

TRANSPORTATION ADVISORY BOARD

Metropolitan Council, 390 Robert Street North, Saint Paul, Minnesota 55101

**NOTICE OF A MEETING
of the
FUNDING AND PROGRAMMING COMMITTEE**

**Thursday, December 15, 2016
1:30 P.M. – Metropolitan Council, Room LLA
390 Robert Street N, Saint Paul, MN**

AGENDA

- 1) Call to Order
- 2) Adoption of Agenda
- 3) Approval of the Minutes from the November 17, 2016 meeting*
- 4) 2016 Regional Solicitation Funding Options – Action Item 2017-02*
- 5) Programming Regional Solicitation Projects for FY 2022 – Action Item 2017-03*
- 6) 2016 HSIP Project Selection – Action Item 2017-04*
- 7) 2017 Meeting Schedule -- Discussion
- 8) Other Business
- 9) Adjournment

Please notify the Council at 651-602-1000 or 651-291-0904 (TTY) if you require special accommodations to attend this meeting. Upon request, the Council will provide reasonable accommodations to persons with disabilities.

TRANSPORTATION ADVISORY BOARD
Metropolitan Council
390 N. Robert St., St. Paul, Minnesota 55101-1805
Minutes of a Meeting of the
FUNDING AND PROGRAMMING COMMITTEE
November 17, 2016

MEMBERS PRESENT: Tim Mayasich (chair, Ramsey County), Lynne Bly (MnDOT Metro District), Colleen Brown (MnDOT Metro State Aid), Anna Flintoft (Metro Transit), Craig Jenson (Scott County), Jen Lehmann (MVTA), Elaine Koutsoukos (TAB), Lyssa Leitner (Washington County), Joe MacPherson (Anoka County), Gina Mitteco (MnDOT Bike & Ped), Ryan Peterson (Burnsville), Steve Peterson (Metropolitan Council), Lyndon Robjent (Carver County), John Sass (Dakota County), Nancy Spooner-Mueller (DNR), Carla Stueve (Hennepin County), and Joe Barbeau (staff)

OTHERS PRESENT: Carl Ohrn (Metropolitan Council) and Nick Thompson (Metropolitan Council)

1. Call to Order

The meeting was called to order at 1:35 p.m.

2. Adoption of Agenda

MOTION: Koutsoukos moved to adopt the agenda. Seconded by Ryan Peterson. The motion was approved unanimously.

3. Approval of the Minutes from the October 20, 2016, Meeting

MOTION: Ryan Peterson moved to approve the minutes. Seconded by Sass. The motion was approved unanimously.

4. TAB Report – Information Item

Koutsoukos reported on the November 16, 2016, TAB meeting. Scott McBride, MnDOT, reported that FAST Lane funding is available with an application deadline in February. MnDOT submitted three applications this year and will look at the opportunity to submit again after learning about the guidance.

The following actions were taken:

- Approval of a streamlined TIP amendment for the Metro Transit 12th Street Transit Ramp.
- Approval of a scope change for Three Rivers Park District.
- Approval of the TIP amendment that accompanies the Three Rivers Park District scope change.
- Approval of a motion for TAB to vote on TBI funding at its December meeting.
- Acceptance of TAC's recommendation to include the following recommendations from the TBI work group:
 - That consultant selection committees for TBI- and modeling-related activities include local agency representation.
 - That Council modeling staff establish a regional transportation modeling work group, inclusive of the counties and other interested agencies, to establish how to best assure that the regional model is of optimal use to the Council's regional partners.
 - That Council staff provide a graphic version of TBI and modeling activities.
 - That a scope of work be provided.
 - That a breakdown of funding sources be provided.

5. Regional Solicitation Scoring Appeals – Action Item 2016-57

Koutsoukos said that applicants of seven Regional Solicitation applications have challenged the scoring of one or more measures.

A. Shared Mobility, Community Outreach and Development Program Demonstration, CarFreeLife (Travel Demand Management)

- Requests re-evaluation of:
 - 2: Average Weekday Usage
 - 4A: Congestion Reduction/Air Quality

2. Role in the Regional Transportation System and Economy

The applicant said that its proposal had the highest number of users among proposals that used a conversion factor to derive anticipated actual users rather than indirect users or project area gross population numbers. The scorer and Scoring Committee chair agreed to change the score to give the application the top score and change the other scores proportionately.

MOTION: Ryan Peterson moved to accept the change recommended by the scorer. Seconded by Bly. The motion was approved unanimously.

4A. Congestion Reduction/Air Quality

The application scored no points in this category. The applicant felt that the proposed project will lead to improved air quality. The scorer said that the response makes no mention of congested roadways and does not have a strong answer regarding reducing single-occupancy vehicle trips and therefore recommends no change. The Scoring Committee chair agreed with this.

MOTION: Sass moved to accept the response from the scorer and not change this score. Seconded by Lehmann. The motion was approved unanimously.

B. Learn to Ride Bicycle Program Expansion, Cycles for Change (Travel Demand Management)

- Requests re-evaluation of:
 - 2: Average Weekday Usage
 - 5: Innovation

2. Average Weekday Usage

The applicant said that it reported usage and therefore should not have scored zero. The scorer and Scoring Committee chair recommended using 500 daily users and adjusting the score accordingly.

MOTION: Lehmann moved to accept the change recommended by the scorer. Seconded by Ryan Peterson. The motion was approved unanimously.

5. Innovation Reduction/Air Quality

The applicant felt that the application should score at least 100 points for expanding its geographic scope, or possibly up to 200 points for innovation beyond the existing program. The scorer said that the project is not a new policy or program, leaving it with a maximum score of 100. The scorer did not feel the score of 50 should be changed. The Scoring Committee chair agreed.

Leitner asked whether the scoring guidance says that scorers must assign different amounts of points to each project. Koutsoukos said that it does not.

MOTION: Stueve moved to accept the response from the scorer and not change this score. Seconded by Flintoft. The motion was approved unanimously.

C. Arterial Corridor Management, City of St. Paul (Roadway System Management)

- Requests re-evaluation of:
 - 5A: Vehicle Delay Reduced
 - 5B: Kg of Emissions Reduced

5A. Vehicle Delay Reduced

The applicant questioned use of the Synchro model as many congestion-reducing elements are not captured by the program. The scorers and Scoring Committee chair agreed that this is worth exploring for the future but given that the scoring guidance was followed, no change should be made.

MOTION: Ryan Peterson moved to accept the response from the scorer and not change this score. Seconded by Stueve. The motion was approved unanimously.

Robjent reported that when he reviewed this proposed scoring change he found an error on Hennepin County's project data that over-scored itself for this category.

MOTION: Robjent moved to re-score measure 5A in Roadway System Management to reflect a correction to the applicant's error for delay. Seconded by Sass. The motion was approved unanimously.

5B. Kg of Emissions Reduced

The applicant questioned use of the Synchro model as many emissions-reducing elements are not captured by the program. The scorers and Scoring Committee chair agreed that this is worth exploring for the future but given that the scoring guidance was followed, no change should be made.

MOTION: Robjent moved to accept the response from the scorer and not change this score. Seconded by Koutsoukos. The motion was approved unanimously.

Leitner said that the City of St. Paul, in its challenge, did a good job of outlining scoring issues. Koutsoukos replied that this will be reviewed in time for the next Regional Solicitation.

Robjent pointed out that with the error correction to measure 5A, measures 5A and 5B have the expected direct relationship in scores that was lacking following the Scoring Committee meeting.

D. Town Center Station - LRT Green Line Extension Re-Evaluation, City of Eden Prairie (Transit Expansion)

- Requests re-evaluation of:
 - 1B: Average Number of Weekday Transit Trips Connected to the Project
 - 2A: New Annual Riders
 - 4A: Total Emissions Reduction
 - 6A: Risk Assessment

1B. Average Number of Weekday Transit Trips Connected to the Project

The applicant felt that its connection to the Metro Green Line Extension was not appropriately counted. The scorer and Scoring Committee chair said that the Metro Green Line Extension is a planned route and is not a part of the score along with the existing routes. The project received 15 points for connection to a planned transitway.

MOTION: Mitteco moved to accept the response from the scorer and not change this score. Seconded by Sass. The motion was approved unanimously.

2A. New Annual Riders

The applicant felt that the scorer's 25 percent reduction in points was based on incomplete information that the third-year data was used. The scorer and Scoring Committee chair felt that, in light of that information, elimination of the reduction is appropriate and the measure should be re-scored.

MOTION: Ryan Peterson moved to accept the change recommended by the scorer. Seconded by Stueve. The motion was approved unanimously.

4A. Total Emissions Reduced

The applicant felt that a change to 2A should lead to a change in this measure. The scorer and Scoring Committee chair said that the score in this measure was not dependent on measure 2A and should therefore not be changed.

MOTION: Bly moved to accept the response from the scorer and not change this score. Seconded by Mitteco. The motion was approved unanimously.

6A. Risk Assessment

The applicant said that it provided enough information to score the full 50 points. The scorer and Scoring Committee chair said that the score is based on information provided at the time of the application deadline. Some of the information arrived later. Therefore, they recommended no scoring change.

MOTION: Bly moved to accept the response from the scorer and not change this score. Seconded by Sass. The motion was approved unanimously.

E. Local Service Expansion in Rosemount, MVTA (Transit Expansion)

- Requests re-evaluation of:
 - 5: Bicycle and Pedestrian Elements of the Project and Connections

The applicant said that the scores of zero were not appropriate for travel experience, transit stop bike connections, or transit stop pedestrian connections. The scorer and Scoring Committee Chair agreed to provide five points to each score for a total of 15.

MOTION: Bly moved to accept the change recommended by the scorer. Seconded by Sass. The motion was approved unanimously.

F. Route 444 Modernization, MVTA (Transit Modernization)

- Requests re-evaluation of:
 - 5A: Percent Reduction in Passenger Travel Time
 - 6: Bicycle and Pedestrian Elements of the Project and Connections

5A. Percent Reduction in Passenger Travel Time

The applicant said that the travel time reduction was not accounted for. The scorer and Scoring Committee chair agreed that this was missed due to an error in the spreadsheet and that the score should be adjusted accordingly.

MOTION: Leitner moved to accept the change recommended by the scorer. Seconded by Stueve. The motion was approved unanimously.

6. Bicycle and Pedestrian Elements of the Project and Connections

The applicant felt that the scorer did not account for some connections and for use of the shoulder. The scorer agreed that he had missed language about shoulders though he had not missed any connections and suggested a 10-point increase. The Scoring Committee chair agreed.

MOTION: Sass moved to accept the response from the scorer and not change this score. Seconded by MacPherson. The motion was approved unanimously.

G. Minnesota Valley State Trail-Bloomington Section, Minnesota Department of Natural Resources (Multiuse Trails and Bicycle Facilities)

- Requests re-evaluation of:
 - 3A: Socio-Economic Conditions

The applicant said that there may have been a discrepancy between the results displayed on the map entitled "Socio-Economic Conditions" and the results indicated on the application itself. The scorer and Scoring Committee Chair agreed that the application response incorrectly listed its geographic area and agreed that the score should change from 5 to 7.5, rounded to 8.

MOTION: Mitteco moved to accept the change recommended by the scorer. Seconded by Lehmann. The motion was approved unanimously.

Approval of the Final Scores

Robjent moved to recommend approval of the final scores, reflective of the changes made due to appeals and the correction of the error to the Hennepin County Roadway System Management project. Seconded by MacPherson. The motion was approved unanimously.

6. Regional Solicitation Inflation Adjustment – Action Item 2016-58

Steve Person said that the TAB Executive Committee asked TAC to consider two options for inflation adjustment: no inflation and a two percent per year adjustment that would have the effect of adding eight person for 2021 projects and 10 percent for 2022 projects. MnDOT, which is currently in the process of programming the Highway Safety Improvement Program (HSIP) projects, will follow TAB's lead regarding inflation, though some at MnDOT would prefer not to add inflation.

Leitner asked why there is a desire for HSIP to forgo inflation, to which Steve Peterson replied that this would allow for funding of more projects. Leitner said that Washington County prefers that philosophy for the Regional Solicitation as well. Lehmann said that some agencies do not have the funds to absorb inflated projects and a known absence or presence of inflation could impact how agencies apply for projects. Steve Peterson said that there has been discussion about deciding upon inflation before the application is released for future Regional Solicitations.

Robjent said that he supports eschewing inflation in favor of more projects.

Ryan Peterson asked whether previous solicitations have awarded inflation. Ohrn said that inflation has always been included. Robjent said that the federal maximum award as been increased, an act that could be considered a replacement of inflation.

Bly suggested that applicants presumed that inflation would be included when they applied and that the absence of inflation could therefore lead to more risk.

Stueve that rather than eliminating inflation, the inclusion of 2022 projects could be used to increase the number of projects. Leitner replied that this would not increase the overall number of projects. She added that there is project risk with or without inflation.

Ohrn said that the inclusion of inflation has served as an incentive for completing projects in advance because applicants still receive the full amount awarded if they complete their projects early.

Flintoft asked what the Regional Solicitation says about inflation, to which Koutsoukos replied that it simply instructs applicants to estimate its costs in current-year dollars.

Robjent asked whether members could look at funding scenarios with and without inflation to inform the decision. Steve Peterson said that a draft exists for both scenarios but had not been unveiled so as not to impact the recommendation. Brown said that applicants should be aware that scenarios are drafts at this time and should manage their expectations.

Ryan Peterson suggested that inflation should be addressed as it always has and the decision around inflation should be made earlier for the next solicitation.

Sass said that Dakota County re-estimates inflation every year and does not pay attention to the change from the time the project is awarded to when it is completed and that he therefore supports not including inflation.

MOTION: Sass moved to recommend to TAC that inflation not be added to projects programmed in the 2017 Regional Solicitation. Seconded by Robjent. The motion failed by a vote of nine to five.

Jenson asked whether the inflation rate can be set somewhere between two percent per year and zero, to which Steve Peterson replied in the affirmative.

MOTION: Ryan Peterson moved to recommend that projects programmed in the 2017 Regional Solicitation be provided eight percent inflation for 2021 and ten percent inflation for 2022. Seconded by Stueve. The motion was approved by a vote of nine to four.

Mayasich introduced two new members, Joe MacPherson from Anoka County and Nancy Spooner-Mueller from DNR. He also introduced the new Director of Metropolitan Transportation Services, Nick Thompson.

7. Regional Solicitation Draft Funding Scenarios – Information Item

Metropolitan Council staff passed out draft funding scenarios. Flintoft asked for an explanation of the difference between the “modernization” and “expansion” scenarios in the bicycle and pedestrian mode. Steve Peterson explained that the approach in that mode did not change and that any difference was reflective of fitting projects into the full program after changes to other modes.

Jenson said that there had been interest in reducing the maximum federal amount for the Multiuse Trails and Bicycles category so more projects could be funded. He suggested that, given the likely inclusion of three projects receiving over \$5 million, this may be discussed again for the next solicitation.

Koutsoukos said that the draft scores will be provided to TAC and TAB and that the Funding & Programming Committee will make a recommendation to TAC at its next meeting.

8. Adjournment

Robjent moved to adjourn the meeting. Seconded by MacPherson. The meeting was adjourned.

Transportation Advisory Board

of the Metropolitan Council of the Twin Cities

ACTION TRANSMITTAL No. 2017-02

DATE: December 8, 2016
TO: TAC Funding and Programming Committee
Steve Peterson, Manager of Highway Planning and TAB/TAC Process
PREPARED BY: (651-602-1819)
Joe Barbeau, Senior Planner (651-602-1705)
SUBJECT: 2016 Regional Solicitation Funding Scenario Options
REQUESTED ACTION: MTS staff requests that the Funding & Programming Committee forward a preferred funding scenario(s) to TAC.
RECOMMENDED MOTION: Recommend forwarding a preferred funding scenario(s) to TAC.

BACKGROUND AND PURPOSE OF ACTION: For the Committee's consideration, staff provides the following funding scenarios for consideration:

1. Base Scenario (Blue): Focused on the mid-points of the TAB-approved funding ranges (58% for Roadways, 27% for Transit, and 15% for Bicycle/Pedestrian) and then dividing the funding within each mode based approximately on the number of applications received in each category compared to the other categories within the same mode.
2. Expansion-Heavy Scenario (Orange): Same modal splits as the Base Scenario, but tilted toward expansion projects in the Roadway and Transit modes.
3. Modernization-Heavy Scenario (Green): Same modal splits as the Base Scenario, but tilted toward modernization projects in the Roadway and Transit modes.
4. Transit/Bike/Ped-Heavy Scenario (Pink): Based on using the top of the funding range for the Transit (32%) and Bicycle/Pedestrian (20%) modes and the lower end of the range for Roadways (48%). The funding was divided within each mode based approximately on the number of applications received in each category compared to the other categories within the same mode.
5. Roadway-Heavy Scenario (Purple): Based on using the top of the funding range in the Roadway mode (68%) and the lower end of the ranges for Transit (22%) and Bicycle/Pedestrian (10%). The funding was divided within each mode based approximately on the number of applications received in each category compared to the other categories within the same mode.

Because December's schedule places the Funding & Programming Committee's meeting ahead of TAB's meeting, the Committee will be making these recommendations ahead of TAB's decision on the inflation rate and any other feedback that may be provided on the funding scenarios. Therefore, the above scenarios are shown both with and without inflation.

Project costs were estimated by applicants in 2016 dollars. Following final project selection, Council staff will work with sponsors of funded projects to determine accurate program-year total project costs to include in the 2018-2021 TIP.

RELATIONSHIP TO REGIONAL POLICY: The Regional Solicitation is a key responsibility of the TAB. Through this process, federal funds can be directed to a variety of locally-initiated projects that address transportation problems and help implement regional transportation and development policies. The Regional Solicitation is part of the Metropolitan Council's federally

required continuing, comprehensive, and cooperative transportation planning process for the Twin Cities Metropolitan Area.

Transportation Advisory Board

of the Metropolitan Council of the Twin Cities

ACTION TRANSMITTAL No. 2017-03

DATE: December 8, 2016

TO: TAC Funding and Programming Committee
Steve Peterson, Manager of Highway Planning and TAB/TAC Process
(651-602-1819)

PREPARED BY: Joe Barbeau, Senior Planner (651-602-1705)

SUBJECT: Programming Regional Solicitation Projects for FY 2022

REQUESTED ACTION: Recommend a course of action for programming 2016 Regional Solicitation projects for 2022

RECOMMENDED MOTION: That TAC Funding & Programming Committee recommend to TAB whether or not to program projects for 2022 when programming the 2016 Regional Solicitation

BACKGROUND AND PURPOSE OF ACTION: As part of the Regional Solicitation process, TAB must approve a program of projects to be funded for fiscal years 2020 and 2021. Traditionally, after TAB has programmed Regional Solicitation projects, funds become available because of increases in federal funds or the withdrawal/scope changes that occur with already-programmed projects.

Looking back at the 2014 Regional Solicitation, an additional seven originally unselected projects were funded following the original TAB award. These projects were funded through TAB's Federal Funds Management Process as funds became available to the region. However, because development of some projects had discontinued, the highest-scoring projects were not funded through this reallocation process. Further, some of the funds went to increase the federal funding share of already-programmed projects.

By officially selecting a small number of projects to program for 2022 (i.e., guaranteeing them funds by 2022) and encouraging sponsors of those projects to prepare them for 2021 authorization, the region will be in a better place when reallocation of funds is needed. This approach would put these projects first in line when a 2021 project in the same mode withdraws or when additional 2021 funding becomes available for other reasons. This should prove beneficial as it helps assure selection of projects that are consistent with regional practices, can address tight scoring gaps, and can be used to promote regional balance. It will prompt seamless reprogramming of extra funds that meets TAB's general philosophy of funding projects that have been through a scoring process as opposed to providing more funds to higher-cost projects with federal capacity.

The potential risk in this approach is that if 2021 funds do not become available or the 2022 sponsors are unable to move their projects up to 2021, these projects would come "off the top" from the 2022 program as part of the 2018 Regional Solicitation. Past history, however, indicates that funds will most likely become available. This approach will program conservatively for 2022, rendering it less likely that projects will claim funds from the next Regional Solicitation.

If this approach is endorsed by TAB, one project per mode will be selected for 2022 as an extension of the 2018-2021 program. The full program, including these projects, will be selected

based on where there were small scoring gaps between the last funded project and the first unfunded project or to enhance geographic balance.

RELATIONSHIP TO REGIONAL POLICY: The Regional Solicitation is a key responsibility of the TAB and is part of the Metropolitan Council's federally required continuing, comprehensive and cooperative transportation planning process for the Twin Cities Metropolitan Area.

Transportation Advisory Board

of the Metropolitan Council of the Twin Cities

ACTION TRANSMITTAL No. 2017-04

DATE: December 8, 2016
TO: TAC Funding and Programming Committee
PREPARED BY: Joe Barbeau, Senior Planner (651-602-1705)
SUBJECT: 2016 HSIP Solicitation Project Selection
REQUESTED ACTION: MnDOT requests approval of the attached 22 projects for funding through the Highway Safety Improvement Program (HSIP) solicitation.
RECOMMENDED MOTION: That TAC Funding & Programming Committee recommend to TAC approval of the attached 22 projects for funding through the Highway Safety Improvement Program (HSIP) solicitation and inclusion of all Urbanized Area projects in the draft 2018-21 TIP.

BACKGROUND AND PURPOSE OF ACTION: The Highway Safety Improvement Program (HSIP) is a core federal program defined in the FAST Act. HSIP is designed to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-state-owned public roads and roads on tribal lands. HSIP requires a data-driven, strategic approach to improving highway safety on all public roads that focuses on performance. In order to obligate HSIP funds, the state must develop, implement, and update a Strategic Highway Safety Plan and produce a program of projects.

MnDOT shares these federal funds with local governments to improve and protect the transportation system beyond the state's trunk highway system. MnDOT conducts the solicitation and the proposed projects are evaluated by a team of transportation professionals that includes members of the Technical Advisory Committee.

With guidance and recommendation from its technical committees, the TAB's role is to approve the solicitation criteria and select projects to be awarded HSIP funds. MnDOT conducted a solicitation for both "proactive" and "reactive" projects to be funded in 2020 and 2021. The attached projects, if approved, will be included in the 2018-2021 TIP to be released for public comment in June, 2017. The attached proposed program shows over-programming of \$100,755 and a total budget of \$20,700,000, rendering over-programming below 1 percent.

The attached projects assume that no inflation adjustment is included with the federal funding, as recommended by TAC. TAB will decide on the federal funding at its December 21 meeting. Should the F&P-recommended 8/10% inflation be approved, the following projects would be removed from the program: P5 and R24.

RELATIONSHIP TO REGIONAL POLICY: Federal law requires that all transportation projects that will be funded with federal funds must be in an approved TIP and meet the following four tests: fiscal constraint; consistency with the adopted regional transportation plan; air quality conformity; and opportunity for public input. Each project is consistent with the Transportation Policy Plan. Public input opportunity will occur when the TIP is out for public review. The region's Transportation Policy Plan includes transportation safety policies and strategies. The projects selected through the HSIP solicitation are consistent with that plan.

STAFF ANALYSIS: Staff recommends approval of the attached 22 projects for funding through the (HSIP solicitation and inclusion of all Urbanized Area projects in the draft 2018-21 TIP.

P9	Hennepin County	CSAH 1, 3, 5	Total 23.1 miles	ATMS to monitor and coordinate 68 traffic signals		X		\$1,773,000	\$197,000	\$1,970,000
P11	Minneapolis	Johnson St	Johnson St from 23rd Ave to 33rd Ave and Lowry/Hayes intersection	Install mast arms at 7 existing signals	X			\$1,755,000	\$195,000	\$1,950,000
R12	Minneapolis	38th Street	1st Ave to 13th Ave	Install mast arms on 6 signals	X			\$1,485,000	\$165,000	\$1,650,000
R14	Minneapolis	Park Ave Portland Ave	at 9th and at 10th at 9th Street	Install mast arms on 3 signals	X			\$900,000	\$100,000	\$1,000,000
P15	MnDOT	I-494	Minnesota River to TH 3	Install continuous freeway lighting	X			\$1,620,000	\$180,000	\$1,800,000
P16	MnDOT	I-694	TH 61 to CSAH 10	Install continuous freeway lighting	X			\$1,800,000	\$200,000	\$2,000,000
R17	MnDOT	TH 12	at CSAH 90	Construct multi-lane roundabout		X		\$1,800,000	\$200,000	\$2,000,000
R20	Ramsey County	CSAH 10 (Mounds Blvd)	at CR H2	Replace traffic signal		X		\$508,140	\$56,460	\$564,600
R21	Ramsey County	CSAH 51 (Lexington Ave)	at CSAH 78 (CR B2)	Replace traffic signal, add turn lane	X			\$1,796,566	\$199,618	\$1,996,184
P19	Saint Paul	Cretin Ave	Marshall to Beverly Rd	Construct sidewalk on west side of roadway and ped refuges	X			\$450,000	\$50,000	\$500,000
P20	Saint Paul	Minnehaha Ave	at Earl, Forest and Ruth	Replace three traffic signals and install mast arms			X	\$495,000	\$55,000	\$550,000
P21	Saint Paul	University Ave	Emerald to Marion St	Install 15 RRFBs at pedestrian crossings to/from LRT Green Line		X		\$1,350,000	\$150,000	\$1,500,000
P18	Scott County	Multiple	See table in submittal	Construct between 12 and 16 turn lanes on high speed country roads	X			\$990,000	\$110,000	\$1,100,000
					Total			\$23,561,706	\$2,979,078	\$26,540,784

Recommended HSIP Projects DRAFT

Proactive Projects:

- 1) On County Rd 40 construct paved shoulders, rumble strips, and advanced warning signs for curves in San Francisco Twp
- 2) On the Midtown Greenway implement trail crossing, durable high-visibility crosswalks, raised medians, curb extensions, ADA, construct sidewalk, signal improvements in Minneapolis
- 3) On multiple roads implement durable high-visibility crosswalks, curb extensions, raised medians, ADA, and flashing beacons in Eden Prairie, Minneapolis, and Bloomington
- 4) On I-35E install high tension cable median barrier in Lino Lakes
- 5) On US 10 install continuous freeway lighting in Moundsview
- 6) On MN 65 construct Reduced Conflict Intersection (RCI) in East Bethel
- 7) On multiple roadways widen and pave shoulders, add centerline and edgeline rumbles between 15 & 20 miles in Scott County
- 8) On US 8 construct roundabout in Chisago County

Reactive Projects:

- 1) On Osbourne Rd implement road diet, turn lanes, medians, and pedestrian islands in Fridley
- 2) On Broadway Ave widen shoulders, add right turn lanes, bypass lanes, and overlay in Columbus
- 3) On MN 3 construct roundabout in Empire Twp
- 4) On 260th St construct multi-lane roundabout in Elko New Market
- 5) On Franklin Ave implement signal rebuild, retiming, additional heads, exclusive left turn phasing, and pedestrian improvements in Minneapolis
- 6) On West Broadway Ave implement signal rebuild, retiming, additional heads, exclusive left turn phasing, and pedestrian improvements in Minneapolis
- 7) On Roselawn Ave construct mini-roundabout in Maplewood
- 8) On Hennepin Ave and Harmon Pl install mast arms on 5 signals in Minneapolis
- 9) In multiple locations apply high friction treatment to freeway ramps
- 10) On US 8 construct dedicated left turn lane for EB traffic in Chisago County
- 11) On US 8 install 6" wet reflective striping in Forest Lake
- 12) At Rice Creek Regional Trail and MN commercial RR crossing, construct gates, ped ramps, and a refuge median in New Brighton
- 13) On 260th St construct roundabout in Helena Twp
- 14) On MN 3 construct southbound left turn lane in Farmington
