

Metropolitan Parks and Open Space Commission

Meeting date: October 4, 2016

For the Community Development Committee meeting of October 17, 2016

For the Metropolitan Council meeting of October 26, 2016

Subject: Approval of the FY2018-19 Parks and Trails Legacy Prioritized Project Recommendations

District(s), Member(s): All

Policy/Legal Reference: MN Statutes §85.53 Subd. 3(4), MN Statutes 473.315, and *2040 Regional Parks Policy Plan*, Finance Strategy 5

Staff Prepared/Presented: Deb Streets Jensen, Senior Parks Finance Planner, 651.602.1554

Division/Department: Community Development / Regional Parks & Natural Resources

Proposed Action

That the Metropolitan Council approve the attached Regional Parks System Parks and Trails Legacy Project List for state fiscal years 2018 and 2019 based on current appropriation estimates from Minnesota Management and Budget.

Background

History of Parks and Trails Fund. In 2008, the Minnesota Constitution was amended to increase the state sales tax by three-eighths of one percent, with revenue from this tax increase dedicated to four funds—collectively called the “Clean Water, Land and Legacy Funds.” One fund, called the Parks and Trails Fund (PAT Fund), receives 14.25% of the sales tax increase and may only be spent to support parks and trails of regional or statewide significance. The money dedicated to the PAT Fund is appropriated by law in odd-numbered legislative years and must supplement traditional sources of funding and may not be used as a substitute (MN Constitution Article XI, Section 15¹). The Council serves as the fiscal agent for the funds appropriated for the Metropolitan Regional Parks System.

Appropriation formula. A working group was convened following the 2011 legislative session to determine how PAT Funds are split among the Minnesota Department of Natural Resources, the Regional Parks System, and Greater Minnesota Parks and Trails. The working group recommended a 40/40/20 split among the three park and trail systems through the state fiscal year 2018/2019 biennium. The legislature is not bound by the recommendation.

Regional Park Implementing Agencies’ (Agencies) shares. The formula to distribute the appropriation is set by Minnesota Statute 85.53² based on the following.

¹ https://www.revisor.mn.gov/constitution/#article_11

² <https://www.revisor.mn.gov/statutes/?id=85.53>

- 45% - the proportional distribution of operation and maintenance funds, in accordance with Minnesota Statute 473.351, subdivision 3³.
- 31.5% - each implementing agency's related share of the most recent estimate of population of the metropolitan area.
- 13.5% - each implementing agency's share of nonlocal visits based on the most recent user visitation survey conducted by the Council.
- 10% - reserved for land acquisition costs. This portion is distributed on a first-come-first-served basis and is not allocated as part of the above percentages.

Council's Parks and Trails Legacy Fund grant program. Regional park implementing agencies request their share of the PAT Fund through the Council's Parks and Trails Legacy Fund (PTLF) grant program. The grant program is administered in accordance with relevant state statutes, Council policy, and the *2040 Regional Parks Policy Plan*. Each regional park implementing agency submits grant applications for projects that in sum reflect their share.

Process for generating the list of projects. Regional park implementing agencies submitted their proposed projects via the Council's new online grant system. The application collected information required to assess eligibility, including the project description and other requirements specified in state statute and the *2040 Regional Parks Policy Plan*. Elements of the application included:

- Park or trail name
- Project description
- Questions to ascertain if project supplements or substitutes for other funding
- Information on other funding sources that serve as leverage
- Identification of Parks and Trails Legacy Plan's strategic direction
- Regional Parks equity toolkit items

Staff conducted a technical review of the applications to ensure that they were complete then communicated with the Agencies as necessary to make clarifications needed to render the applications ready for further review. All Agencies demonstrated a high degree of responsiveness.

New elements for fiscal years 2018/2019. There are three major new elements in this biennium's recommendation for PAT Fund projects:

- **Equity toolkit.** As part of the adoption of the *2040 Regional Parks Policy Plan*⁴ adopted in February of 2015⁵ the Council committed to implementing a method of reviewing and evaluating the equity implications of PAT Fund project proposals using the regional parks equity toolkit. The toolkit was developed through significant community outreach and discussion, which included representatives from the ten regional park implementing agencies, advocacy and community organizations, and other partners. The Council adopted the regional parks equity toolkit on July 13, 2016⁶.

The *2040 Regional Parks Policy Plan* says that the Metropolitan Parks and Open Space Commission (MPOSC) will “**discuss and evaluate the projects based on the benefit a**

³ <https://www.revisor.mn.gov/statutes/?id=473.351>

⁴ <http://metro council.org/Parks/Publications-And-Resources/POLICY-PLANS/2040-Regional-Parks-Policy-Plan.aspx>

⁵ <http://www.metro council.org/getdoc/2f332ec0-2f62-4140-ac68-2e54e82e7600/Minutes.aspx>

⁶ http://www.metro council.org/Council-Meetings/Committees/Metropolitan-Council/2016/7-13-16/0713_2016_111.aspx

particular project may provide to all the region’s residents, the needs and preferences of specific under-served populations, and the unintended consequences of the project. On occasion, based on the Council’s evaluation, the Council may elect to recommend shifting the order of the prioritized list. Reprioritization will in no way apply to regional park implementing agency projects that serve as a match to Federal or State funds” (page 100).

This business item provides the background for MPOSC and the Council to undertake their discussion and evaluation of the Project List.

The Agencies determine the scope of work for each project; neither MPOSC nor the Council will require changes to the scope of any project; and the Agencies individual allotments of PAT Funds will not be impacted by the re-prioritization of projects.

- **Connecting people and the outdoors.** The *2040 Regional Parks Policy Plan* says that the Council would implement in fiscal year 2018 a minimum percentage of PAT Funds that should be spent on the PAT Legacy strategy of ‘Connect People and the Outdoors’⁷, and to “require regional park implementing agencies to adhere to the determined minimum level of spending as it pertains to their annual share of Parks and Trails Fund appropriations” (page 99). The Parks and Trails Legacy Advisory Committee defined “connect people and the outdoors” as non-capital projects that attract new users or retain existing users.

For the 2018/2019 state biennium, the Council approved a five percent minimum towards connecting people and the outdoors on September 28, 2016, on business item 2016-175⁸ Although the minimum percentage was approved very recently, the requirements for **balanced** PAT Fund spending have been in place for several years. All implementing agencies were therefore required to submit projects that comprised at least five percent of their spending on efforts towards this PAT Fund strategy. Staff will present a summary of each project to MPOSC for the commission’s consideration and discussion (see Attachment 1 for the list of projects). Council staff and representatives of each Agency will be present to answer commissioners’ questions.

- **Ensuring PAT Funds supplement rather than substitute traditional sources of funding.** The 2016 Legislature amended MN Statute §85.53, subdivision 2(h) via session law (Chapter 172, Article 3, Section 1) to add that “*any state agency or organization requesting a direct appropriation from the parks and trails fund must inform the house of representatives and senate committees having jurisdiction over the parks and trails fund, at the time the request for funding is made, whether the request is supplanting or is a substitution for any previous funding that was not from a legacy fund and was used for the same purpose.*”

The grant application required Agencies to identify if the proposed project:

- Was a new project or program;

⁷ <http://www.legacy.leg.mn/funds/parks-trails-fund/parks-trails-fund-strategic-directions>

⁸ <http://www.metrocouncil.org/Council-Meetings/Committees/Community-Development-Committee/2016/September-19,-2016/2016-175.aspx>

- Was an expansion, enhancement or acceleration of past work accomplished with a previous funding source; or
- Had previously been funded with PAT Funds.

Rationale

Appropriation of the PAT Fund is set in Minnesota Statute 473.315⁹ and the funding source was set through constitutional amendment. It is the Council’s responsibility to review, aggregate, and recommend the projects to the Office of the Governor. After the 2017 legislature sets the final appropriation, the Council serves as the fiscal agent to administer the grant funds.

Funding

Appropriation estimate. At the end of the 2016 legislative session, Minnesota Management and Budget (MMB) developed an estimate of the 2018/2019 sales tax revenue available for distribution through the PAT Legacy program. MMB recommended a five percent reserve on the total available appropriation. Based on the current estimates from MMB, the allocations to the individual agencies are shown below in Table 1, with a five percent reserve.

Table 1 (in thousands)

Agency	State Fiscal Year 2018	State Fiscal Year 2019	Total
Anoka County	\$1,512.72	\$1,655.78	\$3,168.50
Bloomington	284.13	311.00	595.13
Carver County	347.05	379.87	726.92
Dakota County	1,227.62	1,343.73	2,571.35
Minneapolis Park & Recreation Board	3,498.97	3,829.89	7,328.86
Ramsey County	1,300.39	1,423.38	2,723.77
Saint Paul	2,482.69	2,717.49	5,200.18
Scott County	411.46	450.37	861.83
Three Rivers Park District/Scott County	187.02	204.71	391.73
Three Rivers Park District	3,979.73	4,356.11	8,335.84
Washington County	857.04	938.10	1,795.14
Totals	\$16,088.80	\$17,610.40	\$33,699.25

Known Support / Opposition

Regional Park implementing agencies were asked to submit their respective Board approvals. The collection of these approvals is in process.

Attachment 1 – State Fiscal Year 2018/2019 Parks and Trails Fund Project List for Metropolitan Regional Parks and Trails

Sub-Totals: Agency

Agency	Park or trail	Project	Priority	Project description	Strategic direction	2018 Amount	2019 Amount	Federal funds	Demo-graphic segment	Specific aspects supporting equity	Verification method
ANOKA COUNTY	Jurisdiction-wide	Connecting People with the Outdoors	2018-1 2019-1	This project will hire a Communication & Outreach Specialist to specifically target the underserved populations and engage them in meaningful discussions on how Anoka County Parks can better serve the community, be more inclusive and to connect people to the outdoors.	Connect people and the outdoors	\$76,000	\$84,000		<ul style="list-style-type: none"> • Age • Race • Ethnicity • Income • National Origin • Ability 	The Communication and Outreach Specialist will support the Parks & Recreation Department with the promotion of the County’s regional park system through event planning, outreach efforts to underserved populations, partnerships, and program evaluation with the intent to connect people to the outdoors. The design, development and production of communication and marketing materials will also be a core function of this role. The primary focus of the position is to strengthen equitable use of the County’s regional parks and trails by all residents across age, race, ethnicity, income, national origin, and ability.	The success of this project will be measured by tracking the number and demographics of people engaged through new program offerings, community outreach and events, and new promotional materials created on an annual basis.

ANOKA COUNTY	Bunker Hills Regional Park	Bunker Hills Activities Center Deck	2018-3	This project proposes to construct two accessible outdoor gathering areas connected to the Bunker Hills Regional Park Activities Center. One will be a large capacity reservable outdoor gathering area and one will be a smaller gathering area that is open to the public. Work will include design, engineering, construction, lighting, utilities, furnishings, restoration, fees and contingencies.	Acquire land, create opportunities	\$350,000	\$0		<ul style="list-style-type: none"> • Age • Race • Ethnicity • Ability 	Based on focus groups research from the Met Council's "Regional Park Use Among Selected Communities of Color" (2014), one way to enhance the regional parks system was to "enhance capacity of gathering spaces". The proposed large outdoor gathering space will provide an outdoor space that will connect users with nature while enjoying a premier indoor facility within Bunker Hills Regional Park. The current exterior spaces are not fully accessible and the new gathering space will be designed to provide universal access to the site. The outdoor deck and patio spaces will also be used to conduct programming related to the Memorial Peace Garden further connecting a variety of ages, ethnicities, and races through common interest programs.	Staff will evaluate programs and rental groups through follow up surveys, reports, and staff observation focused on identifying new users of the facility and recording demographic information.

ANOKA COUNTY	Rice Creek Chain Park Reserve	Rice Creek Chain of Lakes Campground Maintenance Facility Construction	2019-5	This project will construct a 3500 sf Maintenance Facility at Rice Creek Chain of Lakes Park Reserve. The scope of work for the grant includes design and engineering of the building and site, construction, security fencing, lighting, utilities, landscape restoration, signs, site furnishings, fees and contingencies.	Take care of what we have	\$0	\$651,780		<ul style="list-style-type: none"> • Age • Race • Ethnicity • Income • National Origin • Ability 	This project is not specifically intended to better serve specific targeted demographic segments of the population, but by Anoka County being able to service the park better through a local maintenance facility, all park users are better served. In addition, by locating the maintenance facility within the park, the increased staff presences can help to address the safety and security concern/perceptions identified in the Regional Park Use Among Select Communities of Color investigation completed by the Metropolitan Council (2014). The opportunity to have Park Services Rangers based out of that facility would reduce response times to incidents or concerns within the park as well.	Through the FAMIS work order system, staff can evaluate how quickly work orders are completed that will relate to the operations of this regional park. The ability to quickly respond to park users concerns will result in better service and translate to increased visitation by all user groups.
ANOKA COUNTY	Anoka Co Riverfront Regional Park	Reconstruct Parking Lot, Trails and Retaining Wall at Anoka County Riverfront - Islands of Peace Regional Park	2019-6	This project proposes to reconstruct the parking lot, trails and retaining wall at Islands of Peace Park, a part of Anoka County Riverfront Regional Park. The scope of the grant will include design, engineering, construction, utility work, lighting, landscape restoration, signs, site furnishings, fees and contingencies.	Take care of what we have	\$0	\$450,000		<ul style="list-style-type: none"> • Ability 	This park when originally developed in the 1980's was designed to be completely accessible. Since it's development accessibility standards have changed and the bituminous surfacing is in a state of disrepair, that reconstruction is required. This project targets people with disabilities and will provide a safe, accessible parking lot and trail system within the park. The park is also near lower income housing and will provide an aesthetically pleasing trail system for those residents.	Demographic survey of users.
Agency Sub-Total						\$1,512,720	\$1,655,780

MINNEAPOLIS PARK & RECREATION BOARD	Above the Falls Regional Park	Hall's Island and the Park on the Scherer Site	2018-1 2019-1	Design, engineer, and construct Hall's Island and the Park on the Scherer Site within Above the Falls Regional Park, based on the Metropolitan Council approved Master Plan for that park.	Acquire land, create opportunities	\$464,485	\$164,565		<ul style="list-style-type: none"> • Race • Ethnicity • Income • Ability 	The creation of a park on a major water body in north and northeast Minneapolis will better serve people with lower incomes and those with races/ethnicities other than white. These portions of Minneapolis have a higher percentage of target groups than those areas currently well served by water-based parks in Minneapolis. Though it is impossible to attribute each aspect of the park (trails, kayak launch, earthwork, boardwalks, etc.) to better service of target populations, the park as a whole will provide recreational amenities currently lacking for those populations. The fundamental lack of high-quality water-based parks nearby is assuredly a barrier to park use for underserved groups.	Upon completion of the project, MPRB would perform surveys that ask users to self-identify as to race, ethnicity, income, and ability, and ask their satisfaction with the park.

Attachment 1 – State Fiscal Year 2018/2019 Parks and Trails Fund Project List for Metropolitan Regional Parks and Trails

MINNEAPOLIS PARK & RECREATION BOARD	Minnehaha Parkway Regional Trail	Community-Driven Master Plan for Minnehaha Parkway Regional Trail	2018-3	Create a master plan for Minnehaha Parkway Regional Trail through extensive engagement with the community. Creation of a new master plan will both provide direction for connecting more people to parks through future capital investment and also will inherently promote the park through its community engagement.	Connect people and the outdoors	\$256,000	\$0		<ul style="list-style-type: none"> • Age • Race • Ethnicity • Income • National Origin • Ability 	The community engagement associated with the creation of the master plan will pay particular attention to involving people of races, ethnicities, national origins, ages, and abilities sometimes underserved in planning processes. MPRB has found through past projects that its engagement efforts can be empowering for minority communities and can also lead to better plans--plans that guide subsequent capital improvements in a way that better meets the needs of all communities. The planning effort itself, through its communications, advertising, and outreach, will also create awareness of the park and park system as a whole.	MPRB requests demographic information of planning process participants, and will do so for this project.

Attachment 1 – State Fiscal Year 2018/2019 Parks and Trails Fund Project List for Metropolitan Regional Parks and Trails

Agency	Park or trail	Project	Priority	Project description	Strategic direction	2018 Amount	2019 Amount	Federal funds	Demo-graphic segment	Specific aspects supporting equity	Verification method
MINNEAPOLIS PARK & RECREATION BOARD	Minnehaha Parkway Regional Trail	Improvement of Existing Infrastructure at Minnehaha Parkway Regional Trail	2018-4 2019-3	Design, engineering, and construction of rehabilitation projects associates with existing trails, bridges, habitat enhancement, stormwater management and water quality infrastructure, and signage. Exact project extents and tasks will be refined during project scoping and included in the project's grant agreement.	Take care of what we have	\$1,194,000	\$1,200,000		<ul style="list-style-type: none"> • Age • Ability 	Capital improvements, specifically rehabilitation of trails and bridges, will increase accessibility for people with different abilities in terms of mobility and visual impairment. The existing infrastructure in the park is aging and may not always meet accessibility guidelines and best practices, which can be a barrier for people with different abilities. In addition, improving trails, bridges, and signs will ensure the parkway trail can serve as an important off-road cross-city bicycling route for young people. Fear of riding on streets and difficulty navigating broken and degrading pavement is a significant barrier to park use by the youngest bicyclists.	Upon completion of the project, MPRB would perform surveys of young and/or differently abled individuals to assess their satisfaction with the improvements.
MINNEAPOLIS PARK & RECREATION BOARD	Mississippi Gorge Regional Park	Implementation of Mississippi River Gorge Master Plan	2018-5	Design, engineering, and construction of improvements included in the Metropolitan Council approved Master Plan for Mississippi Gorge Regional Park, specifically in the area south of I-35W on the west bank now commonly known as Bohemian Flats. Work will include bicycle and pedestrian paths, picnic areas, fishing areas, landscaping, signs, and visitor comfort facilities.	Acquire land, create opportunities	\$44,000	\$0		<ul style="list-style-type: none"> • Ability 	Improvement of pathways and fishing access will directly benefit people with different abilities in terms of mobility and vision. The lack of accessible facilities currently restricts use for persons who are differently abled. This funding request is the "tail" of other Parks and Trails funding from 2017. Though this 2018 request will not implement all improvements in the park, it will complete those begun in 2017.	Upon completion of the project, MPRB would perform on-site surveys of differently abled persons to determine their satisfaction with the improvements.

Attachment 1 – State Fiscal Year 2018/2019 Parks and Trails Fund Project List for Metropolitan Regional Parks and Trails

SCOTT COUNTY	Cleary Lake Regional Park	Concrete vault restroom replacement for Group Camp Sites at Cleary Lake Regional Park	2018-2	At Cleary Lake Regional Park group camps replace two wood latrines at end of life cycle. The project includes design, bid, furnish and install two prefabricated concrete vault latrine buildings including soil borings, permitting, bidding, site preparation/demolition, tree removals/trimming for crane accessibility, grading, drainage, erosion control, ADA concrete pad and path, site restoration, furnish and install latrines, related utility and lighting work, signage and building appurtenances.	Take care of what we have	\$90,000	\$0			The project is not specifically intended to better serve specific targeted demographic segments. It is intended to benefit all who wish to use the group camp site or adjacent trails. Demographics on group camp users is unavailable at this time so we are unable to tie the project to a specific target demographic.	Because demographics on group campers is not available at this time, the project is not specifically intended to serve a specific demographic.

Attachment 1 – State Fiscal Year 2018/2019 Parks and Trails Fund Project List for Metropolitan Regional Parks and Trails

Agency	Park or trail	Project	Priority	Project description	Strategic direction	2018 Amount	2019 Amount	Federal funds	Demo-graphic segment	Specific aspects supporting equity	Verification method
SCOTT COUNTY	Cedar Lake Farm Regional Park	Group Camp and Large Picnic Area Development at Cedar Lake Farm	2018-3 2019-3	The Cedar Lake Farm Group Camp and Large Group Picnic Area and Pavilion project includes design, engineering, demolition, construction and construction management and administration of a group camp, large group picnic area and pavilion, trail connections, and support facilities including road access, parking lot, restroom, and utilities.	Acquire land, create opportunities	\$473,556	\$612,326		<ul style="list-style-type: none"> • Age • Income • Ability 	<p>Age - Group camps are open to all ages. By adding camper cabins, a more comfortable camping experience, we anticipate attracting the 45 + year age group which is utilizing regional facilities in Scott County less than we would expect.</p> <p>Income - The amenities are free (trails) and affordable (picnic shelter and camper cabins) and there are free complimentary amenities elsewhere in the park. We anticipate the facilities may benefit individuals in lower income brackets which appear to be using regional facilities less than we would expect.</p> <p>Ability - the project adds accessible facilities and improves accessible trail access between amenities within the park and to an adjacent neighborhood.</p>	We anticipate beginning to collect demographic data with picnic shelter and group camp reservations. This information will inform future marketing and operations decisions for group camps and their support facilities. We will measure initial success, prior to having this demographic data, based on a final installation review that confirms the facility is properly installed and operating. Longer-term success will be measured by reviewing user demographic data along with general population data.

Attachment 1 – State Fiscal Year 2018/2019 Parks and Trails Fund Project List for Metropolitan Regional Parks and Trails

Agency	Park or trail	Project	Priority	Project description	Strategic direction	2018 Amount	2019 Amount	Federal funds	Demo-graphic segment	Specific aspects supporting equity	Verification method
SCOTT COUNTY	Jurisdiction-wide	Awareness Marketing to target underrepresented populations	2019-1	We will use targeted marketing and outreach to help create awareness of Scott County Regional Parks for underrepresented populations. This will include a variety of marketing media including, but not limited to, print, direct connections with residents, and social media. Efforts will focus to connect with lower income and racial and ethnic minorities; groups we believe are currently underrepresented in regional facilities in Scott County. Outreach to the community will inform marketing.	Connect people and the outdoors	\$0	\$25,000		<ul style="list-style-type: none"> Race Ethnicity Income 	Lack of awareness of the regional park system is a barrier among communities of color, based on qualitative research by Met Council. Communities of color are using the Scott County regional system less than we would anticipate (-3%). Lower income households are visiting less than we would anticipate (-8%). Targeted marketing to these groups may remove an awareness barrier. Highlighting affordable and free activities may remove affordability barrier.	There are barriers to quantitatively verifying the near term success of this project. Long term success will be evaluated by comparing future visitor surveys with previous 2008 and 2013 visitor surveys.
SCOTT COUNTY	Jurisdiction-wide	Programs to bring families to Scott County Parks	2019-2	Provide free events and activities to bring families to Scott County regional parks and trails. We understand low income families (making less than \$75,000) are underrepresented in our parks. These events would attempt to create awareness within this demographic.	Connect people and the outdoors	\$0	\$17,754		<ul style="list-style-type: none"> Income 	The events will provide affordable visits to Scott County parks and trails. By providing busing to and from the park, as well as providing activities at no cost, the events will remove cost barriers to the park. We will look at partnering with different departments in the County that would be able to advertise the program to low income individuals or families. While the events are entirely free, we would make an effort to highlight the activities in the park that are always free.	During the event, we will ask attendees to fill out surveys helping us understand their previous park use, their likelihood of visiting again, and demographic data to understand if future programs like this would be beneficial in creating awareness for families making less than \$75,000.
Agency Sub-Total						\$598,480	\$655,080				

Attachment 1 – State Fiscal Year 2018/2019 Parks and Trails Fund Project List for Metropolitan Regional Parks and Trails

Agency	Park or trail	Project	Priority	Project description	Strategic direction	2018 Amount	2019 Amount	Federal funds	Demo-graphic segment	Specific aspects supporting equity	Verification method
ST PAUL	Trout Brook Regional Trail	Trout Brook Regional Trail	2018-1	Construction of stormwater harvest system to complete the re-introduction of the creek as a stormwater feature and recreational amenity for trail users. This is the final phase of providing healthy stream system along the trail. The creek will provide an enhanced connection between people, development and stormwater with open water, habitat, cleaner water at the outlet and a focus for the resting spots along the trail within the former brownfield site.	Acquire land, create opportunities	\$550,000	\$0	Yes	Although in a diverse area of the city that will benefit from access to nature, the project was not specifically intended to better serve a specific targeted demographic segment. St. Paul's North End and the nearby McDonough Housing Project are home to a diverse population that includes many Hmong, Karen, and African American families of low income status. While wealth is sometimes only measured in income, adding Troutbrook as a regional trail and re-introducing the creek as a trail amenity provides a rich and important connection to green space that was previously lacking in this community.	Trail/park counts, special event or programmed use and surveys are among the methods that can be used to verify service to target populations.	
ST PAUL	Indian Mounds Regional Park	Indian Mounds Regional Park Improvements	2018-2 2019-1	Project to include trail improvements between T.H. 61 to Bruce Vento Trail including design, engineering, demolition, grading, stormwater management, paving, landscaping and retaining wall construction as required.	Take care of what we have	\$780,000	\$331,600	Yes	This project will be designed with equity in mind but was not intended to target any specific demographic segment. Indian Mounds RP is a popular park for large group and family gatherings. The immediately adjacent neighborhood contains a large African American population and many low income residents. It is in a part of St. Paul where fewer than the average number of households have vehicles. Better trail connections and improved trail amenities will enhance circulation and access for all, especially for those who will walk and bike to the park.	Park counts, the # of picnic shelter permits and the accompanying survey are among the ways this information could be gathered. Measureable outcomes would include lineal feet of multimodal trail added, lineal feet of roadway added, number of signs added, benches, picnic tables. Surveys that include race and ethnicity, income, age and ability to verify that the use of the park reflects the makeup of the region could help to verify the target populations are better served.	

Attachment 1 – State Fiscal Year 2018/2019 Parks and Trails Fund Project List for Metropolitan Regional Parks and Trails

Agency	Park or trail	Project	Priority	Project description	Strategic direction	2018 Amount	2019 Amount	Federal funds	Demo-graphic segment	Specific aspects supporting equity	Verification method
ST PAUL	Lilydale-Harriet Island-Cherokee Heights Regional Park	Lilydale Regional Park Improvements	2018-3 2019-2	Design, engineering and construction of a picnic shelter with restroom facilities. Site work will include grading, erosion control, and stormwater management.	Acquire land, create opportunities	\$200,000	\$410,000			This project was not designed to better serve any one specific targeted demographic segments. We are certain however, that adding a restroom to this park will make it significantly more enjoyable for park users of all ages and abilities to enjoy hiking, biking, fishing, or work in small learning groups from the nearby charter school.	We will be able to garner information from picnic shelter and park use permits, as well as from the staff and students at the nearby charter school.
ST PAUL	Harriet Island - South St Paul Regional Trail	Harriet Island South Saint Paul Regional Trail	2018-4 2019-3	Project includes additional design, engineering, easements, potential acquisitions, construction of safety improvements related to the regional trail project specifically at intersections of the trail and private businesses and rail properties. Specific property information is included as an attachment.	Acquire land, create opportunities	\$350,000	\$550,000	Yes		This project is not designed to better serve a specific targeted demographic segment. It completes a trail connection from St. Paul's Harriet Island to South St. Paul improving the trail connections through Harriet Island and Lilydale Regional Parks, and the neighborhoods and businesses between St. Paul to South St. Paul, adding a new alternative option for individuals without vehicle. We will improve non-motorized vehicle use, taking advantage of non-vehicle transit routes and ultimately improving access and safety for all ages - those on bikes, those pushing strollers, or those in wheelchairs.	Surveys with bike groups and surveys with local employers and the district council (WSCO) could be among the methods used to collect data and verify service to persons of all ages.
ST PAUL	Phalen Regional Park	Phalen Regional Park Master Plan Implementation	2018-5 2019-4	Design, engineering and construction of pedestrian and vehicular circulation and parking. Grading, stormwater management and erosion control to be included.	Take care of what we have	\$190,690	\$1,013,890			This project was not designed to target a specific demographic. This is an area of the city with where nearly 80% of the youth qualify for free and reduced lunch. Improved circulation and parking will benefit all users who walk, bus, bike and drive to the park. Current infrastructure in the park is 40 years old. Traffic and parking improvements were frequently discussed and weighted by community members during the recent master plan update for Phalen Regional Park.	Pre and post-construction surveys will be conducted with beach, golf and picnic pavilion users. Focus group discussions will be conducted with known user groups from the neighborhood and nearby housing project. Results from surveys and focus groups will be recorded.

Attachment 1 – State Fiscal Year 2018/2019 Parks and Trails Fund Project List for Metropolitan Regional Parks and Trails

Take care of what we have	\$0	\$940,000		<ul style="list-style-type: none"> Ability 	The County strives to make the park attractive for all. There's significant commitment to diversification of outdoor recreation experiences, to better reflect regional demographic preferences. There are major capital investment plans in the park, funded through anticipated bond sale in 2019 of \$5M. The County plans to leverage this bond sale with Legacy funding to redevelop significant park features: repaving internal bituminous trails, and upgrading recreational amenities to make them contemporary and ADA accessible.	Success will be measured by number of attendees in park surveys performed one year after improvements are made. An increase in visitors of all abilities will show the effectiveness of upgraded amenities.
