Grand Rounds Missing Link Regional Trail, Park Acquisition Opportunity Fund Award (Wall), Minneapolis Park and Recreation Board

Proposed Action

That the Metropolitan Council:

1. Approve a grant of up to \$2,910,158 from the Park Acquisition Opportunity Fund to the Minneapolis Park and Recreation Board to acquire the West Park and East Park parcels totaling 1.4 acres located at 525 Malcolm Avenue South in Minneapolis, MN, for the Grand Rounds Missing Link Regional Trail.
2. Authorize the Executive Director of Community Development to execute the grant agreement and restrictive covenant on behalf of the Council.

Summary of Metropolitan Parks and Open Space Commission Discussion

Jessica Lee presented the staff report to the Metropolitan Parks and Open Space Commission on June 5, 2025. Adam Arvidson from Minneapolis Park and Recreation Board (MPRB) helped answer questions.

Council Member Wendy Wulff asked about Environment and Natural Resources Trust Fund (ENRTF) eligibility since the property doesn't have existing natural resources. Lee responded that the current appropriations allow for lands that have restoration potential. Commissioner Cecily Harris then asked what the plans are for restoration of the site. Arvidson described the desire to make the parcels similar to other green corridors, with wider landscaped areas for naturalization, water management including wetland restoration, and prairie passageway alongside recreation amenities.

Chair Tony Yarusso asked about funding and whether we were splitting funding for eligibility reasons. Lee responded that the parcels are eligible for both ENRTF and Parks and Trails Legacy Funds but that the current agency cap for funding is \$1.7 million from each source, so this grant will require funding from both.

Wulff asked why the trail easement between the subject parcels is not part of this grant request. Arvidson explained that the trail easement portion was acquired through other means because of development demands. The park board wanted to pursue grant funding for the West and East Park parcels because they were available to acquire in fee title.

Harris asked if the trail will accommodate pedestrians and Arvidson responded that yes, there will be separate bike and pedestrian trailways. Commissioner Tess Bouska asked if the railroad north of the property will affect the potential of a wildlife corridor. Arvidson responded that it will be a challenging corridor for some types of wildlife but that the near future focus will be on building the trail up from the East River Parkway, which will allow for a habitat corridor from the Mississippi River. Then they will focus on the northern part of the trail connecting from Saint Anthony Parkway. The railroad crossing will likely be the last part of the trail completed as it is the most challenging.

Yarusso asked how the railroad crossing location was chosen. Arvidson responded that they conducted a feasibility study to determine the best location for the future bridge over the railroad yard; other public properties nearby will make partnering easier for take-off and landing on either side of the yard. Wulff asked whether there were concerns around acquiring the “park” parcels for the trail rather than the easement. Yarusso responded that the parcels are included in the approved long-range plan. Arvidson confirmed that the park board’s intention is to have park-like nodes along the trail to provide a more natural regional trail experience in an urban area.

Yarusso asked if the name of the regional trail has been changed from the Missing Link. Arvidson explained that the trail is being re-named the Bridal Veil Regional Trail but that this project was submitted before the policy documents formally changed the name.

Commissioner David Yakes asked about the space between the blue parcels on the trail easement and Arvidson responded that it is a road right-of-way. Yakes then asked if this parcel would close the loop for the Grand Rounds. Arvidson explained that no, this is not the last part of the Missing Link. The entire regional trail itself- the Missing Link- is needed to close the loop, and these particular parcels are probably the most challenging part of the entire challenging project. Arvidson also explained that most of the trail will not require acquisition from developers, and this property was a priority as it’s in a rapidly developing area.

Motion by Commissioner Monica Dillenburg, seconded by Commissioner Yakes, the Commission voted unanimously to pass the proposed action.

Proposed Action

That the Metropolitan Council:

1. Approve a grant of up to \$2,910,158 from the Park Acquisition Opportunity Fund to the Minneapolis Park and Recreation Board to acquire the West Park and East Park parcels totaling 1.4 acres located at 525 Malcolm Avenue South in Minneapolis, MN, for the Grand Rounds Missing Link Regional Trail.
2. Authorize the Executive Director of Community Development to execute the grant agreement and restrictive covenant on behalf of the Council.

Background

Regional Park Implementing Agency and Project Request

The Minneapolis Park and Recreation Board requested a Park Acquisition Opportunity Fund (PAOF) grant on November 8, 2024, to fund the acquisition of two small parcels (West Park and East Park) totaling 1.4 acres for the Grand Rounds Missing Link Regional Trail. A copy of the Agency's request is attached to this item as Exhibit 2 with application details in Exhibit 3.

The Grand Rounds Missing Link Regional Trail is part of the Grand Rounds Parkway System and is the only uncompleted section. The Missing Link will travel between St. Anthony Parkway in Northeast Minneapolis and East River Parkway in Southeast Minneapolis (see Exhibit 1, Figures 1, 2 and 3).

Subject Property

The subject property is within the Council-approved boundary of the Grand Rounds Missing Link Regional Trail. This part of Minneapolis is a mix of residential, commercial, and industrial uses and the acquisition of the subject property - parcels West Park and East Park - will provide crucial trail connections as well as restored nature to a neighborhood that lacks green space (see Exhibit 1, Figure 4).

Park Acquisition Opportunity Fund (PAOF)

The Council's Park Acquisition Opportunity Fund (PAOF) Program provides funding to purchase property and easements via two state sources: the Parks and Trails Legacy Fund (PTLF) and the Environment and Natural Resources Trust Fund (ENRTF). The Council contributes by matching every \$3 in state funds with \$2 in Council funds. The \$3 to \$2 match is required at the program level, not the individual project level.

State and Council funds contribute up to 75% of the purchase price and eligible costs; the Regional Park Implementing Agency (Agency) contributes the remaining 25% as local match.

Project Budget

The appraised value of the subject property is \$3,720,100, and the Seller has agreed to a lower amount of \$3,437,404. See Exhibit 4 for more information on the appraisal. The total project cost including legal fees, taxes, and appraisal is \$3,880,210, as shown in Table 1 below.

Table 1. Project Budget

Budget item	Requested amount
Appraised value	\$3,720,100
Appraisal, legal fees, taxes, closing costs	\$160,110
Total Costs	\$3,880,210
 Grant structure	
Grant amount	\$2,910,158
Local match	\$970,052

Acquisition Details

This is a straightforward fee title acquisition of a former industrial site. The site will be cleaned prior to acquisition. A trail easement connecting the West Park and East Park parcels will also be obtained but is not part of this grant request (see Exhibit 1, Figure 4).

Rationale

Council staff conduct the review of each PAOF request on a first-come-first-served basis under the following standards:

- the proposed acquisition complies with state statute and Council policy
- all necessary documentation for the acquisition is in place
- the appraisal is reasonable and appropriate

This acquisition is consistent with:

- The Environment and Natural Resources Trust Fund
- The Parks and Trails Legacy Fund
- The *2040 Regional Parks Policy Plan*
 - Planning Policy Strategy 1 requires that before an Agency can receive a grant for acquisition, the proposed project must be consistent with a Council-approved long-range plan. The Council approved the Grand Rounds Missing Link Regional Trail long-range plan amendment in 2019 ([Business Item 2019-226](#)). The proposed acquisition is within the boundaries of the approved long-range plan.

- Siting and Acquisition Strategy 1 prioritizes the acquisition of lands with natural resource features, access to water, and/or restoration potential for the Regional Parks System. The subject property is necessary to complete the Grand Rounds Missing Link Regional Trail, has restoration potential, and will provide green space in an industrial neighborhood.
- Finance Strategy 7 authorizes the use of PAOF as the funding mechanism for the acquisition of Regional Park and Trail lands and matching every \$3 in state funds with \$2 in Council bonds.

Thrive lens analysis

On February 12, 2025, the Council adopted Imagine 2050, which builds on the policy direction in Thrive MSP 2040. Under the Thrive lens, this request is consistent with Thrive MSP 2040's Livability and Stewardship outcomes. The Council's investment in the Grand Rounds Missing Link Regional Trail will provide access to nature and the outdoors and enhance quality of life in the region.

Funding

The Council will fund the 75% share with the Environment and Natural Resources Trust Fund, the Parks and Trails Legacy Fund, and Council funds. The PAOF program has available funds in the Council's Authorized Capital Program.

The Minneapolis Park and Recreation Board will provide a local match of \$970,052.

Re: Parks Acquisition Opportunity Fund Request for MPRB's Grand Rounds Missing Link Regional Trail

Dear Mr. Mullin:

The Minneapolis Park and Recreation Board (MPRB) would like to formally request a grant from the Park Acquisition Opportunity Fund (PAOF) in the amount of \$2,910,158 to acquire a portion of the Grand Rounds Missing Link Regional Trail. This specific request will be matched by \$970,052 in local funding from MPRB and the Mississippi Watershed Management Organization, and donated land value. MPRB proposes to use the PAOF to acquire two parcels in close proximity, as part of a larger multi-faceted deal with a major developer in the Prospect Park neighborhood of Minneapolis. The parcels together total 60,000 square feet (1.38 acres) and are both currently part of a single parcel that will be subdivided prior to closing. That parcel's address is 525 Malcolm Ave SE, Minneapolis, MN 55414.

In addition to these two parcels, MPRBV has worked with Wall Development to secure a trail easement connecting them together and extending farther northward. These "trail corridor" parcels constitute another 45,350 square feet (1.04 acres). Though not part of this grant request financially, we feel it is important to share that all these parcels will be acquired simultaneously, thereby implementing a critical reach of the Missing Link through a property poised for rapid development. Wall Development has been a long-term and creative partner in this work. Overall, this is a complicated deal with multiple funding sources: cash, in-kind, grants, ordinance leverage, in-house services, developer services, and park dedication fees.

In the context of this overall agreement scheme, MPRB feels it is most appropriate to activate PAOF funding for the two "park parcels," both of which are being acquired as fee-title parcels to MPRB.

Please contact me directly if you have questions with this request.

Acquisition method

Acquisition method Fee title, Park dedication fees, Donation

If the acquisition method is anything other than routine, provide more detail.

This question seeks a general description of the acquisition method - is this a routine purchase, or does it involve a land donation, park dedication fees, condemnation, or some combination? Please use this space to describe the overall acquisition **project**.

The requested grant support is for one portion of a significant land transaction with a single developer, who owns a large tract of land in the vicinity. The deal is best understood in three parts:

-- WEST PARK is an approximately 52,000 square foot parcel with an abandoned building that requires environmental cleanup. This parcel is subject to the \$62 per square foot appraisal and will be purchased as fee title and remediated prior to acquisition.

-- EAST PARK is a roughly 8,000 square foot parcel non-contiguous to the west park. This parcel is subject to the \$62 per square foot appraisal and will be purchased as fee title and remediated prior to acquisition.

-- TRAIL CORRIDOR connects the two park parcels and will exist as an easement across developer-owned land. The main route of the Missing Link will pass through the west park, then the corridor, then the east park. The trail corridor is NOT subject to this grant request. it is being acquired under a different mechanism available to MPRB: the parkland dedication ordinance.

Does this acquisition involve eminent domain? No

Eminent domain

If eminent domain is being used:

(1) you must upload a copy of the notice your Agency provided to the Council that the petition to the Court was filed.

(2) Include documentation of your governing body's authorization (on the Other Acquisition Attachments web page).

When was the Council notified of your intention to use eminent domain?

Date the petition was filed.

Settlement date

Public domain

Note that ENRTF funding cannot be used for acquisitions of property already in the public domain unless a minimum of 12 LCCMR commissioners approve the transaction. If this is a public domain acquisition and if you propose using ENRTF, be sure your closing schedule accommodates planning to be included on a future LCCMR agenda.

Is any portion of the property currently in the public domain? No

If yes, describe/name the entity and the portion of the property it owns, as well as why this public-to-public transfer is necessary.

Closing date

The Council will process all acquisition requests expeditiously, but we do not guarantee that the approval process will be completed to meet your requested closing date. This date will be considered an **estimate** only. However, the acquisition must be completed during the standard one-year grant term unless prior approval is obtained from the Council or the grant term is amended.

Does the requested grant amount include relocation costs?

If there are habitable structures, could they be relocated? If yes, how? If no, why not?

If the property contains habitable structures or revenue-generating businesses, describe:

For ENRTF funding only

If this will use ENRTF funding, LCCMR rules require that you describe the selection process used to identify these proposed parcels.

NOTICE: ENRTF funding has specific requirements for disseminating information to the public when property is purchased through the Trust Fund. It is the agency's responsibility to meet those requirements and to provide documentation to the Council BEFORE payment will be made.

MPRB has been in negotiation with the current owner of this and adjacent sites for multiple years. Through this negotiation, it has been determined which parcels make sense to acquire through utilization of the Minneapolis parkland dedication ordinance and which parcels should be purchased outright. This property was chosen for outright purchase because it is largely unencumbered with easements, requires environmental clean-up, and cannot meet certain requirements of the park dedication ordinance's land dedication requirement.

Stewardship and minimal access**Describe the stewardship plan.**

An inventory and analysis of existing land cover for the Missing Link alignment was done using the Minnesota Land Cover Classification system developed by the Minnesota Department of Natural Resources and the Metro Geographic Information System. The result of the inventory shows, for the most part, that the area is highly developed with industry, commercial, and residential uses. Open or 'green' space along the overall Missing Link route can be considered at Gross Golf Course and Sunset/ Hillside Cemetery. The site in question here has no existing natural resources and will require full restoration of any natural systems (as opposed to enhancement of degraded existing systems, of which there are none). Along the Missing Link route, there are no known or identified natural, unique, or sensitive land cover types (See Figure 34 and Figure 35.) (GRML Master Plan pg. 5)

Ecological and stewardship goals for the acquisition site: as a previously industrial site, the top four feet of fill will need to be removed and replaced with clean fill and topsoil. The future park will integrate stormwater management on site and include native plantings for wildlife benefit.

How will the stewardship implementation be funded?

Specific land stewardship costs will primarily be associated with environmental clean-up (soil remediation, building demolition/preservation, site access control), which will be funded by the seller and potentially by the buyer through sources external to the PAOF grant.

Development of the park, including planned naturalized areas and stormwater management for healthy waterways, will be funded by MPRB subsequent to site acquisition, likely through the use of Park Dedication Funds (area developer fees).

Are you requesting funds to provide minimal access to the property (prior to it being open to the public) as part of this grant request?

No

If yes, how will those funds be used?

The Parties agree the REOA shall be amended on or before the Closing to release the Easement Areas, West Park and East Park from the REOA entirely, provided that utility easements provided therein related to the Easement Areas for utility lines currently installed below ground

L. **Records.** Buyer desires to purchase (i) the Land, and (ii) all records of Seller regarding the Land, including all environmental reports, soil tests, surveys (hereinafter all such records shall be referred to collectively as the "**Records**", and hereinafter, the Land and Records are sometimes referred to collectively as the "**Property**") in accordance with the terms and conditions hereinafter set forth.

2. **CONTINGENCIES.** The obligations of Buyer contained in this Agreement are contingent upon each of the following:
 - (a) The representations and warranties of Seller contained in this Agreement must be true and correct in all material respects on the date of Closing as if made on and as of the date of Closing and Seller shall have delivered to Buyer at closing a certificate dated as of the Closing Date certifying that such representations and warranties are true and correct in all material respects as of the Closing Date (the "**Bring-Down Certificate**").
 - (b) Title to the Land and Easement Areas shall have been found to be marketable, in accordance with the terms and conditions of Section 3 hereof.
 - (c) Seller shall have performed in all material respects all of the obligations required to be performed by Seller under this Agreement, as and when required to be performed by Seller hereunder, including, but not limited to, the following:
 - (i) Within five (5) days after the Effective Date, Seller shall deliver to Buyer copies of the Records;
 - (ii) Within fourteen (14) days after the Effective Date, Seller shall, at its expense, deliver to Buyer a current ALTA/NSPS Survey for the Land and Easement Areas certified to Buyer and the Title Company containing the level of detail provided for in Table A items 1, 2, 3, 4, 6, 7(a)-(c), 8, 9, 10, 11, 13, 14, 16 and 17 (the "**Survey**").
 - (iii) Within fourteen (14) days after the Effective Date, Seller shall, at its expense, deliver to Buyer a commitment issued by Guaranty Commercial Title, Inc. (the "**Title Company**") for an owner's title insurance policy for the Land (fee title) and Easement Areas (easement), certified to date to include property searches covering bankruptcies, state and federal judgments and liens, and levied and pending special assessments (the "**Title Commitment**"), together with copies of all documents referred to in the Title Commitment as creating exceptions to title. The Title Commitment will commit the Title Company to insure fee title to the Land and affirmatively insure the easement rights in the Easement Areas provided for in the Parkland Easement Agreement, subject only to the Permitted Encumbrances (as hereinafter defined).

- (iv) From and after the Effective Date through the Due Diligence Period, Seller shall allow Buyer, and Buyer's engineers, environmental consultants and other agents, full and free access to the Land at all reasonable times for the purpose of performing any and all appraisals, audits, assessments, testing, surveys, inspections and investigations of the physical and regulatory status and condition of the Land as Buyer in its sole discretion may deem necessary or advisable (collectively, the "**Due Diligence Review**"). Buyer shall pay all costs and expenses incurred by Buyer for all charges owed to third parties with whom Buyer has contracted for any and all Due Diligence Review, and shall indemnify (subject only to those limitations provided in Minnesota Statutes Section 466), defend and hold Seller and the Land harmless from and against any and all claims by any third parties for damages, personal injuries, property damage or other losses caused by such Due Diligence Review performed on or about the Land by Buyer or by any other person or entity at Buyer's request, and shall within twenty (20) days after Buyer receives notice of the filing thereof, remove any mechanic's liens filed against the Land resulting from Buyer's activities on the Property. In connection with its Due Diligence Review, Buyer will use commercially reasonable efforts to avoid unreasonable interference with Seller and Seller's tenants and licensees in connection with their use and occupancy of the Land. Buyer shall return the Land to its prior condition after any and all reviews or testing.
- (v) Within fourteen (14) days after the Effective Date, Seller shall contract with Stantec or approved alternate ("**Environmental Engineer**") to provide a Phase I Environmental Site Assessment report in accordance with ASTM E1527-21, addressed to Seller, Buyer and the Metropolitan Council, for the Land and Easement Areas ("**Phase I**"). Within fourteen (14) days after the Effective Date, the parties shall endeavor to agree on the scope of a Phase II investigation ("**Phase II**") which will, at a minimum (i) investigate the extent of any contamination in soil, soil gas and groundwater on the Land or Easement Areas identified as a "recognized environmental condition," (ii) investigate the presence of any soil contamination on the Land and Easement Areas, in the Minnesota Pollution Control Agency's ("**MPCA**") potentially accessible zone, at a depth of between 4 feet and 12 feet ("**4 Feet and Over Depth**") ("potentially accessible zone"), which would be required to be remediated to satisfy the MPCA Recreational/Residential Soil Reference Values ("**Residential Standards**"), (iii) investigate the presence of any soil contamination on the Land and the Easement Areas in the "potentially accessible zones" established by the Minnesota Pollution Control Agency, at a depth of up to 4 feet ("**Up to 4 Feet Depth**"), which would be required to be remediated to

satisfy the Residential Standards, and (iv) investigate any other facts or circumstances recommended by the Environmental Engineer and Buyer's environmental consultant (collectively, the "**Adverse Environmental Conditions**"). Within fourteen (14) days of the delivery of the Phase II to Buyer and Seller, the Environmental Engineer shall determine the work, cost and timing to remediate the Adverse Environmental Conditions. If the cost of such remediation, including any legal clearances or approvals from appropriate government agencies that address the continued presence of an Adverse Environmental Condition, which is not otherwise reimbursed by the Grant is estimated to exceed the sum of 25% of such remediation cost plus \$300,000.00 (the "**Maximum Remediation Cost**"), then the parties shall cooperate in good faith for a period of one year after the Maximum Remediation Cost is determined to attempt to reduce the remediation costs and/or find other funding sources for such costs (and the Extended Due Diligence Period shall be extended, if necessary, to accommodate such one year period). But if such cooperation fails to reduce Seller's remediation costs to the Maximum Remediation Cost, then Seller shall have the right to terminate this Purchase Agreement in its sole discretion. Seller shall pay for the cost of the Phase I and Phase II, and perform and pay for the work required to remediate the Adverse Environmental Conditions (in the event this Purchase Agreement is not terminated) subject to potential reimbursement from the proceeds of the Grant.

- (d) Buyer shall have determined, on or before November 30, 2024 (the "**Due Diligence Period**"), that it is satisfied in its sole and absolute judgment with the results of and matters disclosed by the Due Diligence Review. Notwithstanding the prior sentence, the expiration of the Due Diligence Period shall be extended, if necessary, to a date which is fourteen (14) days after the later to occur of (i) Metropolitan Council approval of the Grant, (ii) determination by Buyer that it has sufficient funds to purchase the Land, (iii) completion of the Work by Seller, and (iv) delivery of the Approved Plat; provided such extension shall not extend beyond November 30, 2025 ("Extended Due Diligence Period"). Notwithstanding the foregoing, the only contingencies so extended beyond December 31, 2024 pursuant to the Extended Due Diligence Period shall be those stated in Paragraph 2(a), (f), (g), (h), (i) and (j) and all other contingencies contained herein shall be deemed waived as of the expiration of the Due Diligence Period.
- (e) Buyer shall have determined on or before the expiration of the Due Diligence Period that it is satisfied in its sole and absolute judgment with its review and analysis of the Records.
- (f) On or before the expiration of the Due Diligence Period, Buyer shall have determined in its sole and absolute judgment that it has all funds necessary

and sufficient to purchase the Land and satisfy its obligations hereunder. In connection with such funding, once the Phase II is completed and the costs of remediating the Adverse Environmental Conditions have been identified and agreed upon by the parties, within a reasonable time thereafter Buyer shall prepare and submit the application for the Grant which incorporates those costs. Buyer's obligation to close is subject, with respect to the Grant, to an award by Metropolitan Council of an amount equal to no less than the sum of (i) seventy-five percent (75%) of the Purchase Price less the Seller Donation, and (ii) seventy-five percent (75%) of all costs of environmental investigations and remediation of Adverse Environmental Conditions (inclusive the demolition of the Building, retaining wall, curb cuts, removal of asbestos and any other improvements and contaminants) which must be determined on or before the expiration of the Due Diligence Period.

- (g) Prior to expiration of the Due Diligence Period, Seller and Buyer shall have approved the form of the proposed Plat, and prior to Closing, the form of the Plat approved by Seller and Buyer shall have been approved by the City of Minneapolis and Hennepin County, and signed by all necessary parties and recorded on the Closing Date (the "**Approved Plat**").
- (h) On the Closing Date, the Land shall in all material respects be in the same condition as it was in as of the date of this Agreement, subject to the Work to be performed by Seller pursuant to this Agreement. Buyer shall be entitled to a final walk through inspection of the Land prior to the Closing to confirm the satisfaction of this condition.
- (i) On or before the Closing Date, Seller shall cancel or terminate all existing licenses, easements, leases and occupancy agreements affecting the Land (other than those not objected to by Buyer pursuant to Paragraph 3 hereof and those easements provided and referenced in the Recitals which are incorporated herein), effective as of the Closing Date, and provide evidence of such cancellation or termination, except to the extent such agreements have been approved by Buyer in writing.
- (j) On or before the Closing Date, Seller shall have completed and paid for the Work, and assign to Buyer any warranty it has received from its contractor as to turf establishment to be completed post-Closing, on terms reasonably satisfactory to Buyer. Notwithstanding the foregoing, the Parties hereto agree that the Grant application shall include an amount equal to 75% of the cost of the removal of the Building, retaining wall, curb cuts, asbestos and any other improvements and contaminants which are included in the Work.
- (k) Buyer shall confirm the availability of (i) electricity, storm sewer, and water utilities to the East Park and Easement Areas, and (ii) electricity, sanitary sewer, gas, storm sewer and water utilities to the West Park. To the extent there is no availability to utilities Seller shall grant easements over land owned by Seller no wider than ten (10) feet over parcels adjoining the

Easement Areas inclusive of granting utility easements within the Easement Areas in areas determined in the sole discretion of Seller, such easements shall be located and evidenced by utility easement agreements reasonably acceptable to Buyer and Seller prior to the expiration of the Due Diligence Period and executed and delivered by Seller at Closing (the "Utility Easements").

To the extent any of the foregoing contingencies describe actions or other obligations of the parties, such provisions shall constitute contractual obligations of such parties and not merely contingencies. If any of the foregoing contingencies have not been satisfied on or before the date indicated, then Buyer may, at its option, cancel this Agreement by giving written notice of cancellation to Seller not later than the date indicated, and in such event this Agreement shall be null and void and neither party will have any further rights and/or obligations under this Agreement other than those which expressly survive cancellation or termination. All of the contingencies set forth in this Agreement are specifically stated and are for the sole and exclusive benefit of Buyer and Buyer shall have the unilateral right to waive any contingencies by giving written notice to Seller.

3. **TITLE MATTERS.** Seller shall timely provide the documentation described, and at the times indicated, in Section 2(c)(ii) and (iii). Buyer shall have twenty (20) days after receipt of the Survey, proposed Plat, the Title Commitment and copies of all documents referenced in the Title Commitment and/or Survey to render written objections to Seller regarding the status of title. Notwithstanding the foregoing, Buyer agrees it will not object to the existing underground electric and irrigation located in the Easement Area or storm sewer line or watermain located on the West Park as Buyer agrees to take the West Park and Easement Areas pursuant to the Parkland Easement Agreement subject to the same, provided that, on or prior to the expiration of the Due Diligence Period, Buyer can negotiate utility easements for the storm sewer line and watermain acceptable to Buyer and obtain the right to access such watermain and storm sewer for its use. If such rights cannot be negotiated Seller agrees to remove the storm sewer line but shall have the right to decline to take any action with the watermain as further provided herein related to the response to any written objection from Buyer. Within ten (10) days of its receipt of such written objections, Seller shall notify Buyer in writing whether it intends to cure all of such title objections at its expense; provided, however, that notwithstanding the foregoing, Seller shall be required to pay and discharge at or before the Closing all mortgages, mechanics' liens, and judgment liens. If Seller elects to cure such objections, Seller shall be allowed sixty (60) days from the date of Buyer's written objections to cure such objections. Pending correction of title objections, the Closing shall be postponed.

If Buyer's title objections are not cured by Seller within sixty (60) days from the date of written objections by Buyer as above provided, or if Seller notifies Buyer that it has elected not to cure one or more of Buyer's title objections, then Buyer may, at its option, either (i) cancel this Agreement by giving written notice of cancellation to Seller within ten (10) days of receiving Seller's notice, or (ii) waive

any defects to the title and proceed to Closing. If this Agreement is cancelled, neither party shall be liable for damages hereunder to the other party. If title to the Land is found marketable or is so made within said time, or if Buyer does not object to title in writing within twenty (20) days as described above, then Buyer will be deemed to have accepted title as satisfactory.

At Closing, Buyer shall receive from the Title Company a marked-up title commitment or proforma owner's policy in accordance with the Commitment negotiated by Buyer pursuant to this Section 3 (the "**Title Insurance Policy**"). If the Title Insurance Policy which the Title Company is prepared to issue shows any exceptions or encumbrances other than Permitted Encumbrances or any new title exceptions not shown on the Commitment or Survey that are unacceptable to Buyer ("**Unpermitted Encumbrances**"), Buyer shall provide notice of the same to Seller within five (5) business days of learning the same and Seller covenants and agrees, within ten (10) days after the later of said notice from Buyer or the scheduled Closing Date (such 10-day period being sometimes hereinafter referred to as the "**Cure Period**"), to use its best efforts to remove such Unpermitted Encumbrances or to cause the Title Company to issue its endorsement over any such Unpermitted Encumbrances, which endorsement shall be in form and substance reasonably acceptable to Buyer and the Closing shall be delayed while Seller undertakes such efforts. If, after using its best efforts, as aforesaid, Seller cannot cause such Unpermitted Encumbrances to be removed or if Seller cannot cause the Title Company to issue its endorsement over any such Unpermitted Encumbrances on or before the expiration of the Cure Period, Buyer shall, within five (5) business days following expiration of the Cure Period, elect to either (i) terminate this Agreement (other than obligations which, according to this Agreement, survive such termination), and neither party will have any further obligations (other than obligations which survive any such termination), or (ii) take title to the Property subject to the Unpermitted Encumbrances as it then is (without any reduction in the Purchase Price), provided that Seller shall remove any mortgage or similar financing lien created by or through Seller. Failure of Buyer to notify Seller within the time limits prescribed herein shall constitute an election under clause (ii) above.

Notwithstanding anything to the contrary in this Paragraph 3, Seller shall cause the Easement Areas to be released from the Reciprocal Agreement Regarding Easements, Restriction and Covenants dated January 19, 2022, recorded with the Hennepin County Registrar of Titles on January 19, 2022 as Doc. No. T5913948. Buyer and Seller agree to the recording of the REOA Amendment, Declaration of Easements and Existing Utility Easement Agreements.

At Closing, Seller shall donate Two Hundred Thousand and NO/100 Dollars (\$200,000.00) to Buyer, to be applied to payment by Buyer of the Purchase Price ("Seller Donation"). 12. **CONTRACT FOR DEED OPTION.** If the portion of the Met Council Grant award allocated to payment of the Purchase Price is insufficient to fully fund seventy-five percent (75%) of the Purchase Price and any related Buyer expenses, Seller and Buyer agree that Buyer, at Buyer's option, may purchase the East Park parcel and/or the West Park parcel, at Buyer's option, for a portion of the Purchase Price not to exceed \$1,000,000.00, pursuant to a Contract for Deed in form and substance as provided on Exhibit I, with interest at an annual rate of seven percent (7.0%), payable monthly, with the unpaid principal balance due and payable in full five (5) years after the Closing Date. In such case, the Purchase Price payable by Buyer at Closing shall be reduced by the principal amount of such Contract for Deed.
13. **SELLER COOPERATION.** Seller shall not oppose any operations and improvements by Buyer of the West Park, East Park and Easement Areas so long as they are consistent with what is commonly done on a park, subject to the terms of the Parkland Easement Agreement, including "Grand Rounds" uses and programs. Seller shall cooperate with Buyer and support any applications by

Buyer, at no cost and expense to Seller, for funding related to the improvement and operations of the West Park, East Park and Easement Areas. The terms and conditions of this Paragraph 13 shall survive and be enforceable after the Closing.
