## Background

The Council continues its work on developing the 2050 Regional Development Guide, *Imagine 2050*. The current Regional Development Guide, *Thrive MSP 2040*, along with the Council's system and policy plans, help guide the orderly growth and development of the Twin Cities metropolitan region. System and policy plans include the *2040 Regional Parks Policy Plan*, the *2040 Transportation Policy Plan*, the *2040 Water Resources Policy Plan*, and the *2040 Housing Policy Plan*.

At today's meeting, Council staff will share a draft timeline for engaging the Commission on the Regional Development Guide and Parks Policy in early 2024 (Table 1). Staff will also share a schedule for finalizing the Regional Development Guide in later 2024 (Table 2). Finally, staff will seek the Commission's advice on a revised set of regional parks and trails objectives. These draft Objectives are highlighted in Figure 1 below.

Council staff are asking for the Commission's advice on how to achieve these objectives over the next four years. What are the priorities? What policies and actions do we and/or regional park implementing agencies need to take to achieve the objectives?

Council staff will ask Commissioners to pair up, choose a draft objective to focus on, discuss possible priorities for that objective (for approximately ten minutes), and then report back to the larger group.

Council staff will continue iterating draft parks objectives and revising parks policies and actions as a result of this and future discussions with regional parks implementing agencies.

The January 4, 2024 Commission meeting continues a set of focused discussions on the Regional Development Guide and Regional Parks Policy Plan. At the March 2023 Commission meeting, staff shared Council-endorsed values and vision statements for the Regional Development Guide. Staff also shared a summary of the Regional Parks Policy Plan update work to-date, including a project timeline and a plan for working directly with Regional Parks Implementing Agencies via a series of workgroups.

At the April 2023 Commission meeting, Council staff led small group activities focused on developing vision, mission, and value statements for the Regional Parks and Trails System. An Implementing Agency-Council workgroup has continued this work. A refined set of statements was presented to the full Implementing Agency partnership at the end of June.

In June 2023, Council staff sought the Commission’s advice on developing shared regional goals and policy area objectives. Work across Council systems and policy areas continues in this area now. Policy area objectives will connect regional goals to policies and actions. This will also be a focus of today’s information item.

In August 2023, Council staff sought the Commission’s feedback and advice on community engagement activities and regional parks and trails system vision, mission, and values. Staff also shared updates on regional goals and the launch of two additional parks policy plan workgroups.

In November 2023, Council staff shared outcomes of the most recent Agency-Council workgroups and the draft regional parks and trails objectives. The Commission provided feedback and advice on draft parks objectives.

Staff will continue to engage with the Commission throughout the project to provide updates on the planning process and seek the Commission’s guidance, input, and feedback.

Minnesota law requires the Council to conduct a comprehensive review of the Regional Parks Policy Plan at least every four years (Minnesota Statutes, section 473.147). The policy plan was last updated in December 2020. Completion of the policy plan update is expected in late 2024 or early 2025.
