**Division/Department:** Transportation / Metropolitan Transportation Services (MTS)

### Proposed Action

That the Metropolitan Council adopt an amendment to the 2022-2025 Transportation Improvement Program (TIP) to add the purchase of eight electric buses for Metro Transit.

### Background

Metro Transit was awarded discretionary funds in federal fiscal year 2021 Low- or No- Emissions Vehicle Program and intends to use the funds on the purchase of eight 40-foot Proterra ZX5 Max electric buses, workforce training, and project management and technical assistance. The expenditure of the funding needs to be reflected in the TIP.

### Rationale

The Metropolitan Council approves formal amendments to the TIP. The projects are consistent with the Transportation Policy Plan (TPP) and meets fiscal constraint because the federal and state local funds are sufficient to fully fund the projects. The Minnesota Interagency Air Quality and Transportation Planning Committee determined that the projects are exempt from air quality conformity analysis.

### Thrive Lens Analysis

This action promotes *livability* by adding low-emissions busses to the region's fleet.

### Funding

The project is fully funded with federal and local funds.

Please amend the 2022-2025 Transportation Improvement Program (TIP) to include this project in program year 2023. This project is being submitted with the following information:
