

# ADA and Accessibility Updates

**Report to the Equity Advisory Committee**  
March 19, 2019

# ADA Self-Evaluation: Phase 1

- We will be asking a business to review our buildings for items that are not accessible
- They will give us a report for each building and what needs to be fixed or added so that they are accessible
- This work will be done by the end of the year

# ADA Transition Plan

- This is a plan to make all of the changes to the buildings that we find in the self-evaluation
- We will list the changes we can make and what it will cost us, as well as who is responsible for getting the work done.
- We hope to start the transition plan by the end of the year or early 2020

# Making our websites and online information accessible

- The Council will work with a consultant to audit the accessibility of our websites and online information and provide user testing as we implement changes.
- A Digital Accessibility Collaborative will convene to address digital accessibility training and resource sharing needs across the Council.

# ADA Intern

- Summer intern will support Council's ADA and accessibility initiatives from May - August
- Focus areas: ADA Self-Evaluation and WAAT RFPs, Digital Accessibility Collaborative, improving Emergency Action Plans

# Leadership Forum on Accessibility

- Managers across the divisions will take part in a two-day training including six workshops on accessibility issues
  - Workshops range from digital accessibility to ableism in the workplace
- Managers will work with staff to create 2020 work plan goals to improve division-specific accessibility issues
