Proposed Action

That the Metropolitan Council adopt an amendment to the 2025-2028 Transportation Improvement Program (TIP) to add two new projects:

- Construct charging stations at the Sherburne County Government Center in Elk River (SP# 071-596-015)
- Purchase five electric vehicles for Sherburne County Government Center in Elk River (SP# 071-596-016)

Background

The purpose of these two projects is to purchase five electric vehicles and construct charging stations. The total cost to purchase five electric vehicles is \$250,000 funded with \$200,000 in Carbon Reduction Program (CRP) funding and \$50,000 in local funding. The total cost to construct charging stations is \$385,000 funded with \$280,000 of Carbon Reduction Program (CRP) funding and \$105,000 in local funding.

New electric vehicles will be for the Sherburne County Government Center and the charging stations will be constructed at the Sherburne County Government Center.

Rationale

The Metropolitan Council approves formal amendments to the TIP. The projects are consistent with the Transportation Policy Plan (TPP) and meet fiscal constraint because the federal and local funds are sufficient to fully fund the projects.

Thrive Lens Analysis

This action promotes sustainability by distributing state and federal funds to vehicle electrification projects.

Funding

The projects are fully funded with federal and local funds.

Small Business Inclusion

Each of the projects included in this request is federally funded. The Minnesota Department of Transportation will oversee the federal requirements, including the DBE requirement.
