### Background

The Workforce Development department is collaborating with Metro Transit to deliver a new pathway program that will build new revenue equipment technician workforce reflective of the communities we serve.

The request of \$90,000 for this one-time funding source for this pilot program using the Councils' General fund – Thrive 2040 equity money to contract with a local technical academic provider to deliver Revenue Equipment Technician curriculum. If agreeable, a formal budget amendment will be brought before you in a future meeting.
