Background

Metro Transit

Reducing Funding Commitments: The proposed amendment reallocates spending authority between projects and reduces spending authority on two projects by a total of \$706,752

Increasing Funding Commitments: The proposed amendment increases spending authority on 13 projects by a total of \$11,287,000. Funding for these projects includes \$1.6 million in federal funding, \$1.2 million in regional funding and \$8.5 million in funding from the Hennepin County Regional Rail Authority for the Southwest Corridor.

Net Change in Authorization: \$ 10,580,248

Net Change to Current Year Budget: Based on the timing of projected expenditures, the 2013 Capital Budget is proposed to increase by \$177,805,547

due to new projects and the carry forward of annual appropriation authority from 2012.

Rationale

This proposed amendment programs federal, regional and local funds and increases multi-year spending authority. These capital projects will allow the Council to carry out its long-term capital improvement program for transit.

Funding

The proposed amendment increases regional bonding for Metro Transit projects by \$967,248. There is available, un-programmed regional bonding authority provided by the Legislature to accommodate the additional bonding.

The regional funding included in this proposed amendment was reflected in the adopted 2013-2018 Capital Improvement Program and related fiscal analysis.
