Streamlined 2023-2026 TIP Amendment: Three Project Changes

To: Transportation Advisory Board
From: Technical Advisory Committee
Prepared By: Joe Barbeau, Senior Planner, 651-602-1705

Requested Action

Hennepin County and MnDOT request an amendment to the 2023-2026 TIP to change the cost and scope of three projects.

Recommended Motion

That the Transportation Advisory Board recommend adoption of an amendment to the 2023-2026 TIP change the cost and scope of three projects.

Summary

This requested action involves changing cost and/or scope elements of three projects in the TIP.

Background and Purpose

The following amendments are proposed for the 2023-2026 TIP:

1. Hennepin County requests a change to the scope of its CSAH 52 (Hennepin Ave) bikeway project that would un-do a TIP amended approved by the Council at its 11/30/2022 meeting. This action would add bus rapid transit (BRT) platforms to the project description and adjust total cost accordingly. A recent decision by FHWA has reversed the original ruling disallowing adjacent BRT work to be included in local federal projects (SP # 027-652-042). This is a Regional Solicitation project that is being restored to match its original scope. (Page 3)
2. MnDOT requests a scope and cost reduction for its MN 62 mill-and-overlay project in Mendota Heights. The proposed project would consist of shoulder repair and guardrail installation (SP # 1918-119). Funding for this project is from the National Highway Performance Program (NHPP), which is not funded through the Regional Solicitation. (Page 4)
3. MnDOT requests reflection of a cost increase to its US 212 rehabilitation project in Cologne to be amended into the 2023-2026 TIP. The \$4,802,000 cost increase will be covered by MnDOT (\$960,400) and federal NHPP funding (\$3,841,600) (SP # 1013-101). No Regional Solicitation funds are included or proposed for this project. (Page 5)

Relationship to Regional Policy

Federal law requires that all TIP amendments meet the following tests: fiscal constraint; consistency with the adopted regional transportation plan; and opportunity for public input. It is the

TAB's responsibility to recommend TIP amendments to the Council for adoption, provided these requirements are met.

The streamlined TIP amendment process allows projects that meet certain conditions to be streamlined, which entails forgoing the TAC Funding & Programming Committee review and results in saving a month of process time.

Staff Analysis

The three TIP amendment requests meet fiscal constraint because the funds are sufficient to fully fund the projects. This amendment and the three projects contained herein are consistent with the Metropolitan Council Transportation Policy Plan, adopted by the Metropolitan Council on November 18, 2020, with FHWA/FTA conformity determination established on December 4, 2020. Public input opportunity for this amendment is provided through the TAB's and the Council's regular meetings.

Committee Comments and Action

At its February 1, 2023, meeting, the Technical Advisory Committee unanimously recommended approval of this request to change the cost and scope of three projects in the 2023-2026 TIP.

PROJECT BACKGROUND:

1. Briefly describe why amendment is needed (e.g., project in previous TIP but not completed; illustrative project and funds now available; discretionary funds received; inadvertently not included in TIP).

This amendment is needed to add bus rapid transit (BRT) Platforms to the project description and adjust total cost accordingly. A recent decision by FHWA has reversed the original ruling disallowing adjacent BRT work to be included in local federal projects.

2. How is Fiscal Constraint Maintained as required by 23 CFR 450.216 (check all that apply)?

- New Money
- Anticipated Advance Construction
- ATP or MPO or MnDOT Adjustment by deferral of other projects
- Earmark or HPP not affecting fiscal constraint
- Other
