

**ACTION TRANSMITTAL – 2021-46**

**DATE:** November 3, 2021  
**TO:** Technical Advisory Committee  
**PREPARED BY:** Steven Elmer, Planning Analyst (651) 602-1756  
**SUBJECT:** Updated Regional Truck Corridors for Regional Solicitation  
**REQUESTED ACTION:** Accept the updated Regional Truck Corridors map and recommend its use for the 2022 Regional Solicitation.  
**RECOMMENDED MOTION:** That the Technical Advisory Committee recommend to the Transportation Advisory Board to accept the updated Regional Truck Corridors for the 2022 Regional Solicitation.

**BACKGROUND AND PURPOSE OF ACTION:** Regional Truck Corridors were developed through the Regional Truck Highway Corridor Study (2017) and established in the region's Transportation Policy Plan through its 2018 update. These corridors represent the set of major highways most heavily relied upon by the trucking industry for delivering the region's freight and goods. They are grouped into prioritized tiers 1, 2, and 3, and are applied as criteria in the Regional Solicitation project selection process for distributing federal transportation funds. Prior to the open process for proposing new corridors, the corridors prioritization tool developed in the original study was updated with more current truck and general traffic volume data. Preliminary results of the updated prioritization analysis (as well as subsequent analysis iterations) were reviewed with agency members of the original study's technical work group to help ensure consistency with the original study assumptions and methodology.

The update to the prioritization analysis and the process for agencies to propose new corridors was presented at TAC Planning in April. Local agencies were notified in late May of the opportunity to propose new truck corridors and/or to propose new major freight facilities to be included in the regional truck corridors prioritization analysis. Proposal applications were due on July 2nd. Staff reviewed the applications to determine if minimum thresholds for average daily truck trips were met based on available data.

The purpose of this action is to accept the regional truck corridors map as updated to include the agency-proposed new corridors that met specified minimum thresholds for inclusion in the 2022 Regional Solicitation.

**RELATIONSHIP TO REGIONAL POLICY:** Regional truck corridors were established in the Transportation Policy Plan, 2018 Update. Regional truck corridors are used as selection criteria in the Regional Solicitation. Updates considered in this action will be incorporated into the TPP by early 2022.

**STAFF ANALYSIS:** Met Council received 14 proposals to add new regional truck corridors and 2 proposals to add major freight facilities. The proposals were assessed to determine if minimum thresholds for daily truck trips were met. Of the 14 proposed new corridors, 11 were determined to meet minimum thresholds and are recommended for acceptance; 2 corridors had partial segments meeting minimum thresholds which are also recommended for acceptance. Of the 2 proposed new major freight facilities, one met the minimum threshold for

daily truck trips and is recommended for acceptance. All of the recommended additions have been incorporated into the corridors prioritization analysis, as shown in the attached Regional Truck Corridor Scores Summary and as referenced in the online map of [2021 Updated Regional Truck Corridors](#).

**COMMITTEE COMMENTS AND ACTION:** At its October 14, 2021, meeting, the TAC Planning committee unanimously recommended that the Transportation Advisory Board accept the updated Regional Truck Corridors for the 2022 Regional Solicitation.

---

**ROUTING**

<b>TO</b>	<b>ACTION REQUESTED</b>	<b>DATE COMPLETED</b>
TAC Planning	Review & recommend	October 14, 2021
Technical Advisory Committee	Review & recommend	November 3, 2021
Transportation Advisory Board	Review & adopt for Regional Solicitation	November 17, 2021
Transportation Committee	Review & recommend	November 22, 2021
Metropolitan Council	Concurrence	December 8, 2021
