

ACTION TRANSMITTAL No. 2015-25

DATE: April 23, 2015

TO: Transportation Advisory Board

PREPARED BY: Joe Barbeau, Senior Planner (651-602-1705)

SUBJECT: 2015-2018 TIP Amendment: Washington County Civil Engineering at St. Croix Boom Site

REQUESTED ACTION: Washington County requests an amendment to add civil engineering to and increase the cost of its rehabilitation at the St. Croix Boom Site Roadside Recreational Area (SP# 082-595-002).

RECOMMENDED MOTION: Recommend that the Transportation Advisory Board adopt the amendment into the 2015-2018 TIP to add civil engineering to and increase the cost of its rehabilitation at the St. Croix Boom Site Roadside Recreational Area (SP# 082-595-002).

BACKGROUND AND PURPOSE OF ACTION: An amendment is needed to update the scope and the total project cost. This project is for rehabilitation and construction of a roadside recreational area near the St. Croix Bridge site. Civil engineering (CE) is being added to the project scope and increases the total project costs by \$75,500 for a total of \$400,500.

RELATIONSHIP TO REGIONAL POLICY: Federal law requires that all transportation projects that will be funded with federal funds must be in an approved TIP and meet the following four tests: fiscal constraint; consistency with the adopted regional transportation plan; air quality conformity; and opportunity for public input. It is the TAB's responsibility to adopt and amend the TIP according to these four requirements.

STAFF ANALYSIS: The TIP amendment meets fiscal constraint because the federal funds are sufficient to fully fund the project. This amendment is consistent with the Metropolitan Council Transportation Policy Plan, adopted by the Metropolitan Council on January 14, 2015 with FHWA/FTA conformity determination established on March 13, 2015. The Minnesota Interagency Air Quality and Transportation Planning Committee determined that the project is exempt from air quality conformity analysis. Public input opportunity for this amendment is provided through the TAB's and Council's regular meetings. This amendment meets the criteria for using the TAB's streamlined TIP amendment process and was recommended for streamlining by the TAC Executive Committee.

RB	GRADING	PLHD	\$400,500	\$400,500	-	-	-	-

PROJECT BACKGROUND:

1. Briefly describe why amendment is needed (e.g., project in previous TIP but not completed; illustrative project and funds now available; discretionary funds received; inadvertently not included in TIP).

An amendment is needed to update the scope and the total project cost. This project is for rehabilitation and construction of a roadside recreational area near the St. Croix Bridge site. Civil engineering (CE) is being added to the project scope and increase the total project costs by \$75,500 for a total of \$400,500.

2. How is Fiscal Constraint Maintained as required by 23 CFR 450.216 (check all that apply)?

- New Money
- Anticipated Advance Construction
- ATP or MPO or MnDOT Adjustment by deferral of other projects
- Earmark or HPP not affecting fiscal constraint X
- Other

SP 082-595-002 is currently programmed in SFY 2016 with a total of \$325,000 PLHD federal

funds (Public Lands Highway Discretionary Program). These funds are allocated funds, not formula funds, and stay with this specific project and are not subject to formula funding fiscal constraint. A previous project, SP 082-595-001, was for planning and preliminary engineering for this site. Some of that funding was not used, and will now be used for the subject project for CE. \$75,500 from SP 082-595-001 will be requested through financial modification with the FHWA for the allocated funds for CE to be included in this project, for a total project cost of \$400,500.

The PLHD funds for this project from SP 082-595-001 are sufficient to fully fund the project; therefore, fiscal constraint is maintained.

CONSISTENCY WITH MPO LONG RANGE PLAN:

This amendment is consistent with the Metropolitan Council Transportation Policy Plan, adopted by the Metropolitan Council on January 14, 2015 with FHWA/FTA conformity determination established on March 13, 2015.

AIR QUALITY CONFORMITY:

- Subject to conformity determination
- Exempt from regional level analysis X
- N/A (not in a nonattainment or maintenance area)

*Exempt Project Category #O-9. Transportation enhancement activities (except rehabilitation and operation of historic transportation buildings, structures or facilities)per Section 93.126 of the Conformity Rules
