Public Comment Report and Recommend Adoption of the 2025-2028 Transportation Improvement Program

To: Transportation Advisory Board
From: Technical Advisory Committee
Prepared By: Joe Barbeau, Senior Planner, 651-602-1705

Requested Action

That the Transportation Advisory Board (TAB) recommend adoption of the 2025-2028 Transportation Improvement Program (TIP).

Recommended Motion

That the Transportation Advisory Board:

1. Accept the attached 2025-2028 TIP Public Comment Report and
2. Recommend adoption of the attached 2025-2028 Transportation Improvement Program (TIP), which includes the changes made in response to public comment.

Summary

The draft 2025-2028 Transportation Improvement Program (TIP) was released for public comment on May 15, 2024. Comments were received from 94 people and are summarized in the attached public comment report. No changes are recommended in direct reply to the comments, though some changes are highlighted in MnDOT's attached letter. The TAB is being asked to recommend that the Council adopt the final TIP and forward it to MnDOT, FHWA, and FTA for approval.

Background and Purpose

Federal regulations require that a Transportation Improvement Program (TIP) be developed at least every four years. The Metropolitan Council revises its TIP every year in conjunction with the Minnesota Department of Transportation's State Transportation Improvement Program (STIP). The final 2024-2027 TIP, which includes changes made in response to technical comments from MnDOT (in the July 29, 2024, letter below) along with changes to Tables 7 and 9-12 in response to Federal Transportation Administration comment, is attached.

Public comments were collected over a 45-day public comment period that started on May 16, 2024, and ended on July 1, 2024. The resulting Public Comment Report, including responses to comments received, is attached.

Relationship to Regional Policy

Federal law requires that all transportation projects that will be partially or fully funded with federal funds must be in an approved Transportation Improvement Program and meet the following tests: fiscal constraint, consistency with the adopted regional transportation plan, and opportunity for public input. It is the Metropolitan Council's responsibility to adopt and amend the TIP according to these requirements.

July 29, 2024

James Hovland, Chair
Transportation Advisory Board
Metropolitan Council
390 North Robert Street
Saint Paul, MN 55101

Dear Mr. Hovland:

The Minnesota Department of Transportation (MnDOT) – Metro District has worked closely with the Metropolitan Council, the Transportation Advisory Board (TAB), and its Technical Advisory Committee (TAC) to develop the 2025-2028 Transportation Improvement Program (TIP) for the Minneapolis/St. Paul metropolitan transportation planning area.

After submittal of the draft 2025-2028 TIP, some changes have occurred to the list of MnDOT and federally funded local agency projects. These changes are the result of financial balancing within the TIP years, program adjustments to accommodate project additions or deletions, as well as the opportunity to accelerate and enhance some projects. We have also worked with the Metropolitan Council and local project sponsors to make needed corrections to project information.

The attached table identifies changes due to project deferrals, deletions, or advancement as well as new projects added since the draft TIP was prepared. These proposed changes do not affect the air quality conformity analysis of the TIP.

Thank you for the opportunity to comment.

Sincerely,

Aaron Tag
Metro District Program Management Director
