

**Business Item 2018-310:**  
**Full Service Interceptor Engineering**  
**Master Contracts**

Scott Dentz, Interceptor Engineering Manager

Environment Committee: November 13, 2018

# Need

- Authorized Capital Program (ACP) for interceptor system (piping, metering, lift stations, odor control) work is \$660 million. Approximately \$240 million is for interceptor lift stations, meters and forcemain improvements.
- The proposed \$20 million in master contracts is necessary to produce bid documents and supplement construction inspection for the interceptor lift station and forcemain improvements. These activities represent about 8.5% of the estimated capital expenditure.

# Contract Scope

- Full service engineering services
  - All engineering disciplines
  - Preparation of bid documents for interceptor projects
    - Lift Stations
    - Meters
    - Forcemains
- Construction services
  - Shop drawings
  - Requests for information
  - Construction inspection

# Proposal Summary

- Ten proposals were received and evaluated
- RFP anticipated up to five contracts with a total value of \$20 million
- Recommended awards and contract values:
  - Brown and Caldwell \$4,000,000
  - Bolton and Menk \$4,000,000
  - Stantec Consultants \$4,000,000
  - TKDA \$4,000,000
  - SEH, Inc. \$4,000,000
- Firms were the highest ranked and provided the best directly related expertise and experience

# Thrive-Driven Outcomes & Principles

THRIVE-DRIVEN OUTCOMES THAT DEFINE OUR SHARED REGIONAL VISION:

Stewardship Prosperity Equity Livability Sustainability

PRINCIPLES TO CARRY OUT THE COUNCIL'S WORK:

# Proposed Action

That the Metropolitan Council authorize the Regional Administrator to award and execute five master contracts at \$4,000,000 each, totaling \$20,000,000 to the following firms: Brown and Caldwell, Bolton and Menk, Stantec Consultants, TKDA and SEH, Inc.; contracts 18P187A, B, C, D, and E.
