of the Metropolitan Council of the Twin Cities

ACTION TRANSMITTAL No. 2014-42

DATE: November 6, 2015

TO: Transportation Advisory Board

PREPARED BY: Joe Barbeau, Senior Planner (651-602-1705)

SUBJECT: 2016-2019 TIP Amendment: 5309 Bus & Bus Facilities

Discretionary Award

REQUESTED Metro Transit requests an amendment to include in the 2016-2019

ACTION: TIP, funding to improve, replace, and construct bus facilities in the

Minneapolis and St. Paul region (SP# TRF-TCMT-16BE).

RECOMMENDED Recommend that the Transportation Advisory Board adopt the

MOTION: amendment into the 2016-2019 TIP to include funding for

improvement, replacement, and construction of bus facilities in the

Minneapolis and St. Paul region (SP# TRF-TCMT-16BE).

BACKGROUND AND PURPOSE OF ACTION: Metro Transit was awarded an FTA Section 5309 Bus & Bus Facilities discretionary award (Ladders of Opportunity) in 2014 to improve, replace, and construct bus facilities in the Minneapolis-St. Paul region. The focus will be on bus stop improvements to ensure safe, quality facilities in disadvantaged areas. Improvements will include new customer waiting shelters, addition of heat and light to existing shelters, improved transit information, and pedestrian connections. In September 2015, a portion of the project was obligated by FTA in the amount of \$567,500. The remaining balance of the federal project funding in the amount of \$2,806,000 will be obligated by FTA in FFY 2016. FTA requires that the balance of the funding be amended into the 2016-2019 TIP.

RELATIONSHIP TO REGIONAL POLICY: Federal law requires that all transportation projects that will be funded with federal funds must be in an approved TIP and meet the following four tests: fiscal constraint; consistency with the adopted regional transportation plan; air quality conformity; and opportunity for public input. It is the TAB's responsibility to adopt and amend the TIP according to these four requirements.

STAFF ANALYSIS: The TIP amendment meets fiscal constraint because the local and federal funds are sufficient to fully fund the project. The amendment is consistent with the Transportation Policy Plan, adopted by the Metropolitan Council on January 14, 2015, with FHWA/FTA conformity determination established on March 13, 2015. The Minnesota Interagency Air Quality and Transportation Planning Committee determined that the project is exempt from air quality conformity analysis. Public input opportunity for this amendment is provided through the TAB's and Council's regular meetings. This amendment meets the criteria for using the TAB's streamlined TIP amendment process and was recommended for streamlining by the TAC Executive Committee.

PROJECT BACKGROUND:

1. Briefly describe why amendment is needed (e.g., project in previous TIP but not completed; illustrative project and funds now available; discretionary funds received; inadvertently not included in TIP).

This amendment is needed to add a project to the 2016-2019 TIP. The Metropolitan Council / Metro Transit was awarded an FTA Section 5309 Bus & Bus Facilities discretionary award on 9/25/2014. In September 2015, a portion of the project was obligated by FTA in the amount of \$567,500. This amount covered those construction activities that have been cleared through the National Environmental Protection Act (NEPA) process. FTA will not obligate any funding prior to NEPA clearance. The NEPA process is ongoing and the remaining balance of the federal project funding in the amount of \$2,806,000 will be obligated by FTA in FFY 2016. FTA requires that the balance of the funding be amended into the 2016-2019 TIP.

Metro Transit, serving the Twin Cities in Minnesota, will receive funding to improve, replace, and construct bus facilities in the Minneapolis-St. Paul region, particularly focused on areas of high poverty and high dependence on transit. The focus will be on bus stop improvements to ensure safe, quality facilities in disadvantaged areas. The project will result in new customer waiting shelters,

addition of heat and light to existing shelters, improved transit information, and pedestrian connections. In addition, partnerships with local schools and training centers will better connect residents to education and employment opportunities.
