

**Business Item 2020-273:**  
**Public Hearing Request for Lift Station  
L32 Draft Facility Plan Project in Fridley,  
MCES Project No. 809400**

Tim Wedin, Assistant Manager, Interceptor Engineering,  
Wastewater Planning & Capital Project Delivery

Environment Committee: October 13, 2020

# Project Location

- Existing Lift Station L32
  - Located in the City of Brooklyn Park.
  - North of the Intersection of Highways 252 and 694
- Proposed Lift Station L32
  - Located across the Mississippi River from the existing Lift Station
  - Council has acquired property for the facility in Fridley

# Existing Conditions

- L32 (Brooklyn Park) is 50 years old.
- Components such as the structure, piping, and controls show signs of deterioration, requiring replacement
- Failures at the lift station have resulted in back-ups of wastewater into neighboring homes.
- Odor complaints due to inability to address air flow at the current facility.
- Insufficient capacity

# Drivers for New Facility

- Condition of existing facility
- Lift Station L32 handles most of the flow from Champlin, Anoka, and Brooklyn Park.
  - Insufficient space at the existing location in Brooklyn Park for expansion while maintaining existing flows.
  - MCES has acquired property in Fridley (across the river) for the new facility.
- L32 requires a significant expansion to handle projected flows.
  - New Pumping Station
  - Odor Control Facilities
  - Reliability and Resiliency Improvements

# Outreach

- September 2020: Meetings with Brooklyn Park and Fridley city staff.
- October 2020: Planned meetings with Fridley City Council and Brooklyn Park City Council
- November 2020: Virtual Open House
- December 17, 2020: Virtual Public Hearing
- February 2021: Council Considers Facility Plan
- March 2021: Facility Plan submitted to MPCA and Public Facilities Authority for inclusion in the Intended Use Plan

# Proposed Action

That the Metropolitan Council authorize a public hearing on December 17, 2020 to gather input on the draft Facility Plan for Lift Station L32A (Fridley) Project, MCES Project No. 809400.
