

Transportation Advisory Board
of the Metropolitan Council of the Twin Cities

ACTION TRANSMITTAL 2018-02

DATE: January 9, 2018
TO: Transportation Advisory Board
FROM: Technical Advisory Committee
PREPARED BY: Rachel Wiken, Planner, 651-602-1572
SUBJECT: Roadway Functional Classification Map for the Seven-County Twin Cities Region
REQUESTED ACTION: Recommend adoption of the Roadway Functional Classification Map for the Seven-County Region
RECOMMENDED MOTION: That the Transportation Advisory Board adopt the Roadway Functional Classification Map for the Seven-County Twin Cities Region for use in the Regional Solicitation.

BACKGROUND AND PURPOSE OF ACTION: The regional solicitation process is conducted biennially to allocate federal transportation funds. Federal rules allow recipients of these funds to focus or target them to meet defined regional needs. Roadway improvement projects must be on roadways functionally classified as A- Minor Arterials or Non-Freeway Principal Arterials to be eligible for federal funds in the regional solicitation.

The Technical Advisory Committee has approved a number of roadway functional classification changes since the 2016 regional solicitation, and these changes have been recorded in the official map. The TAB will adopt the roadway functional classification map to provide an official map for applicants and project reviewers to use as a resource in determining project eligibility in the next regional solicitation.

The map will be made available on the Metropolitan Council's website and will be referenced in the next regional solicitation package, which is scheduled to be released in Spring 2018.

RELATIONSHIP TO REGIONAL POLICY: The Transportation Advisory Board maintains a roadway functional classification system for all regional roads. TAB has delegated the responsibility of approving changes to the system to the Technical Advisory Committee, with the exception of Principal Arterials. The TAB adopts a functional classification map with the approved changes.

STAFF ANALYSIS: If closer review is desired, contact Rachel Wiken for GIS data or detailed map of smaller area.

COMMITTEE ACTION: TAC Planning had no questions and moved to recommend approval of the map for use in the Regional Solicitation. The Technical Advisory Committee moved to recommend approval of the map.

ROUTING

TO	ACTION REQUESTED	DATE COMPLETED
TAC Planning Committee	Review & Recommend	12-14-17
Technical Advisory Committee	Review & Recommend	1-3-2018
Transportation Advisory Board	Review and Adopt	

Functional Classification Changes Made to the Regional TAB-Adopted Map since 2016
