The Council reviewed the City's Update, Review File No. 20554-1, on October 28, 2009 ([Business Item 2009-374](#)). This amendment is the City's eleventh since the review of the Update.

## ISSUES ANALYSIS AND FINDINGS

### *Conformance with Regional Systems*

The amendment conforms to the regional system plan for Regional Parks, Transportation, and Wastewater, with no substantial impact on, or departure from, these system plans.

### **Wastewater**

Reviewer: Kyle Colvin (651-602-1151) and Roger Janzig (651-602-1119)

The amendment conforms to *2040 Water Resources Policy Plan*.

### *Advisory Comments*

Metropolitan Council Interceptor (7112) is within 145<sup>th</sup> Street West right-of way. The interceptor was built in 1971 and is a 12-inch RCP at a depth of approximately 8 feet. To assess the potential impacts

to our interceptor system, prior to initiating this project, preliminary plans should be sent to Scott Dentz, Interceptor Engineering Manager (651-602-4503) at the Metropolitan Council Environmental Services for review and comment.

### Consistency with Council Policy

The amendment is consistent with Council policies for forecasts, land use, housing, sub-surface sewage treatment systems, and water supply. Additional review comments regarding policy consistency are detailed below.

### Land Use

*Reviewer: Patrick Boylan (651-602-1438)*

The proposed amendment is consistent with Thrive land use policy for Emerging Suburban Edge communities. The amendment would support a new residential development called Rosewood Commons Apartments, adding 225 new housing units.

The amendment is consistent with Thrive expectations for the planned residential density of 3-5 dwelling units per acre (du/acre) in the Emerging Suburban Edge communities. The amendment reguides 12.25 acres from Business Park to High Density Residential and a second parcel from Medium Density Residential to High Density Residential.

Table 1 below shows the City’s updated overall minimum planned densities, which increases slightly from 3.52 to 3.62 du/acre with this amendment.

<b>Overall Density</b>				<b>3.62</b>	<b>4.58</b>

### Housing

*Reviewer: Tara Beard (651-602-1051)*

The amendment is consistent with the Council’s policies for housing. The City is currently providing sufficient land that promotes affordable housing development to address their share of the region’s 2011-2020 need for affordable housing, and the proposed amendment further increases the City’s inventory of high density residential land. After this amendment, the City will be guiding more than 171 acres of Medium- and High-Density residential land such that at least 1249 units could be built in the decade; its share of the 2011-2020 regional need is 1,000.

### *Advisory Comments*

The City's share of the region's 2021-2030 need for affordable housing is 783 units, and the minimum density of land guided to address this need in its 2040 Comprehensive Plan update is 8 units per acre. The City's current minimum for its Medium Density residential land is 6 units per acre. If the City has any questions about their Comprehensive Plan update and consistency with Council housing policy, please contact your Sector Representative or Council housing staff.

### *Compatibility with Plans of Adjacent Governmental Units and Plans of Affected Special Districts and School Districts*

No compatibility issues with plans of adjacent governmental units and plans of affected special districts and school districts were identified.
