Joe Barbeau, Senior Planner (651-602-1705)

Division/Department: Transportation / Metropolitan Transportation Services (MTS)

Proposed Action

That the Metropolitan Council adopt an amendment to the 2022-2025 Transportation Improvement Program (TIP) to increase the total cost of three City of Minneapolis Highway Safety Improvement Program (HSIP) projects.

Background

This amendment request is to increase the total cost for three City of Minneapolis HSIP projects. The proposed increases are the result of increase steel, concrete, and signal costs that exceed the city's expectations at the time of application. No change to the scope of any of these projects is proposed.

Rationale

The Metropolitan Council approves formal amendments to the TIP. The projects are consistent with the Transportation Policy Plan (TPP) and meet fiscal constraint because the federal, state, and local funds are sufficient to fully fund the projects. The Minnesota Interagency Air Quality and Transportation Planning Committee determined that the project is exempt from air quality conformity analysis.

Thrive Lens Analysis

This action promotes *livability* by promoting safety.

Funding

The project is fully funded with federal and local funds.

Please amend the 2022-2025 Transportation Improvement Program (TIP) to amend these projects in program year 2022. The projects are being submitted with the following information:

PROJECT IDENTIFICATION:

PROJECT BACKGROUND:

1. Briefly describe why amendment is needed (e.g., project in previous TIP but not completed; illustrative project and funds now available; discretionary funds received; inadvertently not included in TIP).

This amendment is needed to update total project costs. Cost changes are a result of significantly higher steel, concrete and signal costs recognized through recent bids within the City of Minneapolis. There is no change in project scope.

2. How is Fiscal Constraint Maintained as required by 23 CFR 450.216 (check all that apply)?
 - New Money
 - Anticipated Advance Construction
 - ATP or MPO or MnDOT Adjustment by deferral of other projects
 - Earmark or HPP not affecting fiscal constraint
 - Other X

No additional federal funds are being added to the project, therefore fiscal constraint is maintained.

CONSISTENCY WITH MPO LONG RANGE PLAN:

This amendment is consistent with the Metropolitan Council Transportation Policy Plan, adopted by the Metropolitan Council on November 18, 2020 with FHWA/FTA conformity determination established on December 4, 2020.

AIR QUALITY CONFORMITY:

- Subject to conformity determination
- Exempt from regional level analysis
- N/A (not in a nonattainment or maintenance area)

*Exempt Project Category E-2. Intersection signalization projects at individual intersections per Section 93.126 of the Conformity Rules
