

## Memorandum

**DATE:** September 14, 2017  
**TO:** Land Use Advisory Committee  
**FROM:** Steven Elmer, Metropolitan Transportation Services  
**SUBJECT:** Transportation Policy Plan (TPP) Update, Bike/Ped Chapter

The goal of this presentation will be to provide a quick overview of the Council's ongoing work to develop the draft TPP Update, Bicycle/Pedestrian chapter, and to receive comments and address any questions that may arise. A presentation was made at the LUAC meeting in July regarding the ongoing Regional Bicycle Barriers Study. This overview, to be presented at the September 21, 2017 meeting, will include our expectations for how that regional study may be incorporated within the draft TPP bike/ped chapter. In addition, it will describe current TPP bike/ped objectives or strategies that relate to land use planning concepts and will include some policy areas considered for possible modifications in the draft update plan.
