Proposed Action

That the Metropolitan Council pass Resolution 2024-18 authorizing acquisition of temporary and permanent easements for Interceptor 4-NS-525 Rehabilitation Project 808609 and staff to initiate condemnation proceedings.

Background

Gravity interceptors 4-NS-525 was constructed between 1965 and 1969 in Coon Rapids. These facilities consist of 48-inch reinforced concrete pipe. Condition assessments have identified these interceptor facilities as being in poor condition and in need of rehabilitation. The proposed project will include rehabilitation of interceptor 4-NS-525.

Rationale

Land Acquisition will be needed to access and repair the pipe. This action delegates authority to staff to acquire property rights for the project and to use the condemnation process, if necessary, to ensure timely project delivery.

Thrive Lens Analysis

This action advances the Thrive Outcomes of Stewardship and Sustainability. Public financial resources will be responsibly invested to support orderly and economic development while maintaining the regional wastewater system assets, which protect the region's natural resources.

Funding

Project 808609 is included in the 8086 family of project in the 2024 MCES Authorized Capital Program.

Small Business Inclusion

There are no direct impacts to small business contracting with the proposed action.
