

**ACTION TRANSMITTAL No. 2020-39**

**DATE:** December 16, 2020  
**TO:** Transportation Advisory Board  
**FROM:** Technical Advisory Committee  
**PREPARED BY:** Steve Peterson, Mgr. of Highway Planning and TAB/TAC Process (651-602-1819)  
 Joe Barbeau, Senior Planner (651-602-1705)  
**SUBJECT:** 2020 Regional Solicitation Funding Scenario Decision  
**REQUESTED ACTION:** Select projects to receive federal funding through the Regional Solicitation.  
**RECOMMENDED MOTION:** That the Transportation Advisory Board select the projects listed in Scenario 1B to be included in the 2022-2025 Transportation Improvement Program (TIP)

**BACKGROUND AND PURPOSE OF ACTION:** At its November meeting, TAB voted to support Scenario 1B out of the four remaining funding options (specific projects and amounts shown in the attached funding scenario tables and map). The primary rationale for this vote included 1) members believe that a project should be funded in every county and 2) Scenario 1B funded the most bicycle and pedestrian projects of the remaining four options. Table1 shows the details of Funding Scenario 1B that was selected by TAB and which includes approximately 10% overprogramming.

However, because the Regional Solicitation selection was not listed as an action item on the November TAB agenda, there is a need to bring this selection through the entire process as an action item to give notice to members, the public, and interested stakeholders regarding this decision.

TAB also voted to delay a decision on reallocating \$4.4M-\$4.5M from a past-funded Metro Transit Regional Solicitation project at I-94 and Manning Trail until after the Regional Solicitation is approved. These funds were returned to the region by Metro Transit on November 11, 2020. This delay would allow staff and the technical committees time to apply TAB policy and develop options.

**Table 1: Details of Funding Scenario 1B**

Scenario	Projects	Reg Sol Award	Match	Total Transp. Investment	Unique Applicants	Funded Equity Projects*
Historical Process: Option 1B	56	\$222M	\$243M	\$465M	28	9 of 10

\*\*“Funded Equity Projects” refers to any project that scored well enough to receive the equity “bonus points,” awarded to any application that was awarded at least 80% of the equity points. Overall, 10 projects were awarded equity bonus points.

Other notes:

1. Members requested a summary of the “rules” of the Regional Solicitation. This is shown in Figure 1.
2. A set-aside of \$4.9 million for Unique Project(s) is included to be distributed by the 2022 Regional Solicitation. Criteria for unique project selection will be established in 2021.
3. The TAB approved \$25 million to fund an Arterial Bus Rapid Transit project (to be voted on in April 2021). TAB also agreed to a) only allowing a total of \$32 million to be awarded to BRT projects, which allows up to \$7M for other BRT projects.
4. Given the \$32 million BRT maximum, only one of the two projects ranked at the top of their respective categories (Transit Expansion and Transit Modernization) can be funded. Each of these projects is related to the Gold Line BRT project. In Transit Modernization it is a project for downtown Saint Paul stations that serves Gold Line BRT and several different transit routes and in Transit Expansion the submittal is for a new Gold Line parking facility near I-494 in Woodbury. To provide input to TAB’s decision, the two applicants, Metro Transit and Washington County, consulted with the other project partners. Based on these conversations, the Gold Line project partners indicated preference for the Transit Modernization project if only one can be funded.
5. There is a New Market guarantee to ensure that at least one Transit Expansion or Modernization project is funded that serves areas outside of Transit Market Area 1 and 2 from the Transportation Policy Plan for at least one end of the project. (See Figure 2 for transit market areas)

**COMMITTEE COMMENTS AND ACTION:** At its November 19, 2020, meeting, the Funding & Programming Committee voted unanimously to recommend selection of Scenario 1B (“Each County Gets a Project, Partial Funding”). The Committee discussed several considerations for future Regional Solicitations. These include:

- There is no written rule that a project must be funded within each county. Given TAB’s stance that each county should receive a project each cycle, perhaps it should become an official rule so considerations can be made to reduce unintended consequences. For example:
  - In order to fund a Scott County project, a Carver County project needed to be funded, providing another large award to a county that was already slated to receive a high amount of funding. The later scored one point higher than the former. It was suggested at TAB that “skipping” a project with a small scoring advantage could be allowed as a way to achieve regional balance without compromising other objectives. While the scoring process is valuable, very small scoring differences are fairly arbitrary.
  - Now that the Regional Solicitation and HSIP solicitation run on the same schedule, a determination should be made as to whether funding through the HSIP program should be considered as part of any geographic balance discussions for the 2022 funding cycle.
- The increase from a \$7M to a \$10M maximum federal award in the Strategic Capacity category led to some inflexibility. The advantages and disadvantages of this change should be considered moving forward.
- Should partial funding continue to play a role and, if so, should it only be assigned to the lowest-scoring funded project in a category instead of to two projects as is done in Scenario 1B?
- What “geographic balance” truly means should be explored and defined. Comparing county population versus federal funds is simple but misses key elements such as commute patterns (which are easier to analyze now that the Council uses Streetlight data).

At its December 2, 2020, meeting, the Technical Advisory Committee voted unanimously to recommend selection of Scenario 1B (“Each County Gets a Project, Partial Funding”).

Members discussed the possibility of prioritizing any additional funds made available to the two projects that will be accepting partial funding. MnDOT reiterated its position that it can only contribute \$20 million in match to the program of projects; the project proposer will likely be responsible for a higher amount of the project funding which could be a burden. Fully funding a project would reduce that burden of the project proposer having to find funds that they had not committed to in their project application.

Members noted that partially funding requests has been used the last two Regional Solicitation funding cycles. If this might continue, then TAB’s policies and the Regional Solicitation application should discuss partial funding. For instance, fully funding a project with new federal funding that was originally partially funded is not shown in TAB’s Federal Funds Reallocation Policy.

### Figure 1: The Rules of Regional Solicitation Project Selection

The following rules are highlighted in the 2020 Regional Solicitation application materials.

<b>Rule</b>	<b>Followed in 2020 Scenarios?</b>	<b>Comments</b>
1. Funding scenarios fall within the modal funding ranges approved by TAB	✓	Both remaining funding scenarios meet this requirement (including all overprogramming options)
2. A unique project set-aside of 2.5% (\$4.9M) is funded	✓	Funding is set-aside in all funding scenarios
3. TAB may or may not choose to fund at least one project from each application category. Traditionally, at least one project from each application category is funded	✓	All funding scenarios fund at least the top 2 highest scoring projects
4. Unwritten rule: Traditionally, projects are not “skipped” over to fund lower-scoring projects (unless another rule forces it)	✓	All funding scenarios follow this unwritten rule
5. There is a funding target of \$10M for the Bridge application category	✓	All funding scenarios meet this requirement and fund \$13.9M of total funding for 2 bridge projects
6. At least one project is funded for each of the five eligible roadway functional classifications	✓	All funding scenarios meet this requirement
7. Roadway projects must be spaced 3.5 miles apart on a corridor	✓	All funding scenarios meet this requirement
8. Projects cannot be awarded HSIP and Reg. Solicitation funds	✓	There is one duplicate project that will accept the \$3.5M from the Reg. Solicitation instead of \$2M for HSIP
9. Fund at least one transit “new market” service (outside of service areas 1 and 2)	✓	All remaining funding scenarios fund either 5 or 6 transit “new market” projects
10. A maximum of \$25M for Arterial Bus Rapid Transit (ABRT)	✓	TAB approved showing all funding scenarios with \$25M for a future ABRT to be selected April 2021
11. A maximum of \$7M to other types of Bus Rapid Transit (BRT)	✓	All funding scenarios meet this requirement by skipping over 3 higher scoring BRT projects
12. A maximum of one transit project per transitway per funding cycle	✓	All funding scenarios meet this requirement and skip over a 2 <sup>nd</sup> Gold Line project
13. Bike/pedestrian projects cannot be on same corridor	✓	All funding scenarios meet this requirement

Highlighted ID numbers = Equity Bonus Points

\*The 2nd highest Spot Mobility and Safety project was also submitted as an exact duplicate project in the Highway Safety Improvement Program (HSIP) solicitation, but the project sponsor prefers the Regional Solicitation funding.

\*\*The 3rd highest ranked Strategic Capacity project was awarded a federal Infrastructure for Rebuilding America (INFRA) grant after the Regional Solicitation application period closed that will partially fund a much larger project on TH 10.

DRAFT FUNDING SCENARIO

TRANSIT AND TRAVEL DEMAND MANAGEMENT PROJECTS

Funding Range - 25-35% (\$48M - \$67M)  
Midpoint - 30% (\$58M)
