

Advancing Equity: Reducing Racial Disparities

	Amount	Time Frame	Description	Rank	Score*	Notes
1	\$ 500,000	2021-2022	Reducing Racial Disparities through Advancing Equity in Contracting	1	59	
2	3,900,000	2021 Grant Cycle	Local Housing Incentives Account Program	6	28	I would be comfortable with some direct allocation to LHIA, even something less than \$3.9 million. I would be interested in possibly defining a specific use for the funds, to the extent our authorities allow, like an "emerging developer" program.
3	500K-1M	06/21-12/22	Manufactured Home Connection Assistance to Metropolitan Disposal System	8	21	
4	500,000	06/21-06/22	SAC Grant for Affordable Housing	4	31	Has the question of SAC assistance for small businesses been discussed? During my time on the Minneapolis City Council SAC was often raised as a barrier by BIPOC entrepreneurs
5	100,000	06/21-12/22	Environmental Youth Job Skills Program	3	37	I would support more for this initiative
6	400,000	18 mos	Equity Evaluation of the Regional Transportation Investment	7	26	This seems like a lot of money to learn a lot of what we already know. Perhaps a less costly audit of data we already have would be as useful.
7	375,000	2021	Grow Transit Assistance Program	12	13	I would support less for this initiative
8	400,000	12 mos	Streamlined Multimodal Program Enrollment for TAP-Eligible Customers	11	16	
9	200,000	2021-2022	Maintenance Technician Training	5	30	I would support more for this initiative
10	300,000	2021-2022	Public Art Equity Project	10	17	Art projects are very useful community engagement initiatives. Any funded art program would need to acknowledge and fund community engagement
11	30,000	2021	Update the 2016 Childcare and Transit Study	13	12	
12	150,000	2021	Expanding Multicultural Marketing Reach and Frequency	2	39	
13	168,000	2021	Investing in Transit Information Technologies	9	18
