Proposed Action

That the Metropolitan Council ratify the attached Justification for the Declaration of Emergency for repair to Interceptor 1-MN-320 under Van White Boulevard in Minneapolis.

Background

On October 1, 2019, a 300-foot segment of 1-MN-320 under Van White Memorial Boulevard in the City of Minneapolis was found to be partially collapsed and a void was observed directly above the pipe, creating a hazardous condition for the roadway above it. The condition of the pipe was observed during an inspection of the MCES interceptor system.

City of Minneapolis Public Works, which has jurisdictional authority of Van White Boulevard, was contacted and has closed the roadway as a precautionary measure. Pursuant to the declaration, a contractor has been retained and is working with MCES and the City to develop a repair plan and assist in traffic control.

Rationale

The deficiencies noted in the inspection have compromised the integrity of the MCES pipe and is a risk to transportation infrastructure. This work needs to begin immediately in order to avoid further damage and to allow Van White Boulevard to be opened. MCES will hire a prequalified Contractor to perform this work.

Thrive Lens Analysis

This action advances the Thrive Outcome of Stewardship. Public financial resources will be invested efficiently and effectively to maintain and restore existing capacity to existing wastewater infrastructure which protects the region's natural resources.

Funding

The estimated cost for the emergency work is \$1,000,000. This work will be funded out of the 2019 MCES Authorized Capital Program.

Known Support / Opposition

No known opposition.

Based on the above information, an emergency situation exists within the meaning of the Council Procurement Policy. Carrying out the competitive bidding process and the technical requirements of the Council's Procurement Policy and awaiting Council declaration of an emergency and approval for the purchase of materials or supplies or the making of emergency repairs would significantly and unacceptably delay the commencement of repair work on the above-referenced project. The Metropolitan Council, by its Procurement Policy, has delegated authority to the Regional Administrator to declare an emergency on behalf of the Council in such cases. Therefore, I declare on behalf of the Metropolitan Council, that an emergency exists as described above and that the emergency situation requires the immediate purchase of materials or supplies or the making of emergency repairs. I authorize the General Manager/Division Director named above to let appropriate contracts and make payments for the purchase of materials or supplies or the making of repairs necessary to meet the emergency situation without advertising for bids, without meeting other technical requirements of Council Procurement Policy, and without prior approval of the Council. If the costs to correct the emergency situation total \$100,000 or more, I direct that this emergency declaration and any such contracts and/or payments be presented to the Metropolitan Council for formal ratification at its next meeting.
