Transportation Advisory Board

Meeting Date: August 20, 2025

Date: August 11, 2025

Action Transmittal: 2025-19

Public Comment Report and Recommend Adoption of the Draft 2026-2029 Transportation Improvement Program (TIP)

To: Transportation Advisory Board

From: Technical Advisory Committee

Prepared By: Joe Barbeau, Planning Analyst, 651-602-1705

Requested Action

The Metropolitan Council staff requests adoption of the draft 2026-2029 Transportation Improvement Program (TIP).

Recommended Motion

That the Transportation Advisory Board:

1. Accept the attached 2026-2029 TIP Public Comment Report and
2. Recommend that TAB recommend adoption of the draft 2026-2029 Transportation Improvement Program (TIP).

Background and purpose

The draft 2026-2029 Transportation Improvement Program (TIP) was released for public comment on May 21, 2025. Comments were received from eight people and are summarized in the attached public comment report. The TAB is being asked to recommend that the Council adopt the final TIP and forward it to MnDOT, FHWA, and FTA for approval.

Background and purpose

Federal regulations require that a Transportation Improvement Program (TIP) be developed at least every four years. The Metropolitan Council revises its TIP every year in conjunction with the Minnesota Department of Transportation's State Transportation Improvement Program (STIP). The final 2026-2029 TIP, which includes changes made in response to technical comments from MnDOT (in the August 11, 2025, letter below), is attached. Public comments were collected over a 45-day public comment period that started on May 24, 2025, and ended on July 7, 2025. The resulting Public Comment Report, including responses to comments received, is attached.

Relationship to Regional Policy

Federal law requires that all transportation projects that will be partially- or fully funded with federal funds must be in an approved Transportation Improvement Program and meet the following four tests: fiscal constraint; consistency with the adopted regional transportation plan; air quality conformity; and

opportunity for public input. It is the Metropolitan Council's responsibility to adopt and amend the TIP according to these four requirements.

Committee Comments and Action

At its May 15, 2025, meeting the TAC Funding and Programming Committee recommended that Technical Advisory Committee recommend that TAB recommend adoption of the draft 2026-2029 Transportation Improvement Program (TIP).

At its June 4, 2025, meeting the Technical Advisory Committee recommended that TAB recommend adoption of the draft 2026-2029 Transportation Improvement Program (TIP).

Metro District

Waters Edge Building
1500 West County Road B2
Roseville, MN 55113

August 11, 2025

James Hovland, Chair
Transportation Advisory Board
Metropolitan Council
390 North Robert Street
Saint Paul, MN 55101

Dear Mr. Hovland:

The Minnesota Department of Transportation (MnDOT) – Metro District has worked closely with the Metropolitan Council, the Transportation Advisory Board (TAB), and its Technical Advisory Committee (TAC) to develop the 2026-2029 Transportation Improvement Program (TIP) for the Minneapolis/St. Paul metropolitan transportation planning area.

After submittal of the draft 2026-2029 TIP, some changes have occurred to the list of MnDOT and federally funded local agency projects. These changes are the result of financial balancing within the TIP years, program adjustments to accommodate project additions or deletions, as well as the opportunity to accelerate and enhance some projects. We have also worked with the Metropolitan Council and local project sponsors to make needed corrections to project information.

The attached table identifies changes due to project deferrals, deletions, or advancement as well as new projects added since the draft TIP was prepared. These proposed changes do not affect the air quality conformity analysis of the TIP.

Thank you for the opportunity to comment.

Sincerely,

Aaron Tag
