ACTION TRANSMITTAL 2014-51

DATE: August 13, 2014

TO: Transportation Advisory Board FROM: Technical Advisory Committee

PREPARED BY: Bob Paddock / Heidi Schallberg, MTS Staff

SUBJECT: Roadway Functional Classification Map for the Seven-County Twin

Cities Region

REQUESTED Recommend adoption of the Roadway Functional Classification

ACTION: Map for the Seven-County Region

RECOMMENDED That the Transportation Advisory Board adopt the Roadway

MOTION: Functional Classification Map for the Seven-County Twin Cities

Region.

BACKGROUND AND PURPOSE OF ACTION: The regional solicitation process is conducted biennially to allocate federal transportation funds from three programs: Surface Transportation Program (STP), Congestion Mitigation Air Quality Program (CMAQ), and Transportation Alternatives Program (TAP). Federal rules allow recipients of these funds to focus or target them to meet defined regional needs. Roadway improvement projects must be on roadways functionally classified as "A" Minor Arterials or Non-Freeway Principal Arterials to be eligible for federal funds in the regional solicitation.

The TAC has approved a number of roadway functional classification changes since the 2011 regional solicitation, and these changes have been recorded in the official map. The TAB will adopt the roadway functional classification map to provide an official map for applicants and project reviewers to use as a resource in determining project eligibility in the next regional solicitation.

The map will be made available on the Metropolitan Council's website and will be referenced in the next regional solicitation package, which is scheduled to be released in the Fall 2014.

COMMITTEE COMMENTS AND ACTION: TAC-Planning recommended approval. The Technical Advisory Committee unanimously recommended approval.
