Proposed Action

That the Metropolitan Council adopt the Facility Plan for the Forest Lake Interceptor 7029 Rehabilitation, Project Number 808603, per the attached Resolution Number 2025-2.

Summary of Environment Committee Discussion/Questions

- CM Lindstrom asked: What is a doghouse maintenance hole?
- Staff responded: The pipe has a larger diameter on the bottom and then it has a flat top. Then they build the remaining top or manhole with a smaller diameter. It's a means of access but not at a large diameter all the way to the bottom.

Motion by CM Cederberg, seconded by CM Wulff. Motion carried.
