For the Metropolitan Council meeting of December 9, 2020

Subject: 2021 Payment Standards for Metro HRA Rent Assistance Programs

District(s), Member(s): All

Proposed Action

That the Metropolitan Council adopt payment standards as shown in Table 1 for the Housing Choice Voucher and other rent assistance programs effective January 1, 2021.

Background

The Metropolitan Council must annually review and adopt Payment Standards (rent limits) to be used in the administration of the Housing Choice Voucher and other rent assistance programs. Payment standards should be set at amounts that ensure voucher holders can be successful in placing their voucher in a neighborhood of their choice.

The Council adopted Small Area Fair Market Rents (SAFMRs) for implementation in 2020 ([Business Item 2019-350](#)). SAFMRs are rent limits adopted at the zip code level instead of for an entire metropolitan area. This allows for higher rent limits in higher rent areas and lower rent limits in lower rent areas of the region. The goal of SAFMRs is to improve housing choice in all neighborhoods, increase voucher placement success and provide for budget neutral potential in future years.

Although the Council adopted SAFMRs in December 2019, the Metro HRA did not receive approval from the U.S. Department of Housing and Urban Development until January 23, 2020. Council staff developed an online tool in February 2020 and planned engagement meetings with voucher holders in March 2020. When COVID-19 hit in March 2020, it required a refocus on pandemic planning and response. As a result, SAFMRs were not implemented until July 2020, limiting the data available to analyze the impact of SAFMRs.

HUD issued 2021 SAFMRs in August 2020. By federal regulation, the Metropolitan Council is provided the flexibility to establish payment standards between 90% and 110% of the published SAFMRs. The Metro HRA service area includes 82 zip codes. The currently adopted payment standards fall within the required range except for 13 zip codes that would need minor adjustments to become within range.

Staff presented an information item at the [Information Item CDC Meeting](#), to share rental market data that is available, discuss the factors influencing payments standards, and gather feedback from Committee members. Staff shared:

- Vacancy rates are rising – currently at 6.1%, the highest in a 10-year period. A healthy vacancy rate is 5-6%.
- Rents are leveling off.
- Current payment standards generally fall within average rents.

Staff recommends the adoption of current payment standards with minor adjustments in 13 zip codes that fall outside of the required range, as shown in Table 1 below. There are 30 families living in the 5 of the impacted zip codes, all in areas with an increase resulting in no negative impact. There are no families living in 8 of the impacted zip codes.

Rationale

Keeping the current, recently implemented payment standards allows for full analysis of the SAFMR implementation and further evaluation of any need for change. Current changes in the rental market with increasing vacancy rates and flattening rents also indicate that it may be premature to make changes to payment standards for 2021.

Thrive Lens Analysis

The recommended action supports the Thrive outcomes of equity, livability and stewardship. Thrive 2040 states the Council will:

- Offer housing options that give people in all life stages viable choices for stable housing;
- Develop and provide tools, including competitive rent limits in higher-cost communities to enable voucher holders to choose a location that best meets their needs.

Funding

Funding for the Housing Choice Voucher and Housing Opportunities for People with AIDS programs is provided by the U.S. Department of Housing and Urban Development. Funding for the Minnesota Housing Trust Fund Programs is provided by Minnesota Housing Finance Agency.

Known Support / Opposition

An information item was presented to the Community Development Committee on November 2, 2020, to discuss payment standard options. There was full support of the recommended action.
