

TRANSPORTATION **POLICY PLAN**

2040 TPP Update Highway Project Additions

Metropolitan Council Meeting
May 30, 2018

Today's Topics

Where are we now?

- Current status and next steps
- New project additions based on recent activity

Current Status and Next Steps

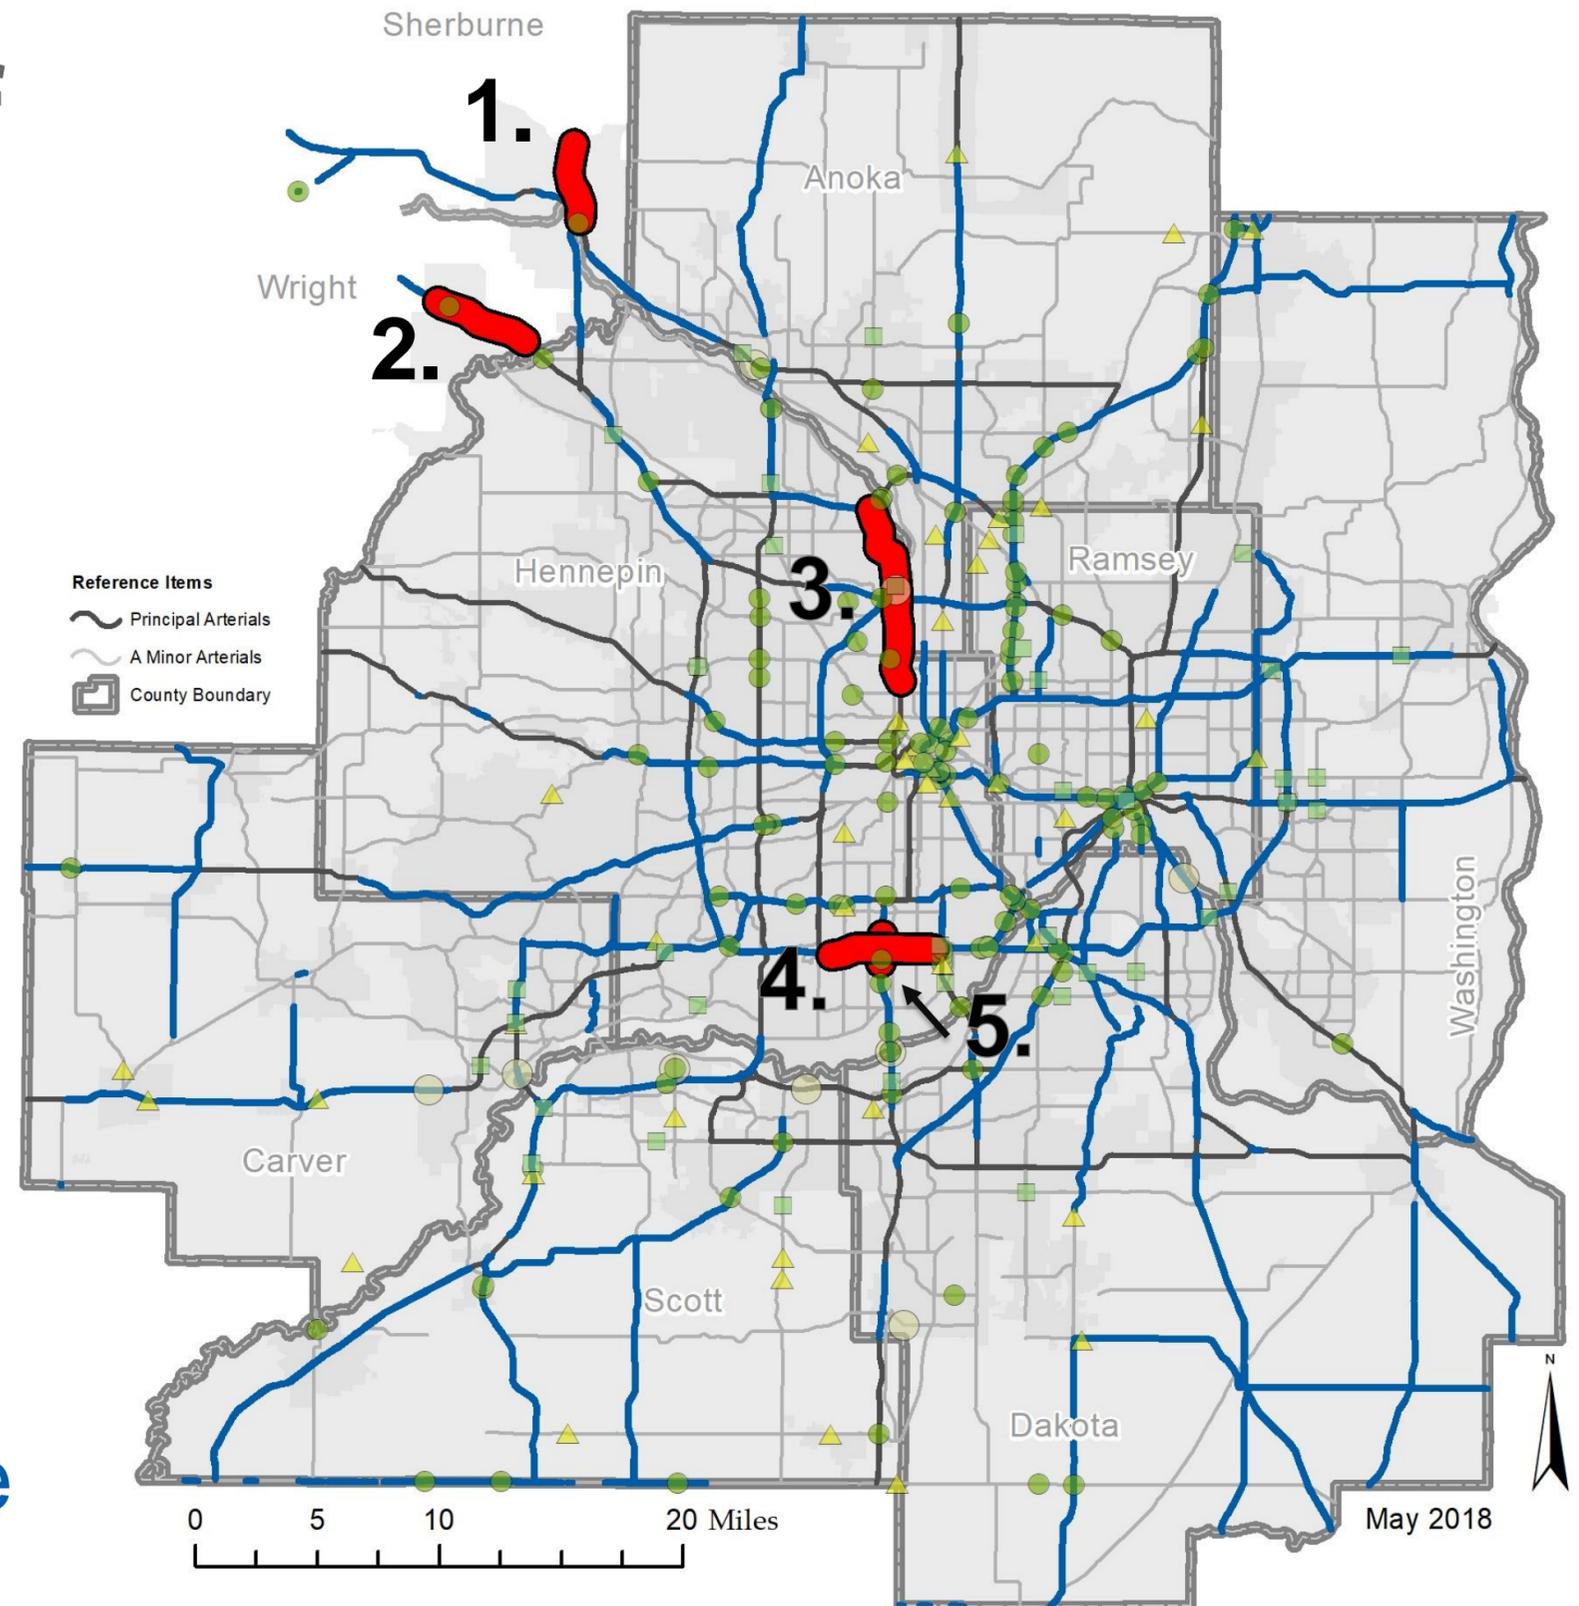

✓	March 8, 2018	Technical Advisory Committee-Planning recommendation to release for public comment
✓	April 2018	Technical Advisory Committee (TAC) and Transportation Advisory Board recommendation (TAB)
✓	May 2018	Incorporate Corridors of Commerce and legislative session results and any new investments
	June 2018	Information items on additional changes at TAB and TAC
	June 2018	Transportation Committee and Council recommend release for public comment
	July 2018 – mid August	Public review and comment period; Public hearing
	August - September	Public comment report and incorporate revisions
	September 2018	Information item at Council and Transportation Advisory Board on public comment and changes
	October 2018	Final 2040 TPP Update to Transportation Committee and Council for adoption

Recent Activity

- Corridors of Commerce Announcement
- Recommendations on 2024-2026 Highway Mobility Funds
- End of State Legislative Session
 - Additional Corridors of Commerce bond funding
 - Bonding for local road and bridge projects

New Projects from Corridors of Commerce (red)

1. Highway 169 Freeway Conversion
2. I-94 Expansion (4 to 6 lanes)
3. Highway 252/I-94 MnPASS:
Council submittal
4. I-494 MnPASS Lane:
Council submittal
5. I-494/I-35W Interchange

- Freight
- ~ MnDOT Pavement
- ~ Corridors of Commerce

Highway Investment Philosophy

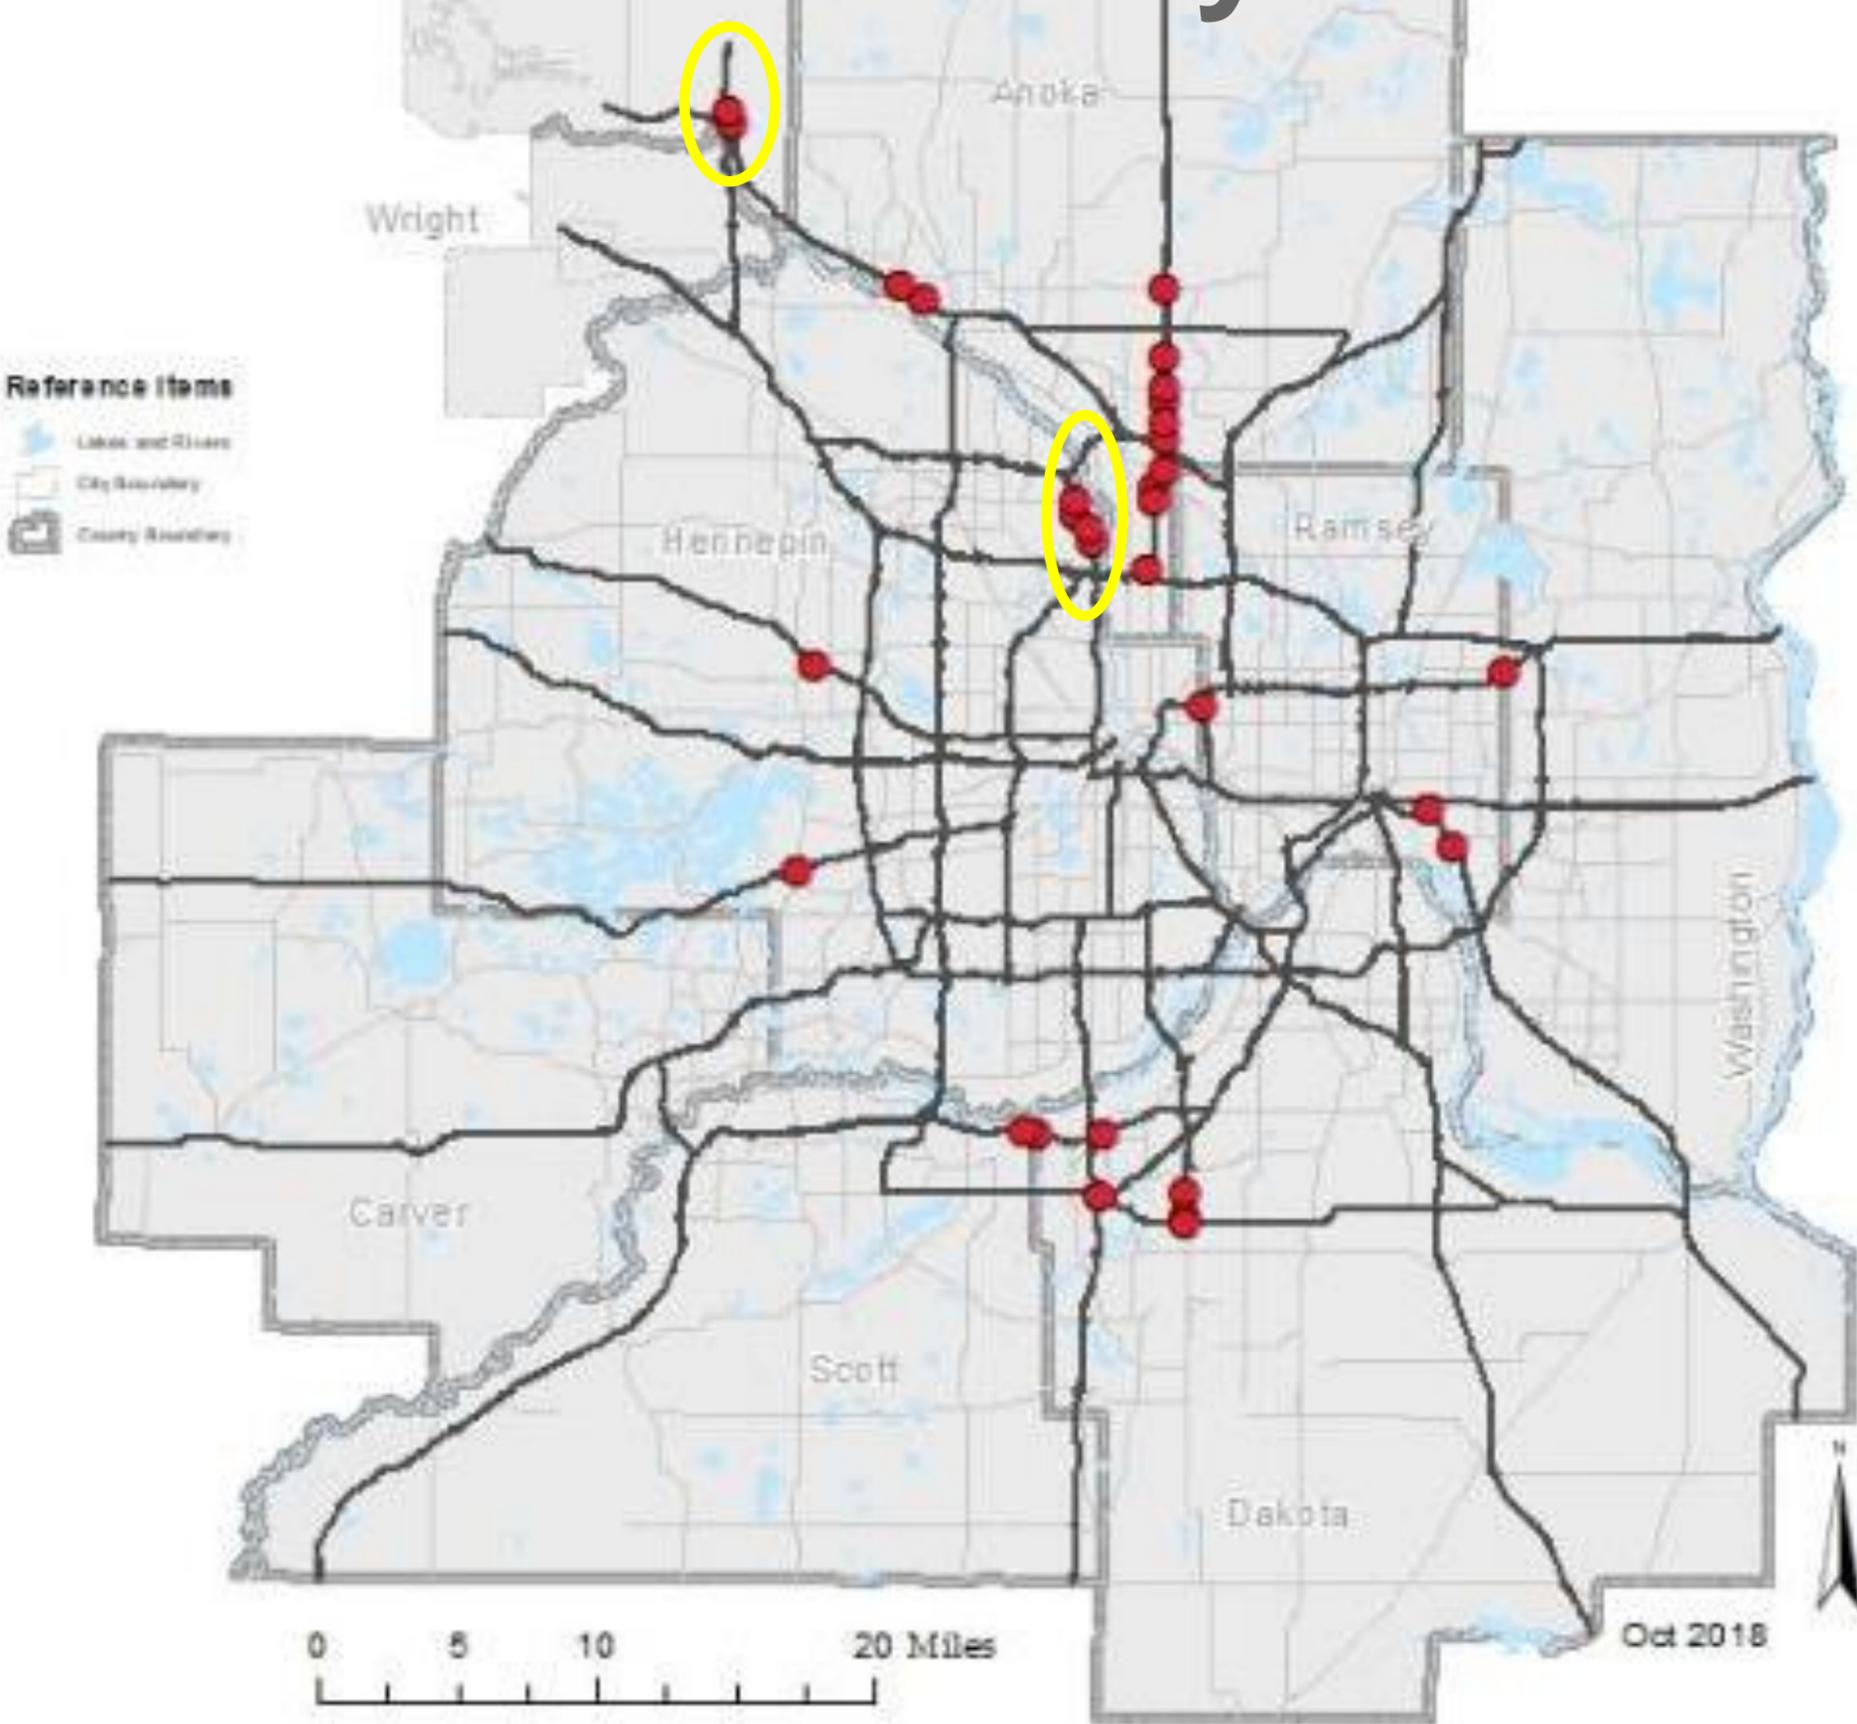

Where mobility needs are identified, explore in order:

- Traffic management technologies
- Lower cost/high benefit spot mobility improvements
- MnPASS lanes
- Strategic capacity investments (identified through regional prioritization studies)

Corridors of Commerce Projects Consistent MnPASS III Study

Corridors of Commerce Projects Consistent with Principal Arterial Intersection Conversion Study

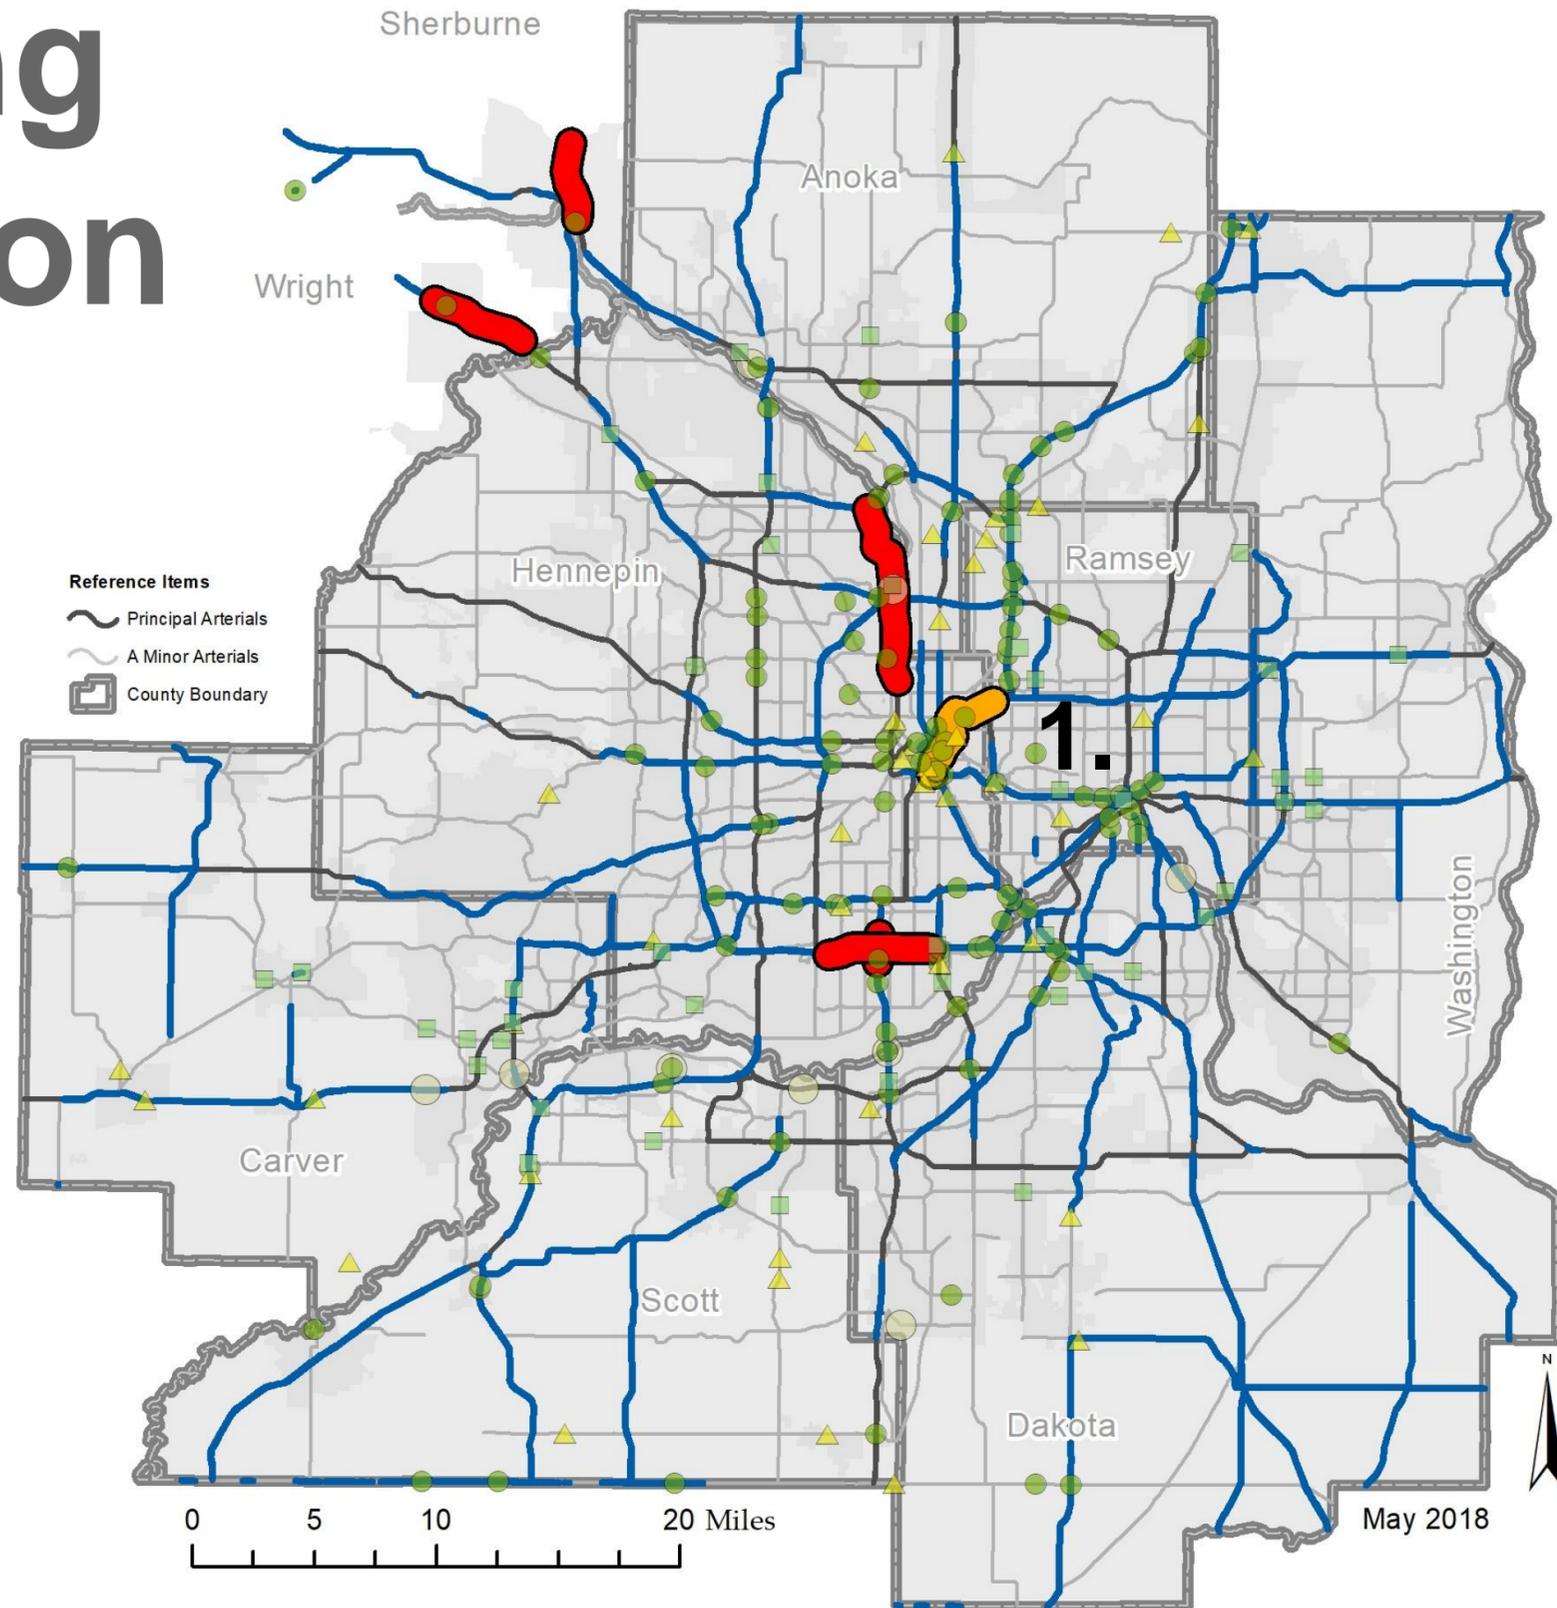

MnDOT Mobility Funding Increase

- Given declining MnDOT funding share to metro and recent Met Council/MnDOT conversations, MnDOT reallocated:
 - \$50M/year for new mobility projects 2024-2026
 - Continue MnPASS funding on highest priority unfunded MnPASS lanes
 - Recommendations in this presentation
 - \$9M-\$30M/year for spot mobility projects 2022-2040
 - Primarily for matching locally-led interchange projects and spot mobility projects; discussions ongoing

Mobility Funding Recommendation

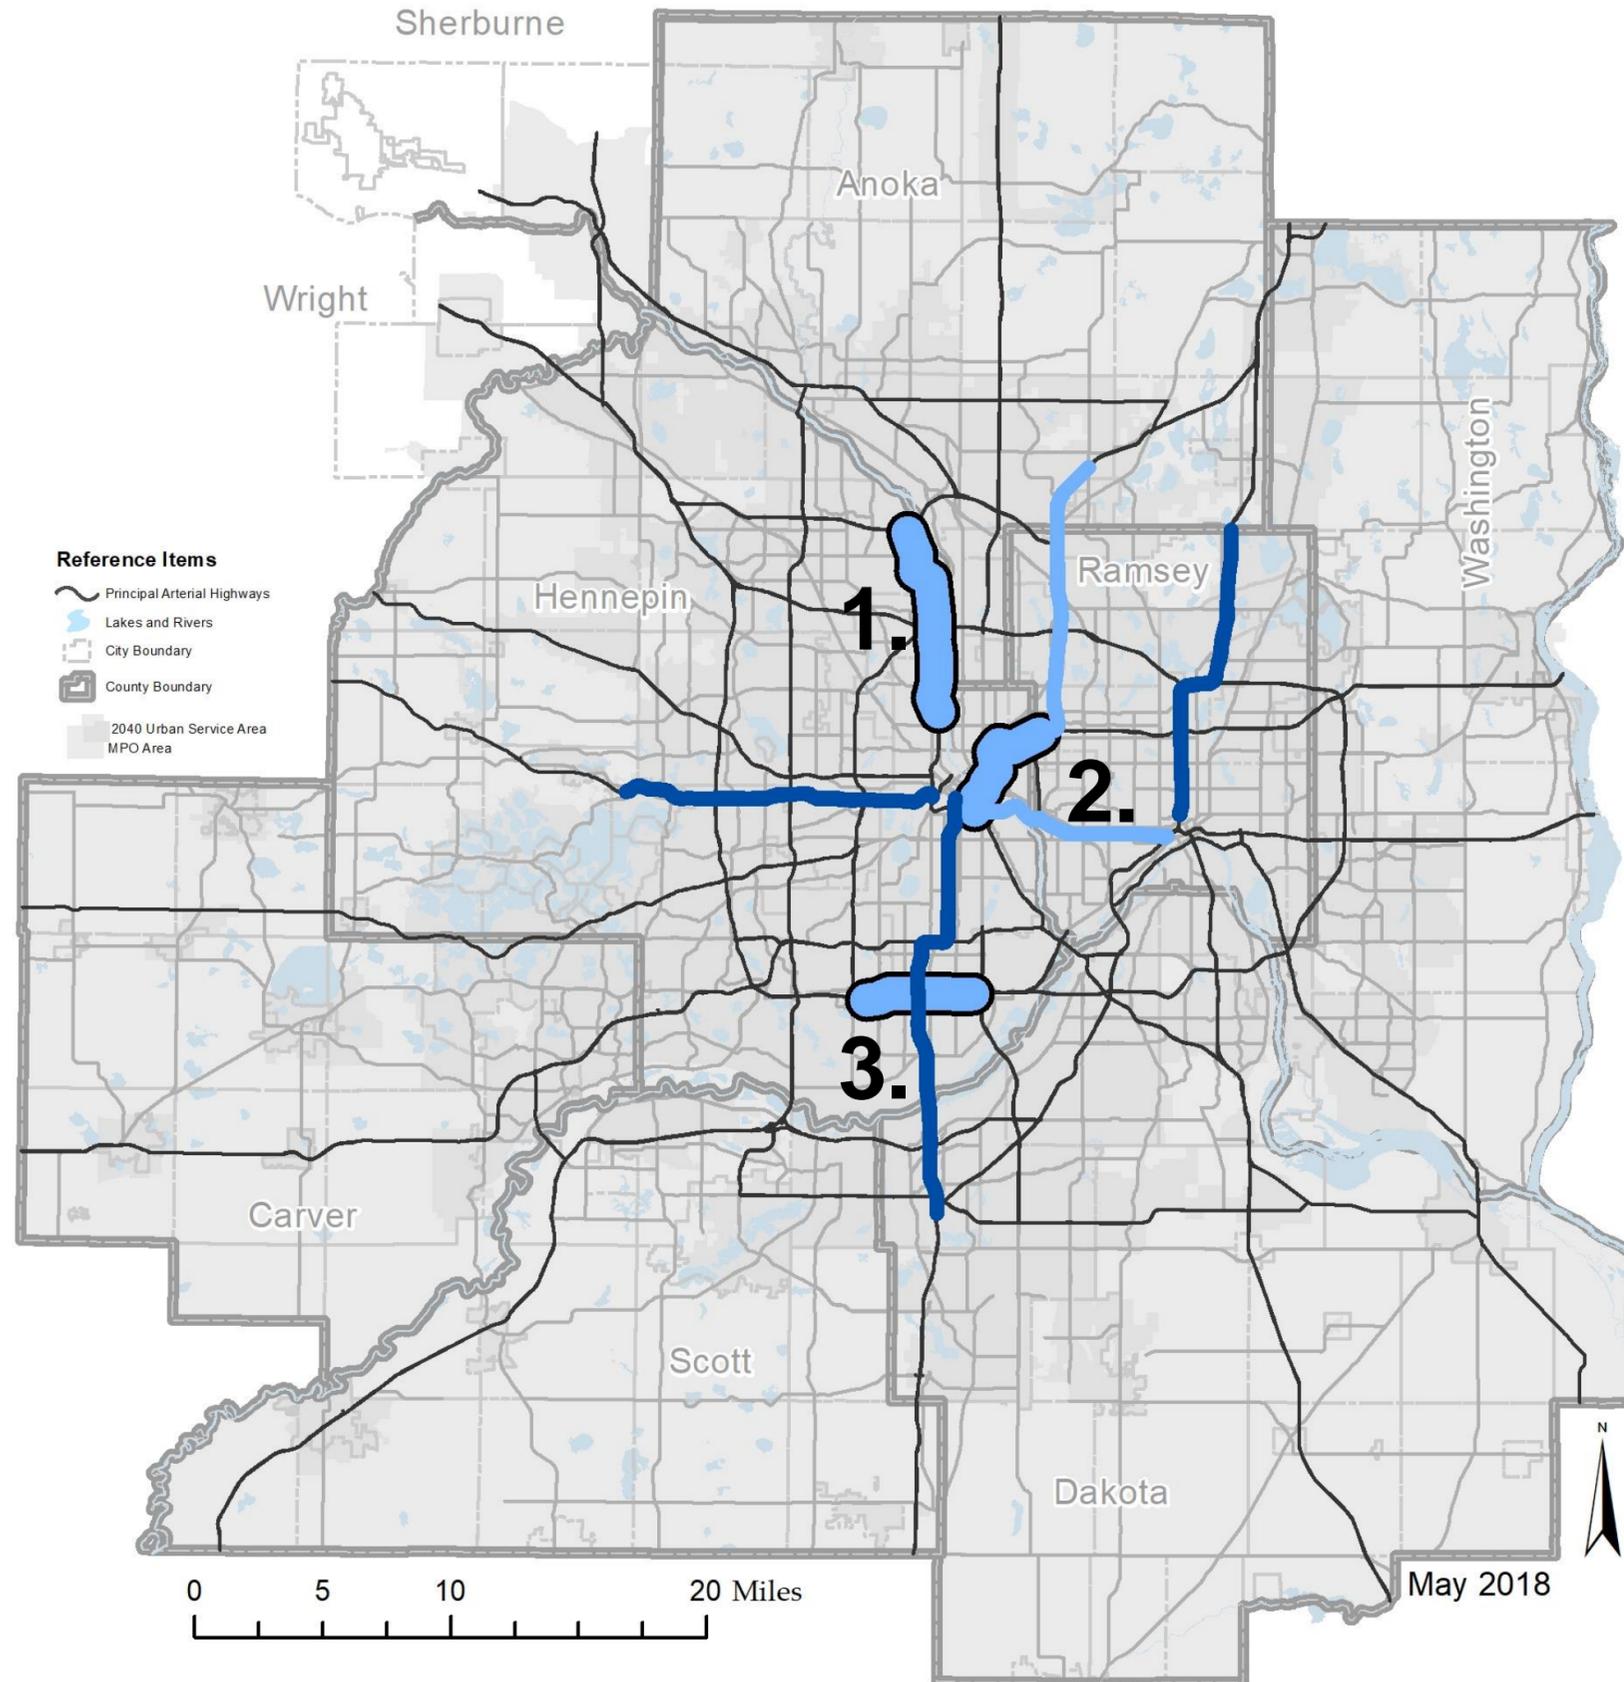

1. I-35W MnPASS
2. Potential Scope Additions to Major Projects
3. Allocate Remaining 2024-2026 Funds through Future TPP Amendment

TPP MnPASS Map Changes

1. Highway 252/I-94 MnPASS
2. I-35W MnPASS
3. I-494 MnPASS

MnPASS Projects: Current Revenue Scenario (Updated)

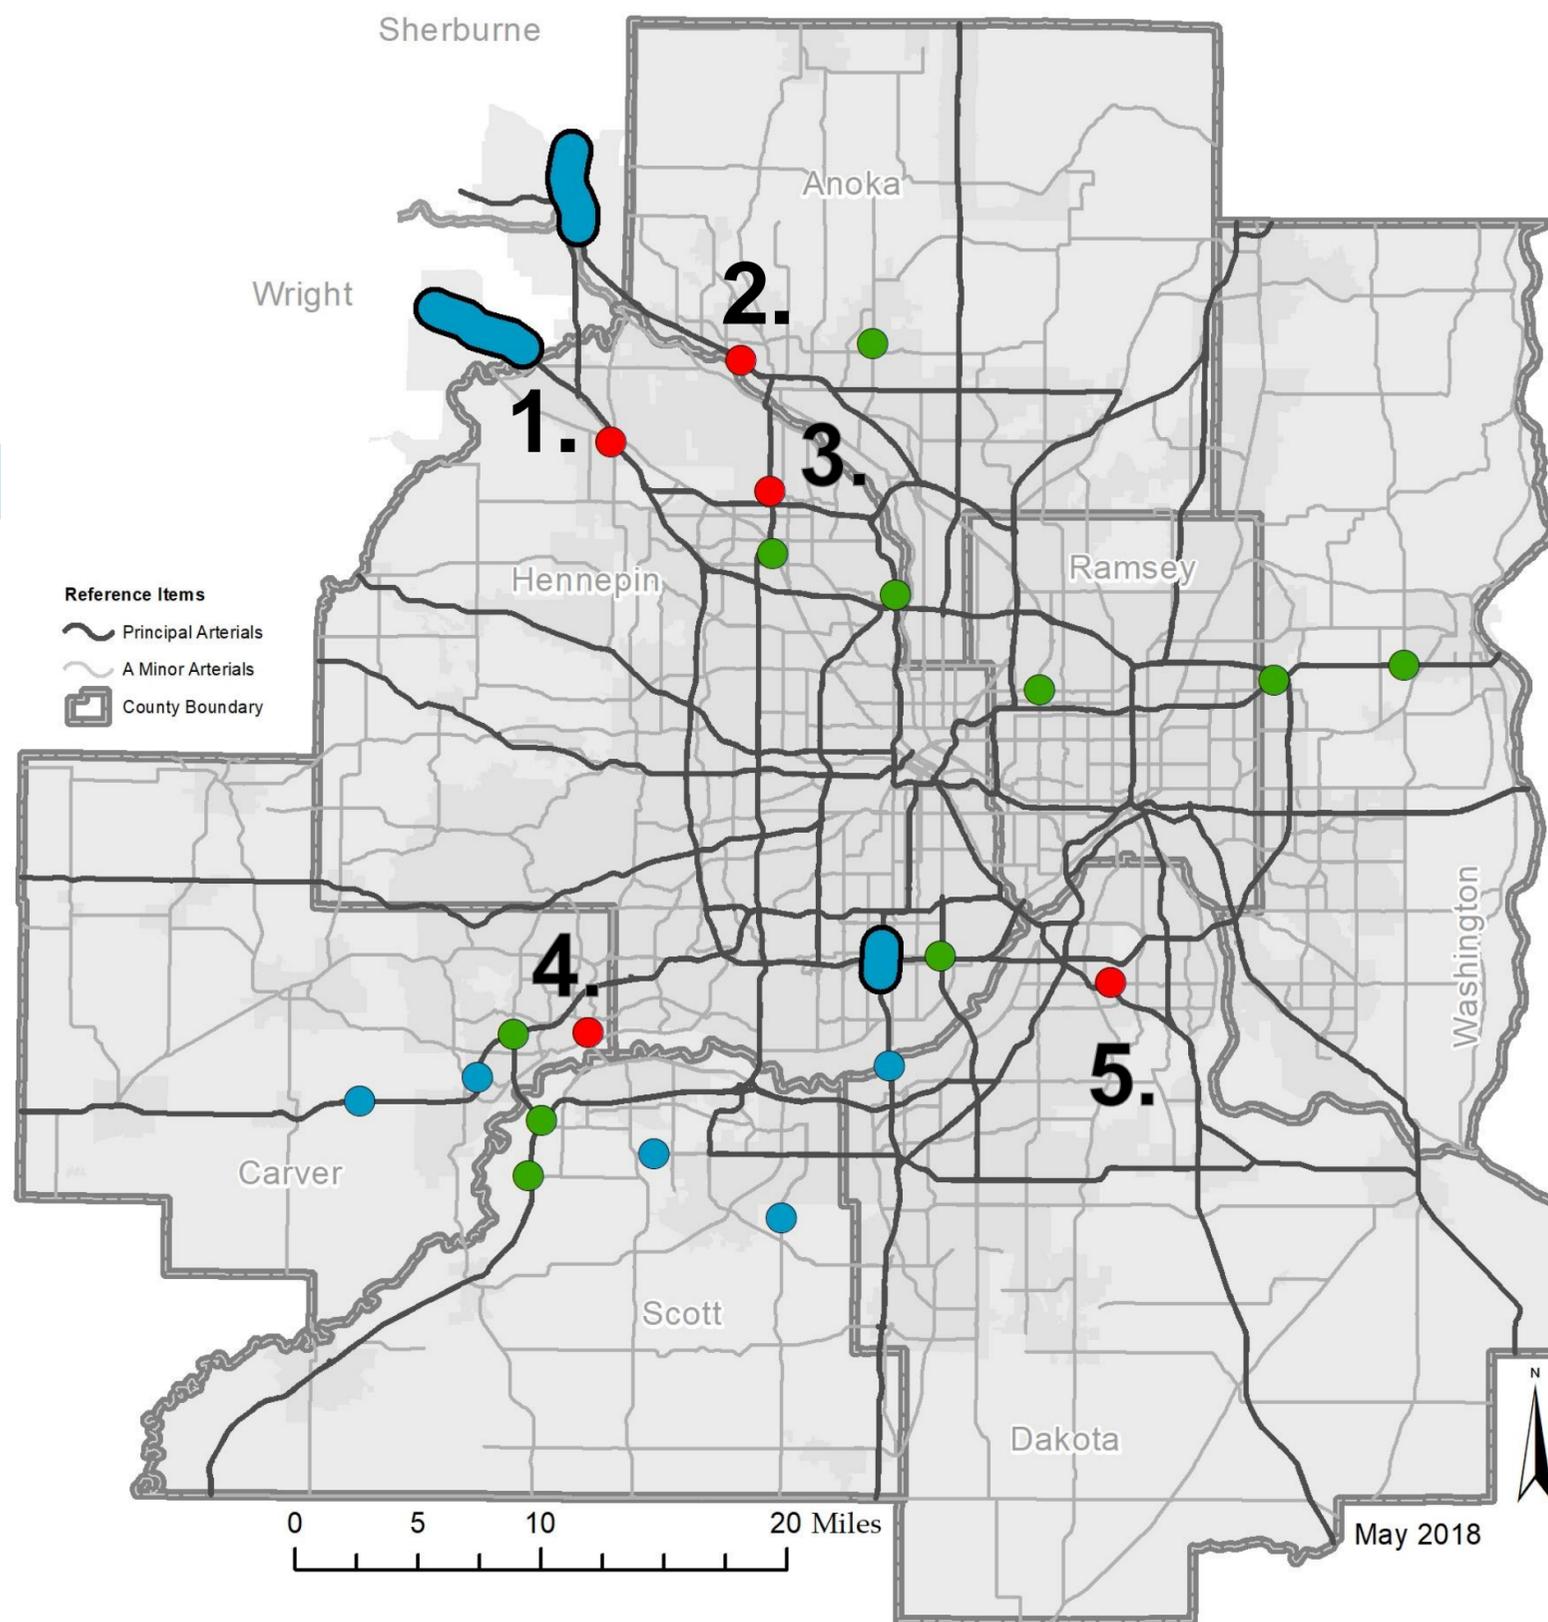

MnPASS

- Existing / Under Construction
- Tier 1 Current Revenue Scenario
- New MnPASS Corridors

TPP Strategic Capacity Map

New Local Road Bond Funded Projects:

1. I-94/Brockton Ln Interchange
2. TH 10/Thurston Ave Interchange
3. TH 169/101st Ave Interchange
4. TH 101 Turnback
5. 70th Street Expansion

- Regional Solicitation Roadway Expansion Projects
- Other Regionally Significant Expansion Projects
- New Bonding Funding

Additional discussion

Thank you!
