ACTION TRANSMITTAL No. 2015-44

DATE: November 4, 2015

TO: Transportation Advisory Board FROM: Technical Advisory Committee

PREPARED BY: Joe Barbeau, Senior Planner (651-602-1705)

SUBJECT: Scope Change Request for Hennepin County Cedar Lake LRT

Regional Trail Crossings

REQUESTED ACTION:

Hennepin County requests a scope change to its STP-funded trail crossing project (SP # 027-090-024) to incorporate the project into the base Southwest LRT project and add stairs at the

crossings.

RECOMMENDED

The Transportation Advisory Committee recommends approval of

MOTION: the scope change request.

BACKGROUND AND PURPOSE OF ACTION: Hennepin County was awarded \$5,830,000 (adjusted for inflation) in Surface Transportation Program (STP) funding from the 2014 Regional Solicitation for construction of three grade-separated road crossings along the Cedar Lake LRT Regional Trail. The three grade-separations include a tunnel beneath Blake Road (CSAH 20) in Hopkins, a tunnel beneath Wooddale Avenue in St. Louis Park, and extension of a bridge over Beltline Boulevard in St. Louis Park.

Hennepin County is requesting the following changes to the project:

- Incorporate the project into the base Southwest Light Rail Transit (SWLRT) project. This
 would allow the leveraging of other federal funds for the project. New Starts funds some
 of the STP funds awarded to the project. This change does not impact project design.
 Other considerations are:
 - The STP funds would be able to contribute toward the New Starts funding of the SWLRT, up to a total federal funding amount of 80 percent.
 - Leveraging New Starts funds will free up \$2.1 million in STP funds for FY 2018 (See below tables). The County requests that the funds not be re-obligated prior to the end of calendar year 2016 pending federal approval of the full funding grant agreement for New Starts funding.
- Change project sponsor from Hennepin County to Metro Transit.
- Addition of stairs to the crossings. Each of the three crossings will include a staircase to provide a connection between the trail and the SWLRT stations.
 - Beltline Station: stairs are proposed for the east and west sides of Beltline Boulevard.
 - Wooddale Station: Stairs are proposed on the east side of Wooddale Ave.
 - Blake Station: Stairs are proposed on the west side of Blake Road.

Original Cost Estimate

	Total Project Cost	Regional Solicitation	Local Match
Estimated construction cost	\$7,621,400	\$5,830,000	\$1,791,400
Percentage of total project cost		76.5%	23.5%

Updated Cost Estimate Adding Stairs and Adding Project to the SWLRT Base Project

	Total Cost	FTA New Starts	STP	Local Match
Estimated construction cost	\$12,370,000	\$6,185,000	\$3,711,000	\$2,474,000
Percentage of total project cost		50.0%	30.0%	20.0%

However, FHWA does not allow STP to be used on ineligible costs such as professional services. Removing ineligible costs from the project budget, leaves the below:

Updated Cost Estimate Adding Stairs and Adding Project to the SWLRT Base Project (No

professional services)

Eligible Costs	Total Cost	FTA New Starts	STP	Local Match
Estimated construction cost	\$9,523,000	\$3,907,400	\$3,711,000	\$1,904,600
Percentage of total project		41.0%	39.0%	20.0%
cost				
Ineligible Costs	Total Cost	FTA New Starts	STP	Local Match
Estimated costs	\$2,847,000	\$1,423,000	\$0	\$1,423,000
Percentage of total project (50.0%	0%	50.0%

Difference in Project Costs and STP Funds

	Total Project Cost	STP Funds
Estimated construction cost	+\$2,155,600	-\$2,119,000

RELATIONSHIP TO REGIONAL POLICY: Projects that receive funding through the regional solicitation process are subject to the regional scope change policy. The purpose of this policy is to ensure that the project is designed and constructed according to the plans and intent described in the original application. Additionally, federal rules require that any federally-funded project scope change must go through a formal review and TIP amendment process if the project description or total project cost changes substantially. The scope change policy and process allow project sponsors to make adjustments to their projects as needed while still providing substantially the same benefits described in their original project applications.

A TIP amendment request accompanies this request.

STAFF ANALYSIS: Staff reviewed the submitted scope change request and examined whether the updated project would have scored well enough to be funded. The project The cost increase leads to a reduced score in Cost Effectiveness of Usage. Other scores are unchanged. The adjusted score of 883 (from 899) is 102 points above the lowest-scoring funded project in the category.

COMMITTEE COMMENTS AND ACTION: At its October 15, 2015, meeting, the TAC Funding and Programming Committee unanimously recommended approval of this scope change. At its November 4, 2015, meeting, TAC unanimously recommended approval of this scope change.

September 3, 2015

Elaine Koutsoukos TAB Coordinator Metropolitan Council 390 North Robert Street St. Paul, MN 55101

Ms. Koutsoukos,

As expressed in our August 19, 2015 letter, Hennepin County is considering two potential modifications to the Southwest LRT Regional Trail Crossings project, for which the County was awarded federal transportation funds through the Metropolitan Council's 2015 Regional Solicitation. The funding is in the 2016-2019 STIP for the year 2018 with \$5,830,000 in federal funds for a project total of \$7,621,400.

The changes to the project include incorporation of the Trail Crossings into the Southwest Light Rail Transit (SWLRT) base project, and addition of stairs at each crossing. Inclusion of the trail crossings into the base SWLRT project will modify the funding package to leverage Federal Transit Administration New Starts dollars. In this scenario, the Regional Solicitation funds could decrease by an estimated \$2.1 million from the \$5.83 million originally estimated, freeing these funds to be used on other projects throughout the region. The addition of stairs was proposed by the cities during ongoing design discussions to improve safety, accessibility and functionality of the trails. Neither of these scope modifications will have an impact on project schedule.

The Southwest Project Office (SPO) has confirmed that other projects have used federal dollars as local match to federal New Starts dollars, specifically both CMAQ and STP funds. Per current New Starts reporting guidance, we have also revised costs to reflect that total federal funding for the project (New Starts plus other federal sources) cannot exceed 80 percent.

Hennepin County is seeking guidance from Metropolitan Council and Transportation Advisory Board (TAB) staff on whether the two requests described above are possible within the parameters of the Regional Solicitation program. We anticipate that incorporation into the base project will elicit more favorable bid prices from contractors, and the addition of stairs will enhance the safety and accessibility of the trail crossings.

Attached is additional information as requested. If you have any questions or need any additional information please contact me at 612-348-6370 or kimberly.zlimen@hennepin.us.

Sincerely,

Kimberly Zlimen

Professional Engineer

Scope Change Request

Southwest LRT Regional Trail Crossings

REVISED PROJECT DESCRIPTION

This project will grade-separate three Cedar Lake LRT Regional Trail road crossings to create five miles of uninterrupted RBTN Tier 1 trail with zero at-grade road crossings. The project includes tunnels beneath Blake Road (CSAH 20) in Hopkins and Wooddale Avenue in St. Louis Park, and a bridge over Beltline Boulevard in St. Louis Park.

The project will create an accessible and commuter corridor feeding into employment centers in downtown Minneapolis, the Lake Street corridor, St. Louis Park and Hopkins. Trail users will be able to ride five miles without having to stop at a road crossing, improving safety and transportation system efficiency. The project will reduce one-way trip delay by 4.5 minutes for trail users. Time savings for motorists at the trail crossings has not been calculated, but with 584,200 annual trail users crossing the roads, the time savings would be appreciable.

The crossings will avoid multiple-threat uncontrolled intersections along the regional trail carrying 584,200 people per year. Blake Road is a four-lane divided county highway carrying 11,800 ADT; Wooddale is a three-lane road carrying 10,500 ADT; and Beltline is a four-lane divided road carrying 14,100 ADT. The current uncontrolled at-grade crossing of Wooddale also is adjacent to an interchange with TH 7, resulting in a complicated traffic situation in which trail users are less visible, less safe and less comfortable.

The crossings also will benefit the METRO Green Line extension (Southwest LRT) as the crossings will connect existing and redeveloping transit-oriented neighborhoods to transit stations at Blake, Wooddale and Beltline. The METRO Green Line extension will run adjacent to the regional trail, further complicating the already difficult at-grade crossings. The project proposed in this application will eliminate those at-grade crossings and provide access to the LRT stations.

The tunnels at Blake and Wooddale will be concrete with a width of 14 feet and lengths of approximately 100 feet (Blake Road) and 90 feet (Wooddale Avenue). The Beltline bridge will be an extension of a bridge programmed as part of the METRO Green Line extension to span over Beltline Boulevard. The project will include necessary grading and trail replacement and connections. Connections will include access to adjacent METRO Green Line LRT stations at all three sites and will be coordinated with concurrent LRT construction.

Scope changes:

Incorporation into base SWLRT project

With the award of the Regional Solicitation grant, the idea to incorporate the trail projects into the SWLRT base project arose. There are a number of benefits to adding the Southwest LRT Regional Trail Crossings to the base SWLRT project. One benefit is that it allows the trail projects to be incorporated into the SWLRT plans, eliminating the need for separate design packages. It also removes the need to

carry bid alternates through the bidding and construction process, providing the County with some certainty that contingency and construction costs would not increase dramatically over those estimated.

Incorporating the trail projects into the SWLRT base project also provides an opportunity to leverage Federal Transit Administration (FTA) New Starts funds. Southwest Project Office staff have confirmed that the FTA would allow the use of Regional Solicitation funds as a portion of the local match for New Starts funds. Leveraging FTA New Starts funds could free up to \$2.1 million in Regional Solicitation funds previously dedicated to these projects which could then be used to fund other projects throughout the region.

This change has no impact on the design or project timeline, but could potentially have a positive impact on bids received with the removal of some price uncertainty inherent to bid alternates.

Addition of stairs

Another proposed scope modification includes the addition of stairs at all three crossings. At the time of the submission of the Regional Solicitation application, the trail crossing projects were at 30% design. As the design has progressed, further traffic and circulation analyses have identified the need for stairs to be added at each of the grade-separated trail crossings to increase the safety and functionality of the trail crossings for pedestrians and cyclists. The expected movements that are influencing the decision to add stairs are pedestrians and cyclists attempting to access the station by using the shortest route possible. Without stairs, the shortest possible route involves taking the ramps that go down or up to the grade-separated crossings and still crossing the roadway at-grade. This movement would negate the safety and circulation benefits of the grade-separated crossings.

With the addition of stairs that connect down to the underpasses at Blake Road and Wooddale Avenue and up to the bridge over Beltline Boulevard, pedestrians and cyclists would have a shorter, more direct route to the SWLRT stations while still utilizing the grade-separated crossing. This increases the safety and functionality of the crossings, and reduces the risk that a pedestrian or cyclist would attempt to cross the roadway at-grade.

This change has no impact on the design or project timeline. Cost estimates have been revised to include stairs. The cities of St. Louis Park and Hopkins will be funding the required 20% local share of these costs. Because the proposed funding package includes leveraging FTA New Starts funds, even with the additional cost of stairs, utilization of the Regional Solicitation funds could be decreased by up to \$2.1 million.

PROJECT LOCATION MAP

A map showing the location of the project within the area and the region is attached.

REVISED LAYOUTS

Layouts showing project location and design features are attached.

REVISED PROJECT COST ESTIMATES AND FUNDING PACKAGE

See attached detailed cost estimates, revised to include cost of stairs at each location.

The <u>funding scenario as approved</u> in the Regional Solicitation application is as follows (with inflation adjustments to 2018\$):

	Total Project Cost	Regional Solicitation Grant	Local Match (Hennepin County and other local partners' funds)
Estimated construction costs	\$7,621,400	\$5,830,000	\$1,791,400
Percentage of total project cost	-	76.5%	23.5%

After adding the trail crossing projects to the SWLRT base project and adding stairs at each location, the funding scenario for the trail crossing projects changes to the following:

	Total Project Cost	FTA New Starts – Federal Amount	Regional Solicitation Grant	Local Match (Hennepin County and other local partners' funds)
Estimated	\$12,370,000	\$6,185,000	\$3,711,000	\$2,474,000
construction costs				
Percentage of	-	50%	30%	20%
total project cost				
Percentage of	-	-	60%	40%
local match to FTA				
New Starts funds				

The Southwest Project Office (SPO) has confirmed that Regional Solicitation and New Starts funds can be used to match each other. There are other projects that have used CMAQ and STP funds as local match to federal CIP (New Starts) dollars. See one example here:

http://www.fta.dot.gov/documents/TX Ft Worth TEX Rail Profile-FINAL.pdf.

Per FTA's Final Interim Policy Guidance on the Capital Investment Grant Program (http://www.fta.dot.gov/documents/Final_CIG_interim_policy_guidance_August_2015.docx), FTA requires at least 50% of the non-Section 5309 (New Starts) capital funds are committed or budgeted. Hennepin County and project partners have committed 50% percent of the total project cost, including the costs anticipated to be reimbursed by the Regional Solicitation grant.

Per FTA's current New Starts reporting instructions, total federal funding for the project (New Starts plus other federal sources) may not exceed 80 percent (http://www.fta.dot.gov/documents/FY_17_NS_Reporting_Instructions_final_August_2015.doc). As such, the numbers in the table above have been revised to show a local match of at least 20% of the total project cost.

Southwest LRT Regional Trail Crossings Proposed Budget

Specific Bicycle and Pedestrian Elements

Cost Estimate		Funding Sources			
Construction project elements/cost estimates ¹	Cost	FTA New Starts - Federal Funds	STP Grant - Federal Funds	Local match (Hennepin County and other local partners' funds)	
Path/trail construction	\$5,840,000	\$2,687,700	\$2,217,000	\$935,700	
Sidewalk construction		\$0	\$0	\$0	
On-street bicycle facility construction		\$0	\$0	\$0	
Right-of-way		\$0	\$0	\$0	
Pedestrian curb ramps (ADA)		\$0	\$0	\$0	
Crossing Aids (e.g., APS, HAWK)		\$0	\$0	\$0	
Pedestrian-scale lighting	\$50,000	\$23,000	\$19,000	\$8,000	
Streetscaping		\$0	\$0	\$0	
Wayfinding	\$10,000	\$4,600	\$4,000	\$1,600	
Bicycle and pedestrian contingencies (allocated and unallocated per FTA New Starts cost estimating protocol)	\$3,352,000	\$1,542,700	\$1,272,000	\$537,100	
Other bicycle and pedestrian elements ²	\$525,000	\$241,600	\$199,000	\$84,100	
Professional services costs (design, construction	•	,	·	·	
administration, surveying, staking, etc.)	\$2,593,000	\$1,685,500	-	\$907,600	
Total	\$12,370,000	\$6,185,000	\$3,711,000 \$12,370,000	\$2,474,000	

Notes:

- 1. All costs are in year of expenditure (YOE) dollars. FTA New Starts requires use of the Standard Cost Categories (SCC) workbook for cost estimates which prorates costs over the years during which construction is planned to occur.
- 2. YOE costs for stairs at each trail crossing location.

Proposed Budget - Eligible and Ineligible for STP Grant						
Eligible for STP (non-professional services)		\$6,425,000				
Contingency (eligible for STP)	Allocated	\$2,248,000				
	Unallocated	\$850,000				
Ineligible for STP (professional services)	\$2,593,000					
Contingency (ineligible for STP)	Unallocated	\$254,000				
Total	•	\$12,370,000				

THREE RIVERS PARK DISTRICT

RESOLUTION NO. 14-24

A RESOLUTION IN SUPPORT OF PARTIAL FUNDING OF THE DESIGN AND CONSTRUCTION OF GRADE-SEPARATED CROSSINGS OF THE CEDAR LAKE LRT REGIONAL TRAIL AT BELTLINE BOULEVARD, WOODDALE AVENUE AND BLAKE ROAD.

- **WHEREAS**, Three Rivers Park District is a political subdivision of the State of Minnesota and authorized by statute to acquire, establish, operate, and maintain regional trail systems, and
- **WHEREAS**, Three Rivers Park District constructed and operates the Cedar Lake LRT Regional Trail within the Cities of Hopkins and St. Louis Park; and
- **WHEREAS**, The Cedar Lake LRT Regional Trail is wholly within a transportation corridor owned by Hennepin County's Regional Railroad Authority; and
- **WHEREAS**, The Southwest Light Rail Transit (SWLRT) project will be located in the existing regional trail corridor, resulting in removal and reinstallation of the regional trail within the Cities of Hopkins and St. Louis Park; and
- **WHEREAS**, The SWLRT will create significant trail crossing safety issues of the existing at-grade trail crossings of Blake Road, Wooddale Avenue and Beltline Boulevard; and
- **WHEREAS**, The SWLRT Project Office (SPO) recognized the safety concerns and identified alternative grade-separated trail crossing safety solutions for each road crossing; and
- **WHEREAS,** The SPO and Metropolitan Council classify the grade-separated trail crossings as a "Locally Requested Capital Improvement" project (LRCI) that requires funding from outside the base budget of the SWLRT project; and
- **WHEREAS,** Hennepin County formally submitted the three grade-separated trail crossings to the SPO as a Trail Crossing LRCI package in order for the associated design and construction to occur as part of the SWLRT project; and
- **WHEREAS**, The SPO has estimated final design costs for the Trail Crossings LRCI to be no greater than \$648,000 and construction costs to be no greater than \$7,187,057; and
- **WHEREAS**, A funding commitment for the design of the Trail Crossing LRCI is required from Hennepin County by the end of December 2014 for the trail crossings LRCI to proceed in conjunction with the SWLRT project; and
- **WHEREAS,** Hennepin County has applied for a federal transportation grant to cover eighty percent, up to \$5,500,000, of the Trail Crossings LRIC construction costs requiring a local twenty percent match up to \$1,687,057; and
- **WHEREAS,** Three Rivers and Hennepin County have discussed the idea that each agency would share equally the funding responsibilities for design and for construction of the three trail crossings; and

WHEREAS, Hennepin County and Three Rivers recognize that additional local match funding sources for construction may help reduce each agencies' share of funding in equal amounts; and

NOW, THEREFORE, BE IT RESOLVED, that Three Rivers Park District shall provide funding of up to one-half of the total design costs for the grade-separated trail connections at Blake, Wooddale and Beltline, not to exceed \$324,000, to be reimbursed to Hennepin County as costs are incurred; and

FURTHER BE IT RESOLVED, that Three Rivers Park District shall provide funding of up to one-half of the local match for construction of the grade-separated crossings at Blake, Wooddale and Beltline, not to exceed \$843,529, to be reimbursed to Hennepin County as costs are incurred.

The Park District Board of Commissioners adopted this resolution on the 18^{th} day of December, 2014, by a vote of \triangle Ayes and \bot Nays.

CITY OF HOPKINS HENNEPIN COUNTY, MINNESOTA

RESOLUTION 2015-057

RESOLUTION COMMITTING FUNDING SUPPORT FOR A STAIRWAY PORTION OF THE BLAKE ROAD REGIONAL TRAIL UNDERPASS – A SWLRT PROJECT LOCALLY REQUESTED CAPITAL INVESTMENT

WHEREAS, Hennepin County has applied for and received a federal STP grant for the construction of grade-separated regional trail crossings as locally requested capital investments within the SWLRT project (the "Project"); and

WHEREAS, the County is relying on the Park District and Cities to meet the local match requirements of the STP grant; and

WHEREAS, final decisions regarding the Project scope will not be made until environmental processes are completed.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF HOPKINS, MINNESOTA AS FOLLOWS:

- 1. The City of Hopkins (the "City") commits to funding a portion of the cost to construct a stairway on the west side of the Blake Road trail underpass, as part of the Project, at an amount not to exceed \$30,000; and
- 2. The City's commitment of funds is subject to each of the following conditions:
- a) Each of the governmental entities providing matching funds for the Project, including the City, has approved the then-applicable physical design components of the latest preliminary design plans for its jurisdiction, to the extent required by Minnesota Statutes section 473.3994;
- b) The ongoing environmental review proceeds without concluding, until completion of that review, that any specific scope elements will be included in the Project;
- c) The completion of any necessary state and federal environmental review and findings and publication of the Record of Decision in the Federal Register;
- d) The Blake Road Regional Trail Underpass is identified, following completion of environmental review, as part of the Project;
- e) The Metropolitan Council demonstrates commitments, subject to the review and approval of the City, for the capital costs of the Project of at least \$165 million, cumulatively, from the State of Minnesota and/or the Metropolitan Council;
- f) The Metropolitan Council demonstrates commitment, subject to the review and approval of the City, of federal funds recognizing the value to the Project of the

- local funding by the County and any other local entities participating in costsharing for the Blake Road Regional Trail Underpass;
- g) The Federal Transit Administration has approved and executed a full funding grant agreement for not less than 50 percent of the capital costs of the Project;
- h) The funds may be used only for federally-eligible, New Starts activities;
- The final terms and conditions of the county funding for the Blake Road Regional Trail Underpass will be addressed in subsequent Council resolutions and in one or more cooperative funding agreements or similar agreements, which terms are subject to the review and approval of the City.

Adopted by the City Council of the City of Hopkins, Minnesota, this 18th day of August, 2015.

Eugene J. Maxwell, Mayor

October 16, 2015

James Hovland Chair, Transportation Advisory Board 390 North Robert Street St. Paul, MN 55101

Dear Mr. Hovland,

As indicated in your July 22, 2015 grant award letter, Hennepin County was awarded 2018 Surface Transportation Program (STP) funding for the Cedar Lake LRT Regional Trail Crossings project (Project # 027-090-024). The project includes extension of a Cedar Lake LRT Regional trail bridge over Beltline Boulevard, and tunnels for the trail beneath Wooddale Avenue and Blake Road adjacent to the Southwest light rail transit (Southwest LRT) project.

The County, along with project partners Three Rivers Park District and the cities of St. Louis Park and Hopkins, have coordinated with Metropolitan Council's Southwest Project Office to incorporate the trail crossings into the base Southwest LRT project. Advantages of combining with the larger project include leveraging Federal Transit Administration New Starts funds, and eliminating the need to carry forward separate designs as bid alternates.

As Metropolitan Council is the project sponsor for the Southwest LRT project, Metropolitan Council will serve as sponsor for the trail crossings as well once incorporated base LRT project. Hennepin County requests to transfer the FHWA STP funds from the regional solicitation grant from the County to the Metropolitan Council as the agency that will ultimately administer the funds. The County has been working with TAB staff to facilitate the scope change to the grant and TIP amendment processes.

If you have any questions regarding the trail crossings project or the current request, you may contact me at john.doan@hennepin.us or 612-543-1468.

Sincerely,

John Doan
