### Proposed Action

That the Metropolitan Council authorize the Regional Administrator to proceed with the disposal of two surplus fee title properties located at 7240 Rolling Acres Road within the City of Victoria, the parcel adjacent to Rolling Acres Road at no cost to Hennepin County, and the land-locked parcel to the adjacent property owner for its appraised value of \$250.

### Background

The Council has a policy that addresses the disposition of surplus property. This policy reads as follows:

*The Council may determine from time to time that certain real property is no longer needed for Council purposes and that such real property shall be considered "surplus." The Council may dispose of such real property, subject to applicable laws and regulations including Minnesota Statutes 473.129. The Council may sell such surplus real property to the highest bidder through a public bidding process, for no less than the appraised market value; unless the Council determines that the Council's priorities or objectives would be better served by disposing of the property in some other manner authorized by law.*

### Rationale

The construction of the Victoria Interceptor Sewer Tunnels Project (MCES Project 802812) and the decommissioning and demolition of the lift station L22 facilities has rendered the associated fee title properties surplus and not required to provide interceptor service for tributary communities. An independent appraisal has determined the estimated market value of both parcels to be \$750.

The two fee title properties are small and undevelopable on their own. The adjacent property owner wishes to acquire the landlocked parcel. Hennepin County wishes to acquire the parcel adjacent to Rolling Acres Road.
