Community Development Committee
Meeting date: October 5, 2020
For the Metropolitan Council meeting of October 14, 2020

Subject: Livable Communities Demonstration Account Transit Oriented Development Funding Recommendations
District(s), Member(s): All
Policy/Legal Reference: Minn. Stat. § 473.253
Staff Prepared/Presented: Stephen Klimek, Senior Planner (651) 602-1541
Division/Department: Community Development / Regional Planning

Proposed Action
That the Metropolitan Council:

1. Award four Livable Communities Demonstration Account Transit Oriented Development grants as shown in Table 1 below, totaling $4,500,000.
2. Authorize its Community Development Division Director to execute the grant agreements on behalf of the Council.

Background
The Metropolitan Council has identified advancing Transit Oriented Development (TOD) along existing and planned transitways as a priority. The Livable Communities Act’s (LCA) TOD grant category supports development activities in identified TOD areas. The Council adopted the 2020 Livable Communities Act TOD guidelines, criteria, schedule, and evaluation process as part of the 2020 Annual Livable Communities Fund Distribution Plan (Business Item 2020-70) on February 26, 2020. The Fund Distribution Plan outlines a two-step evaluation process for LCDA-TOD Development grants. After a technical review by an interdivisional Council staff team (Step One), the Livable Communities Advisory Committee (LCAC) evaluates projects (Step Two) that
meet the minimum Step One scoring threshold. The LCAC funding recommendations are then presented to the Community Development Committee for consideration.

The 2020 Fund Distribution Plan made $4.5 million dollars available for the LCDA-TOD development program. The eight applications reviewed by the LCAC requested over $10.3 million. The LCAC is recommending fully funding three of the LCDA-TOD grant requests; the Minneapolis American Indian Center Expansion, Union Park Flats, and 1619 Dayton Ave; and partially funding one of the LCDA-TOD grant requests, Agra.

Rationale
Applications for LCDA-TOD Development grants were due July 1, 2020. Eight applications from five cities were submitted to the LCDA-TOD Development program. Metropolitan Council staff evaluated the applications using criteria outlined in the 2020 Fund Distribution Plan. All eight applications met the minimum Step One scoring threshold and moved on to the Step Two review conducted by the LCAC. After LCAC review, seven of the eight projects met the total minimum required score to be considered for funding.

The four LCDA-TOD grant requests recommended for funding scored the highest of the eight applications considered by the LCAC. Agra’s partial funding was determined by the maximum award limit per city set in the 2020 Annual Livable Communities Fund Distribution Plan. One of the four grant requests not recommended for funding did not meet the minimum combined score of 75 points to be recommended for funding. No funding was available for the remaining three grant requests not recommended for funding.

Thrive Lens Analysis
The Council’s investment in TOD projects responds directly to several Thrive outcomes.

- TOD funding will “leverage transit investments with higher expectations of land use” (Stewardship), providing a diversity of land uses in station areas while supporting increased ridership.

- This investment “encourages redevelopment and infill development” (Prosperity), adding a diversity of land uses, housing types and jobs supporting economic competitiveness over other regions.

- These projects provide a “mix of housing affordability along the region’s transit corridors” (Equity) and also “provide housing and transportation choices for a range of demographic characteristics and economic means” (Livability).

- TOD projects use land more efficiently and introduce a diversity of land uses in a smaller area, which in conjunction with transit access, allows more people to access more of their daily needs via walking, biking or transit, thereby reducing vehicular travel and associated auto infrastructure (Sustainability).

Funding
Funds are available in the Livable Communities authorized 2020 budget and Livable Communities reserve accounts. Additional reserve funds may need to be amended into the authorized budget in 2021, if grantee draws exceed forecasted cashflow needs.

Known Support / Opposition
Resolutions of support were received from each applicant community. There is no known opposition to the projects recommended for funding.
**Review Process**

The Council issued a Notice of Funding Availability in March 2020 following adoption of the 2020 Annual Livable Communities Fund Distribution Plan. Staff subsequently scheduled meetings with potential applicants to provide information on the LCDA-TOD process, criteria, and to discuss project ideas.

Staff convened the Design Excellence Workshops again for the seventh year. The design team assembled a volunteer group of architects, landscape architects, and urban designers to review projects in February and March, and provided suggestions for project improvements so that applicants could consider this feedback in their full applications.

Eight full applications were submitted on July 1, 2020. An interdivisional team of Council staff evaluated the applications using Council-approved Step One criteria in nine categories, including: TOD design; transit accessibility, walkability and ridership; environmental design; housing; jobs; and process and partnerships. All eight applications met the minimum Step One score threshold of 45 points to move to the Step Two review (see the 2020 Fund Distribution Plan for more detail on the scoring criteria). An application summary is shown in Table 2 below.

<table>

<th>Applications recommended for award</th>
</tr>
</thead>
<tbody>
<tr>
<td>LCDA-TOD</td>
<td>8</td>
<td>8</td>
<td>8</td>
<td>4</td>
</tr>
</tbody>
</table>

The Livable Communities Advisory Committee (LCAC) reviewed all eight projects on the Step Two categories of TOD innovation and demonstration value, catalyst, and readiness. The Committee’s scores, combined with scores from the Step One process, yielded a preliminary score. Seven projects met the minimum required combined scoring threshold of 75 points (Table 3). Four of the seven projects meeting the minimum score are being recommended for funding. The location of the recommend projects is illustrated Figure 1 below.

Community Recommended for Funding
Projects Not Recommended for Funding
The following projects are not recommended for funding and are grouped by the primary reason for non-selection, including not meeting the minimum score threshold and the limit on available funding.

**Did not meet minimum score**

**Core Crossing Apartments**
**Applicant:** City of Shakopee
**Determination:** Project scored 71.3 points

**Rationale:**
- The LCAC had concerns about how the buildings would function in and integrate with the surrounding community
- Questions about the lack of development and public realm framework or masterplan for the station area
- A pre-development grant application was encouraged to address LCAC concerns and questions

**Funding availability limited**

**Rosa Development**
**Applicant:** City of Bloomington
**Determination:** Project scored 83.3 points

**Rationale:**
- The LCAC identified the project as a catalyst for its neighborhood and found value in the projects Project strengths included
- Questions about the degree of public access to and usability of the development’s open green space

**Malcolm Yards Affordable Housing**
**Applicant:** City of Minneapolis
**Determination:** Project scored 94.8 points and the city’s maximum award limit reached

**Rationale:**
- The LCAC identified the project’s partnerships on stormwater, open space, and renewable energy as a strength.
- Questions about the new private street connection and associated traffic utilities

**1825 University Ave W**
**Applicant:** City of St. Paul
**Determination:** Project scored 85.4 points

**Rationale:**
- Mixed-use and mixed-income project
- Concerns were expressed about the project’s community engagement process
## Livable Communities Project Summary

**Grant #**: SG  
**Type**: LCDA-TOD Development  
**Applicant**: City of Minneapolis  
**Project Name**: Minneapolis American Indian Center  
**Project Location**: 1530 E Franklin Avenue, Minneapolis, MN 55404  
**Council District**: 7 – Robert Lilligren

### Project Overview

This is an expansion and renovation of the Minneapolis American Indian Center on Franklin Avenue in the Ventura Village neighborhood of south Minneapolis so as to accommodate their growing programs. The project will provide 45 FTE jobs and strengthen the facility as a core gathering place for cultural, social, arts, and fitness activities for the Native community.

### Jobs (FTEs)

<table>
<thead>
<tr>
<th>FTE</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>45</td>
<td>Total permanent living wage</td>
</tr>
<tr>
<td></td>
<td>* 7 FTE's are under the living wage threshold or are part-time</td>
</tr>
</tbody>
</table>

### Total housing units

0

### Affordable units

0

### Anticipated # bedrooms

0

### Other LCA Funding

None

### TOD metrics

- Floor-area ratio: 0.2
- Dwelling units per acre: 0
- Distance to station/stop: 1,485 feet
- Commercial Parking ratio: 2.67 stalls/1,000sqft

### Project Highlights

- This project is a community destination that will support increased transit use and walkability
- Provides employment opportunities and a range of cultural programs to an underserved population
- There is value in the retrofit of a community destination expanding and creating enhanced public space

### Funding Request

- **$750,000** TOTAL
  - **$150,000** Stormwater: infiltration / storage
  - **$155,000** Public Space: sidewalks, furnishings, lighting, and landscaping
  - **$345,000** Site Prep: demolition, grading and/or soil correction
  - **$100,000** Placemaking: public art

### Project Detail

<table>
<thead>
<tr>
<th>Project Overview</th>
<th>The Agra project is the new construction of affordable housing along Franklin Avenue in the Seward neighborhood of south Minneapolis by Newport Midwest. The project includes 117 units of 2- and 3-bedroom units intended for families. The project also includes a greenhouse and growing facility to provide space for hydroponic food production, as well as a stormwater management system for reuse in the hydroponic growing system.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jobs (FTEs)</td>
<td>9.26 FTE, 9.73 total permanent living wage</td>
</tr>
<tr>
<td>Total housing units</td>
<td>175</td>
</tr>
<tr>
<td>Affordable units</td>
<td>18 @ &lt;30% AMI, 70 @ 31-50% AMI, 87 @ 51-60% AMI</td>
</tr>
<tr>
<td>Anticipated # bedrooms</td>
<td>336</td>
</tr>
<tr>
<td>Other LCA Funding</td>
<td>None</td>
</tr>
</tbody>
</table>

### TOD metrics

- Floor-area ratio: 5.85
- Dwelling units per acre: 176.77
- Distance to station/stop: 756 feet
- Residential parking ratio: 0.6 stalls/unit
- Commercial Parking ratio: 6.2 stalls/1,000sqft

### Project Highlights

- This is a high-density project that provides housing choice for low-income families in an amenity and transit rich neighborhood
- There is value in the integration of affordable family housing and urban food production

### Funding Request
