2. Is there political will, or potential opposition?
3. Does it fill an existing gap or need?
4. What is the likely impact?
5. Are resources available (individuals, expertise, funding)?
6. Does it require policy reform? Or change to practices?
7. What is the estimated timeframe to implement?
8. Does it advance equity and, if so, how?
9. Will it remove a critical barrier or accelerate an opportunity to achieve an outcome of interest?
10. Might it generate an unintended consequence?

- Added a rough draft “introduction” to frame the work group’s people-centered approach
