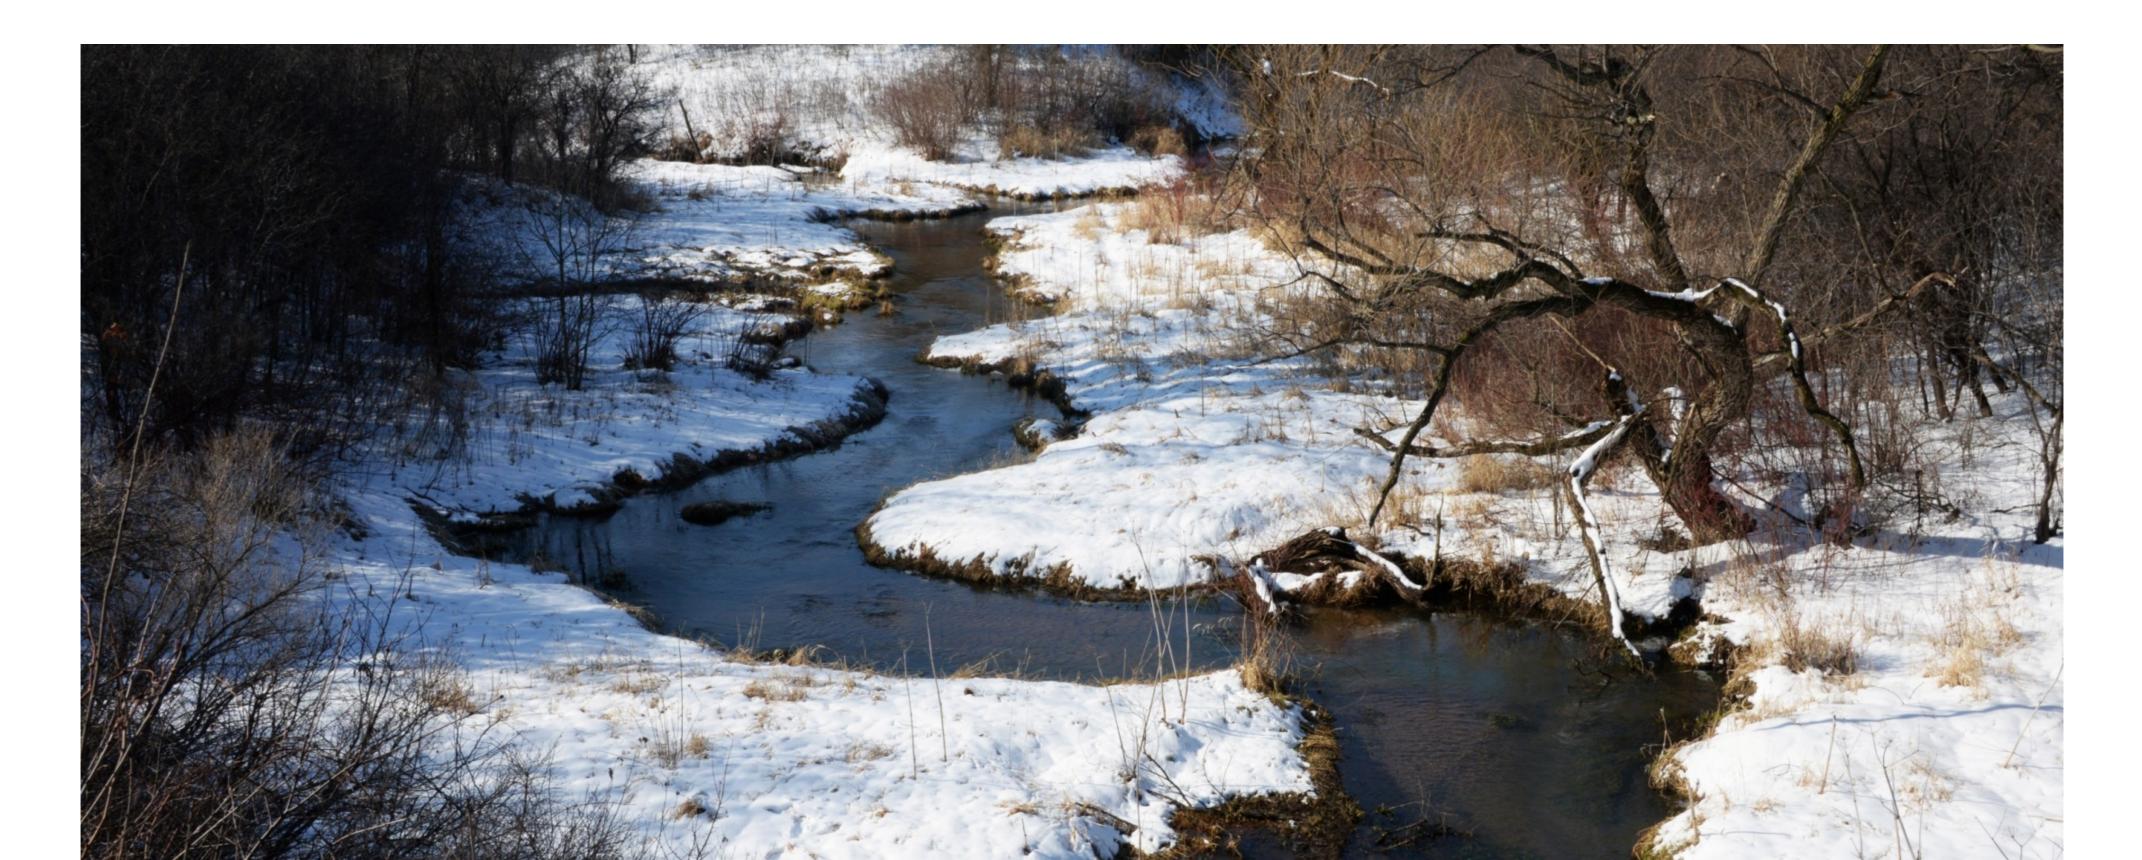

Livability

- Increasing access to nature and outdoor recreation through regional parks and trails.
- Providing housing and transportation choices for a range of demographics and economic means.
- Supporting facilities to promote bicycling for transportation, recreation, and healthy lifestyles.
- Aligning resources to support transit-oriented development and walkable places.
- Promoting healthy communities and active living through land use, planning, and investments.

Sustainability Three Serving our capacity to maintain and support our region's well-being and productivity over the long term.

Sustainability

- water and groundwater use.
- local governments' consideration of climate change mitigation, adaptation, and resilience.
- **Operating** the region's wastewater treatment and transit systems sustainably.

 Promoting the wise use of water through expanding water conservation and reuse, increasing groundwater recharge, and optimizing surface

Providing leadership, information, and technical assistance to support

Integration

Collaboration

Accountability

...leveraging multiple policy tools to address complex regional challenges and opportunities.

...shared efforts that advance our region most effectively toward shared outcomes.

...monitor and evaluate the effectiveness of policies and practices toward achieving shared outcomes.
