TRANSPORTATION ADVISORY BOARD

Metropolitan Council, 390 Robert Street North, Saint Paul, Minnesota 55101

NOTICE OF A MEETING of the FUNDING AND PROGRAMMING COMMITTEE

Thursday, October 20, 2016 1:30 P.M. – Metropolitan Council, Room LLA 390 Robert Street N, Saint Paul, MN

AGENDA

- 1) Call to Order
- 2) Adoption of Agenda
- 3) Approval of the Minutes from the August 18, 2016 meeting*
- 4) TAB Report Information Item
- 5) Three Rivers Park District Scope Change Request Action Item 2016-52*
- 6) TIP Amendment; Three Rivers Park District Scope Change Request Action Item 2016-53*
- 7) 2016 Regional Solicitation Release of Scores Information Item*
- 8) Other Business
- 9) Adjournment
- *Attachments

Please notify the Council at 651-602-1000 or 651-291-0904 (TTY) if you require special accommodations to attend this meeting. Upon request, the Council will provide reasonable accommodations to persons with disabilities.

TRANSPORTATION ADVISORY BOARD Metropolitan Council 390 N. Robert St., St. Paul, Minnesota 55101-1805

Minutes of a Meeting of the FUNDING AND PROGRAMMING COMMITTEE August 18, 2016

MEMBERS PRESENT: Tim Mayasich (chair, Ramsey County), Colleen Brown (MnDOT Metro State Aid), Anna Flintoft (Metro Transit), Jenifer Hager (Minneapolis), Jarrett Hubbard (Scott County), Jane Kansier (MVTA), Elaine Koutsoukos (TAB), Jan Lucke (Washington County), Molly McCartney (MnDOT Metro District), Gina Mitteco (MnDOT Bike & Ped), Paul Oehme (Chanhassen), Ryan Peterson (Burnsville), Steve Peterson (Metropolitan Council), Lyndon Robjent (Carver County), John Sass (Dakota County), Amanda Smith (MPCA), Carla Stueve (Hennepin County), Michael Thompson (Maplewood), Anne Weber (St. Paul), and Joe Barbeau (staff)

OTHERS PRESENT: Lance Bernard (SRF), Forrest Hardy (Minneapolis), and Pat Jones (Metro Transit)

1. Call to Order

The meeting was called to order just after 1:30 p.m.

Jane Kansier said that she is leaving MVTA and will be replaced on the committee by Jen Lehmann.

2. Adoption of Agenda

MOTION: Oehme moved to adopt the agenda. Seconded by Thompson. The motion was approved unanimously.

3. Approval of the Minutes from the July 21, 2016 Meeting

MOTION: Kansier moved to approve the minutes. Seconded by Ryan Peterson. The motion was approved unanimously.

4. TAB Report – Information Item

Koutsoukos reported on the August 17, 2016, TAB meeting. TAB addressed the following action items:

- Approved he 2017 Unified Planning Work Program.
- Approved a scope change, and accompanying Transportation Improvement Plan (TIP) amendment, for the Dakota County US 52 / County Highway 42 interchange reconstruction.

5. City of Minneapolis Safe Routes to School Scope Change Request – Action Item 2016-47

Barbeau said that The City of Minneapolis was awarded \$603,200 in the Safe Routes to School category in the 2013 Transportation Alternatives Program (TAP) Regional Solicitation to add curb extensions and pedestrian ramps, an on-street bicycle lane, and an overhead stop sign near the Andersen School. The City requests movement of the curb extension from the intersection of East 26th Street and 10th Avenue South to the intersection of East 28th Street and 11th Avenue South, changing the 11th and 12th Street portions of the bicycle facility from a protected bikeway to a bicycle boulevard, and changing the overhead stop installation at the hospital entrance to installation of durable crosswalks. The request was provided to the Scoring Committee members, who did not reduce the score. The project would cause students to bike with traffic on 11th and 12th Avenues South.

The City reports an estimated cost reduction of \$16,500. Adjusting for inflation and federal proportion, staff suggests that the appropriate reduction would be \$18,260.

Forrest Hardy, from the City of Minneapolis, provided clarification on the project.

Robjent asked what is included in the budget line titled "Other construction items," to which Hardy replied the 28th Street bike lane and the curb extensions make up that line.

Ryan Peterson asked how the change was received by neighborhood residents and what a bicycle boulevard is. Hardy replied that the neighbors are concerned with on-street parking, which cannot be accommodated with the original project. He added that a bicycle boulevard is a bike lane, highlighted by pavement markings, on a low-volume roadway.

Steve Peterson asked whether there has been feedback from the school or the parents. Hardy replied that the school's principal is supportive of the change.

Mayasich asked what the originally applied-for "protected bike lane" looked like. Hardy replied that there was no illustration. It would have included stripes and bollards creating a nine-foot wide two-way bikeway and a two-foot buffer.

Sass asked about the width of 11th Avenue. Hardy replied that the street is 29 feet wide and includes two travel lanes and two parking lanes.

MOTION: Robjent moved to recommend approval of the request with no federal funding reduction. Seconded by Mitteco. The motion was approved unanimously.

6. TIP Amendment; Minneapolis Scope Change Request – Action Item 2016-48

Barbeau said that because there will be no description change, the scope change recommended for approval in the previous item would only require a TIP amendment if the cost changes, which was not recommended.

MOTION: Thompson moved to table the item. Seconded by Hager. The motion was approved unanimously.

7. 2016 Regional Solicitation Qualifying Review – Action Item 2016-46

Barbeau said that staff reviewed all 149 applications to make sure that they qualified for the regional solicitation. Seven applications were determined to be potential non-qualifiers. The Funding & Programming Committee is the final arbiter of whether or not applications qualify. The committee explored potential non-qualifying applications one-by-one.

A. Hennepin County: Advanced Transportation Management System (Roadway System Management)

The proposal highlighted four corridors, though these corridors are a part of a fiber optic cable system that will tie into a central traffic management center. Staff provided the options to disqualify the project or to allow it to complete suggesting that the geographic-based scoring measures be averaged.

Stueve added that the County selected four corridors based on traffic volumes. While the four roads are not near each other they are not truly independent of each other.

Mayasich asked for a corridor-by-corridor cost breakdown. Stueve replied that CSAH 9 would be about \$520,000, CSAH 5 \$260,000, CSAH 3 \$700,000, and CSAH 1 \$720,000. This is based on proportion of mileage.

Robjent asked what infrastructure aside from fiber optic cable is needed. Stueve said that software is going to be purchased. She added that in regards to scores, they used the scores from CSAH 1, which has the biggest benefit.

Thompson asked whether a software vendor has been picked and how competitive the selection must be. Stueve said a vendor has been picked. Robjent said that it was probably a vendor provide by the State. MOTION: Thompson moved to qualify the project with the staff recommendation for scoring. Seconded by Lucke. The motion was approved unanimously.

B. Anoka County: CSAH 22 Bridge Replacement (Bridge)

Because the bridge sufficiency rating of 62.2 is higher than the maximum 50 for a bridge replacement, staff flagged this project. The County has withdrawn the project, so no vote is needed.

C. <u>Washington County: CSAH 5 Bridge (Bridge)</u>

The request for \$940,240 in federal funds is below the \$1 million minimum request in the bridge category. The Committee can disqualify the project or allow it to compete with the lower federal request. Staff does not recommend bringing it to minimum, as that would not be good stewardship of public funds. Staff's recommendation is to disqualify the project since it is not technically within TAB's range, though that was a difficult decision.

McCartney asked whether the project would meet the minimum with inflation. Barbeau said it may but staff did not include such information because what TAB will do about inflation is unknown.

Brown asked when the minimum will be set, to which Koutsoukos replied she is uncertain.

Peterson said that the minimum is lower than \$1 million for most funding categories.

Flintoft asked whether this issue has come up in the past. Koutsoukos said that it has not. She added that disqualification of this proposal could incentivize padding budgets.

Lucke said that the County put together a cost-effective and efficient proposal and hopes to be rewarded for not padding its budget. She added that this amount of federal funding will not be a disproportionate staff burden.

MOTION: Robjent moved to qualify the project at its proposed funding level. Seconded by Oehme. The motion was approved unanimously.

D. Metro Transit: Heywood Bus Garage (Transit Modernization)

The application requested \$67.2 million from the Solicitation. The maximum federal request is \$7 million.

Pat Jones from Metro Transit said that the intent was to apply for \$7 million of federal funding. Mayasich asked who is responsible for the remaining funds. Jones replied that Metro Transit has several applications out and that it intends to fully-fund the project. Koutsoukos said that this is similar to what other applicants do.

Brown said that nobody wants a \$7 million hole created by a project needing to withdraw, to which Flintoft replied that the intent of the General Manager's response letter is to state that Metro Transit will deliver the project.

MOTION: Flintoft moved to qualify the project. Seconded by Thompson.

Robjent said that he wants to be sure that Metro Transit will provide the match. Thompson said that he seconded the motion because he believes that this is the intent.

The motion was approved with one vote against.

E. Metro Transit: Blue Line LRT Enhancement (Transit Modernization)

The application requested \$33,837,120 from the Solicitation. The maximum federal request is \$7 million.

Flintoft said that Metro Transit intends to pay for the entire match.

Mayasich asked whether different staff members submitted these two projects, which both over-requested the federal amount. Jones replied that the intent was to request \$7 million from each.

MOTION: Flintoft moved to qualify the project. Seconded by Mitteco.

Mayasich said that, should the project be awarded, Metro Transit will be responsible for all funds aside from the \$7 million award.

The motion was approved with one vote against.

F. Metro Transit: LRT Station Upgrades (Pedestrian Facilities)

The project should have been submitted in the Transit Modernization category. The Introduction section of the Regional Solicitation states that if an applicant submits a projects in the incorrect category, the application may be disqualified. Options are to disqualify the project, allow it to move to Transit Modernization and for the applicant to provide information for missing replies, and to allow it to remain in the Pedestrian Facilities category. Staff does not recommend the latter.

Flintoft said that this application was submitted in the Pedestrian Facilities category because it's an Americans with Disabilities Act (ADA) improvement and ADA is shown as a sample for Pedestrian Facilities applications. Koutsoukos replied that ADA improvements are eligible in any category.

Mayasich said that allowing the application to move to another category and provide more information could open a can of worms for the future. He added that the applicant is responsible for what it submits. Jones replied that Metro Transit is not asking to move the project to a different category; it believes it fits in the Pedestrian Facilities category.

Koutsoukos said that staff feels it is a transit project. Sass said that transit has historically been funded separately from other modes.

Ryan Peterson asked whether the project would have an easier time being funded in the Pedestrian Facilities category. Koutsoukos replied that it would not.

Mitteco asked whether the applicant was able to reply to all of the application questions. Koutsoukos replied in the affirmative. Mitteco suggested that it should then be up to the scoring committee to determine whether it is funded. Koutsoukos replied with disagreement and said that Roadway Expansion and Roadway Modernization have the same scoring measures but are meant to be kept separate.

Lucke said that this could set a precedent regarding flexibility with categories. She added that transit projects tend to serve pedestrians.

McCartney asked whether all proposed improvements are in the station areas, to which Koutsoukos replied in the affirmative.

MOTION: Thompson moved to disqualify the project. Seconded by Stueve. The motion was approved.

G. Carver County: US 212 Safety Improvements (Safe Routes to School)

The application requested \$1,225,360 in federal funds from the Solicitation. The maximum federal request is \$1 million.

Lance Bernard of SRF, who helped prepare the application, said that the intent was to apply for the \$1 maximum.

MOTION: Ryan Peterson moved to qualify the project. Seconded by Mitteco. The motion was approved unanimously.

8. Other Business

Steve Peterson passed out maps and list highlighting project applications for the 2016 Regional Solicitation.

9. Adjournment

Kansier moved to adjourn the meeting. Seconded by Mitteco. The motion was approved unanimously.

ACTION TRANSMITTAL No. 2016-52

DATE:	October 6, 2016
TO:	TAC Funding and Programming Committee
PREPARED BY:	Joe Barbeau, Senior Planner (651-602-1705)
SUBJECT:	Scope Change Request for Three Rivers Park District's Regional Trail System Ramps and Right-of-Way Acquisition project.
REQUESTED ACTION:	The Three Rivers Park District requests a scope change to its Regional Trail System Ramps and Right-of-Way Acquisition project (SP # 091-090-081) to eliminate the Edina segment and adjust the Brooklyn Park segment to include a portion of on-street bicycle access.
RECOMMENDED MOTION:	The Committee can recommend approval or denial of the request. If it recommends approval, the Committee can recommend full federal funding or a reduction in federal funds.

BACKGROUND AND PURPOSE OF ACTION: The Three Rivers Park District was awarded \$1,040,000 of 2017 program year funds as part of the Bicycle/Pedestrian category in the 2013 Transportation Alternatives Program (TAP) Regional Solicitation. The project proposed to add "on ramp" transportation facilities meant to provide direct connections to the regional trail system. Specifically the following six sub-projects were funded:

- 1. Bloomington Off-street trail on Old Cedar Avenue connecting to the Intercity Regional Trail.
- 2. Brooklyn Park Off-street trail along 63rd Avenue connecting to the Crystal Lake Regional Trail. Distance of 0.75 miles.
- 3. Edina Off-street trail extending from the Oaklawn Avenue cul-de-sac to the Nine Mile Creek Regional Trail.
- 4. Plymouth Off-street trail along Fernbrook Lane connecting to the Luce Line Regional Trail.
- 5. Richfield On-street bike lane along 70th Street connecting to the Intercity Regional Trail.
- 6. Wayzata On-street bike lane along Ferndale Road connecting the Dakota Rail Regional Trail and Luce Line State Trail

The applicant is requesting the following changes to two of the above sub-projects:

- 1. Brooklyn Park Changing from a 0.75-mile off-road trail to a 0.46-mile on-road bikeway and a 0.3-mile off-road trail.
- 2. Edina Elimination of the sub-project.

RELATIONSHIP TO REGIONAL POLICY: Projects that receive funding through the Regional Solicitation process are subject to the regional scope change policy. The purpose of this policy is to ensure that the project is designed and constructed according to the plans and intent described in the original application. Additionally, federal rules require that any federally-funded project scope change must go through a formal review and TIP amendment process if the project description or total project cost changes substantially. The scope change policy and process allow project sponsors to make adjustments to their projects as needed while still providing substantially the same benefits described in their original project applications.

A TIP amendment request accompanies this request and will be needed if the project cost changes.

STAFF ANALYSIS: Working with the scorers from the Regional Solicitation, Metropolitan Council staff reviewed the original project and scoring. The project originally scored 678 points, 18 points higher than the top-scoring un-funded project. Scorers reported a total drop of eight points in the scoring, leaving the total at 670, still higher than the top-scoring un-funded project.

The amount of federal funding to be removed from the project should be considered based on the proposed changes. The applicant is requesting that the project retain the entire \$1,040,000, due to \$182,500 in project cost increases that have been uncovered since the original application.

The Brooklyn Park sub-project is proposed to change by constructing part of the off-street trail as an on-street bikeway. This change leads to an overall cost reduction of \$42,168 (\$316,368 for original application minus \$274,200 new project cost). The additional cost cited in the applicant's request, \$75,000 for signal upgrades and other needs, was not in the original application and should not be considered as part of this scope change request.

The Edina sub-project, to be removed, made up 8% of the total project cost in the original application (\$83,200 of the federal allotment). Given that this portion of the project is being removed, TAB may consider removing this amount of federal funding.

Between the reduction of the Brooklyn Park sub-project (\$42,168) and the removal of the Edina subproject (\$83,200), TAB should consider a total reduction of \$125,368 to \$914,632. These funds would be reallocated as part of TAB's Federal Funds Management Process.

ROUTING

Three Rivers Park District Board of Commissioners	August 11, 2016
Penny Steele District 1	Timothy Mayasich, TAC Funding and Programming Committee, Metropolitan Council, 390 Robert Street North, St. Paul, MN 55101
Jennifer DeJournett District 2	RE: SP 091-090-081 and 091-090-086, TA 8817(049) and (060) Regional Trail System Ramps and Right of Way Acquisition Scope Change Request
	INTRODUCTION
Daniel Freeman	Three Rivers Park District was successful in the 2014 Regional solicitation for
Vice Chair	Federal Transportation Alternatives Program (TAP) Funding for constructing "On-
District 3	Ramps to the Regional Trail System" project. Although the original project description has changed since its submittal, the objectives and benefits remain
John Gunyou Chair District 4	mostly unchanged and consistent with its original intent. Please consider this formal scope change request and the ability to retain federal funding levels as described below in order to move forward with the revised scope of the project.
DISTINCE 4	ORIGINAL PROJECT DESCRIPTION AND BENEFITS
John Gibbs District 5 Steven Antolak	Three Rivers Park District proposed six local, non-motorized, "on-ramp" transportation facilities that would directly connect to the regional trail system. The projects would help overcome the documented challenges that users have in accessing the regional trail system by bike or foot. These six projects were selected from 32 projects submitted to Three Rivers Park District by local cities and include
Appointed	the following:
At Large	1. Bloomington – Off-street trail on Old Cedar Avenue connecting to the Intercity Regional Trail,
Gene Kay	 Brooklyn Park – Off-street trail along 63rd Avenue connecting to the Crystal Lake Regional Trail,
Appointed	3. Edina – Off-street trail extending from the Oaklawn Avenue cul-de-sac to the
At Large	Nine Mile Creek Regional Trail, 4. Plymouth – Off-street trail along Fernbrook Lane connecting to the Luce Line Regional Trail,
Boe Carlson	5. Richfield – On-street bike lane along 70 th Street connecting to the Intercity
Superintendent	Regional Trail, and

Administrative Center, 3000 Xenium Lane North, Plymouth, MN 55441-1299

6. Wayzata – On-street bike lane along Ferndale Road connecting the Dakota Rail Regional Trail and Luce Line State Trail.

The original project objectives and benefits as described above remain largely unchanged and will be achieved with the project. The exception is related to the Edina segment, which will be removed in its entirety. The change in scope will also maintain the original project objectives and benefits as identified in the TAP application where the scope change applies.

REQUESTED SCOPE OF CHANGE

Since the 2014 TAP application, Three Rivers Park district has worked closely with each of the 6 cities to further evaluate the feasibility of constructing each of the segments. After review and consideration, changes were required for the Edina and Brooklyn Park segments as follows:

Edina – The Edina segment was intended to be an off-road trail that was constructed between multi-family residential units. Easements were required from each of the four landowners to allow for trail construction. While the trail was technically feasible to construct, three of the four landowners were opposed to the project. Initial estimates related to easement acquisition were \$43,680 (TAP application amount, including inflation) for the 4 easements required. After completing the appraisals, this amount was determined to be \$135,300, with Eminent Domain anticipated for three of the parcels.

Based on landowner resistance, and the additional easement costs which would need to be paid by the City, the City has informed Three Rivers Park District they no longer want to proceed with the trail segment.

The Edina segment will be removed from the project in its entirety.

Brooklyn Park – The Brooklyn Park trail segment was intended to be a 0.75 mile off-road trail between Hampshire Avenue and Vera Cruz Lane, filling a gap to the Crystal Lake Regional Trail system. The proposed project also fills a gap that exists between residential a reas and the existing Bottineau Boulevard and 63rd Avenue Park-and-Ride.

Upon completion of the topographic survey, it was determined there was not enough boulevard width to construct an off-road trail between Forest Avenue and Zane Avenue. Through this a rea, on-road bike lanes are proposed to provide continuity in the trail system and maintain the project termini. The resulting configuration will result in approximately 0.45 miles of on-road bikeway and approximately 0.30 miles of off-road trail.

MODIFIED PROJECT DESCRIPTION AND COST ESTIMATE

The original project objectives and benefits will remain unchanged for the Brooklyn Park segment, however the Edina segment will be removed from the project.

A new cost estimate was prepared based on the revised Brooklyn Park segment and the deleted Edina segment of the project.

TAP Application

<u>Construction (SP 091-090-081, TA 8817(049))</u>

<u>Segment</u>	Amount	(+) Inflation
Bloomington	\$ 507,400	\$ 527,696
Brooklyn Park	\$ 304,200	\$ 316,368
Edina	\$ 58,600	\$ 60,944
Plymouth	\$ 161,500	\$ 167,960
Richfield	\$ 96,900	\$ 100,776
<u>Wayzata</u>	\$ 23,000	<u>\$ 23,920</u>
Total	\$1,151,600	\$1,197,664

<u>R/W (SP 091-090-086, TA 8817(060))</u>

Segment	Amount	(+) Inflation
Bloomington	\$ 56,400	\$ 58,656
Brooklyn Park	\$0	\$0
Edina	\$ 42,000	\$ 43,680
Plymouth	\$0	\$0
Richfield	\$0	\$0
Wayzata	\$ 0	<u>\$0</u>
Total	\$ 98,400	\$102,336

<u>Summary</u>

Element	Amount	(+) Inflation
Total Construction	\$1,151,600	\$1,197,664
<u>Total R/W</u>	\$ 98,400	<u>\$ 102,336</u>
Total in TAP Application	\$1,250,000	\$1,300,000

2016-2019 STIP

	TAP	Other	Total
2016-2019 STIP (Original)	\$1,040,000	\$260,000	\$1,300,000

A STIP Amendment was processed to separate construction and R/W funding. The revised amounts are as follows:

Element	Total	ТАР	Other
Construction	\$1,272,800	\$ 935,840	\$336,960
R/W	\$ 130,200	\$ 104,160	<u>\$ 26,040</u>
Total in STIP	\$1,403,000	\$1,040,000	\$363,000

REVISED SCOPING

Construction (SP 091-090-081, TA 8817(049))

Segment	An	nount
Bloomington	\$	435,400
Brooklyn Park	\$	349,200
Edina	\$	0
Plymouth	\$	234,000
Richfield	\$	159,700
Wayzata	\$	<u>38,400</u>
Total	\$1	,216,700

<u>R/W (SP 091-090-086, TA 8817(060))</u>

<u>Segment</u>	Amou	<u>unt</u>
Bloomington	\$ 91,	100
Brooklyn Park	\$	0
Edina	\$	0
Plymouth	\$	0
Richfield	\$	0
Wayzata	\$	0
Total	\$ 91,	100

<u>Summary</u>

Element	Amount
Total Construction	\$1,216,700
<u>Total R/W</u>	\$ 91,100
Total Current Estimate	\$1,307,800

The current (SP 091-090-081, TA 8817(049)) construction cost estimate (based on 80 percent complete plans) for the proposed project is \$1,216,700, of which \$935,840 are currently included in the STIP. This equates to a 77/23 split between federal and local funding.

The current design uncovered several items that were not considered during the TAP application process. Some of the items include:

Brooklyn Park – The need to narrow approximately 300 feet of roadway to allow for trail construction (\$75,000, including related signal system modifications).

Plymouth – The need for significant tree removal and safety fencing along the corridor (\$35,000).

Richfield – The use of a buffer area between the travel lanes and bike lanes, along with the addition of centerline striping to better define the corridor (\$72,500).

While some cost savings were found in other areas of the project, unforeseen items and enhancements have served to increase the total construction costs for the project.

The current (SP 091-090-086, TA 8817 (060)) R/W estimate is \$91,100 based on completed appraisal documents and review appraisal documents, where required. Currently, the STIP contains \$130,200 for R/W, of which \$104,160 is TAP funding and \$26,040 is local funding.

Three Rivers Park District is requesting the formal scope change move forward, while retaining current construction TAP funding levels for the project. Funding levels for R/W are requested at an 80/20 federal/local split based on the current estimated amount of \$91,100 (\$72,880 TAP/\$18,220 local).

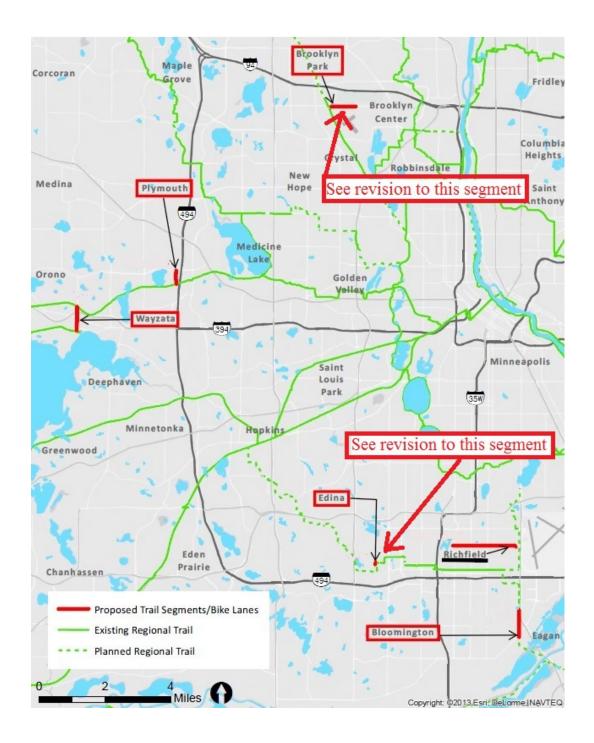

Sincerely,

Josles C Prese

Josh Bowe PE, LEED[®] AP BD + C Civil Engineer Three Rivers Park District

ACTION TRANSMITTAL No. 2016-53

DATE:	October 6, 2016
TO:	TAC Funding and Programming Committee
PREPARED BY:	Joe Barbeau, Senior Planner (651-602-1705)
SUBJECT:	2017-2020 TIP Amendment: Three Rivers Park District Regional Trail System Ramps
REQUESTED ACTION:	The Three Rivers Park District requests an amendment to the 2017-2020 TIP to reduce the scope of its Regional Trail System Ramps Project (SP # 091-090-081).
RECOMMENDED MOTION:	That TAC F&P recommend to TAC adoption of an amendment into the 2017-2020 TIP to reduce the scope of the Three Rivers Park District's Regional Trail System Ramps Project (SP # 091- 090-081).

BACKGROUND AND PURPOSE OF ACTION: This TIP amendment is needed due to a change in scope. The project is programmed for state fiscal year 2017. This amendment would remove the Edina phase of the six-phase project and may, depending on the recommendation on the scope Change, reduce funding.

Due to the timing of the Park District's scope change request, this accompanying TIP amendment will not be able to be reflected in the final 2017-2020 TIP currently in production. Therefore, this amendment is requested to be approved pending approval of the 2017-2020 TIP. The 2017-2020 TIP was approved by the Metropolitan Council on September 28, 2016, and has been provided to MnDOT and will soon be in federal review. Should this amendment be approved by the Metropolitan Council prior to federal approval of the 2017-2020 TIP, it will not be official until after that approval is granted.

RELATIONSHIP TO REGIONAL POLICY: Federal law requires that all transportation projects that will be funded with federal funds must be in an approved TIP and meet the following four tests: fiscal constraint; consistency with the adopted regional transportation plan; air quality conformity; and opportunity for public input. It is the TAB's responsibility to adopt and amend the TIP according to these four requirements.

STAFF ANALYSIS: The TIP amendment meets fiscal constraint because the federal and local funds are sufficient to fully fund the project. This amendment is consistent with the Metropolitan Council Transportation Policy Plan, adopted by the Metropolitan Council on January 14, 2015, with FHWA/FTA conformity determination established on March 13, 2015. Approval of this TIP amendment must be contingent on the approval of the accompanying scope change and approval of the 2017-2020 TIP by FHWA during the fall of 2016. The Minnesota Interagency Air Quality and Transportation Planning Committee determined that the project is exempt from air quality conformity analysis. The analysis has resulted in a conformity determination that the projects included in the 2017-2020 TIP meet all relevant regional emissions analysis and budget tests. The 2017-2020 TIP will conform to the relevant sections of the Federal Conformity Rule and to the applicable sections of Minnesota State Implementation Plan for air quality. Public

input opportunities for this amendment are provided through the TAB's and Council's regular meetings.

PROJECT BACKGROUND:

1. Briefly describe why amendment is needed (e.g., project in previous STIP but not completed; illustrative project and funds now available; discretionary funds received; inadvertently not included in TIP).

This TIP amendment is required due to the removal of a project element: the ramp on Oaklawn Avenue connecting to Nine Mile Creek Regional Trail in Edina. The 2017-2020 TIP is scheduled to be approved by the Metropolitan Council on September 28, 2016, after which time it will be provided to MnDOT and then in federal review. Should this amendment be approved by the Metropolitan Council prior to federal approval of the 2017-2020 TIP, it will not be official until after that approval is granted.

- 2. How is fiscal constraint maintained as required by 23 CFR 450.216 (check all that apply)?
 - New Money

Information Item

DATE:	October 14, 2016
TO:	TAC Funding and Programming Committee
PREPARED BY:	Joe Barbeau, Senior Planner (651-602-1705) Steve Peterson, Mgr Highway Planning and TAB/TAC Process (651-602-1819)
SUBJECT:	2016 Regional Solicitation Scores

The projects submitted during the 2016 Regional Solicitation have been reviewed by teams of professionals from cities, counties, the Metropolitan Council, and state agencies. The draft scores, arranged by the ten application types, are attached. Also attached is the solicitation schedule. Scores will be provided to applicants on Friday, October 21. Applicants have until October 31 to appeal scores on specific measures. TAC Funding & Programming Committee will consider challenges at its November 17 meeting.

			Funding	
Application Type	Applications ¹	Federal	Match	Total
Roadway Expansion	21	\$120,416,196	\$101,245,882	\$221,662,078

TOTAL	145	\$538,641,379	\$409,680,608	\$945,321,987

The below table summarizes the total number of applications and total funding applied for.

¹Does not include disqualified applications.

Project Schedule

Date	Process
5/18/2016	Regional Solicitation Released. Applicants can obtain on-line access at this time.
7/8/2016	Applicants must apply for on-line access by 4:00 P.M.
7/15/2016	Application deadline – 4:00 P.M.
7/18/2016	Qualifying reviews begin.
8/10/2016	Qualifying review completed (staff notify applicants that do not qualify).
8/18/2016	TAC F&P Committee meeting: Qualifying appeals heard.
8/22/2016	Scoring committees begin evaluating all qualified applications.
10/7/2016	Scoring completed. Staff prepares results for TAC F&P Committee meeting (10/20/16).
10/20/2016	TAC F&P releases project scores.
10/20/2016	Scores distributed to applicants; appeal period begins.
10/31/2016	Scoring appeal deadline.
11/17/2016	TAC F&P Committee meeting: Scoring appeals reviewed, funding options developed.
12/15/2016	TAC F&P considers funding options presented by staff and votes to eliminate, modify or
12/15/2010	create options and forwards them to the TAC.
1/4/2017	TAC review of funding options and recommendation to TAB.
1/18/2017	TAB approval of funding recommendations and direct staff to include them into the draft 2018-2021 TIP.
