

Overview Discussion – Challenges & Opportunities

TAC

Oct. 4, 2017

Overview Content - Generally

- Introduction and background about the plan, the Council
- Summary of transportation in the region (TBI data, trends in development)
- Summary of existing transportation system
- **Regional Transportation Challenges and Opportunities**
- Goals, Objectives and Strategies
- Investing in Transportation
- Performance Outcomes
- Engagement Summary
- Mandated information, other administrative content

Challenges and Opportunities

- Our highway system is essentially complete, but it is aging and requires reconstruction
 - Most revenue will go to maintaining what we have; we can engage community better
- Travel patterns are changing
 - Generational, land-use based
- We need many solutions, working together, to address the region's congestion
- Technology will continue to influence travel in the region
 - Automated vehicles, other technology
- Transportation affects equity and environmental justice, the environment, and the economy

Key Questions

- Is there anything missing?
- Are there particular themes that should be reflected in this section?
