

# Action Transmittal

Transportation Advisory Board

Meeting Date: October 20, 2022

Date: October 13, 2022

## Action Transmittal: 2022-45

2022 Regional Solicitation Funding Option

**To:** TAC Funding & Programming Committee

**Prepared By:** Steve Peterson, Mgr. of Highway Planning and TAB/TAC Process (651-602-1819)

### Requested Action

TAB requests that the Funding & Programming Committee forward ~~two~~ **three** funding options to TAC, along with a of pros and cons list for each option and any other technical feedback.

### Recommended Motion

That the TAC Funding & Programming Committee forward ~~two~~ **three** funding options to TAC, along with a of pros and cons list for each option and any other technical feedback.

### Note

At its October 19, 2022, meeting, the Transportation Advisory Board (TAB) will be providing policy direction on these funding options, which may result in changes to the projects shown as funded in each option. Any direction from TAB will be shared at the October 20, 2022, committee meeting.

### Summary

~~Two~~ **Three** Regional Solicitation funding options, the “Midpoint” option and the ~~Bike/Pedestrian-Heavy~~ option are provided for TAB’s consideration. **Midpoint with extra funding to Bike/Ped categories, Bike/Ped-Heavy scenario with extra funding to Roadway categories, and Bike/Ped-Heavy scenario with extra funding to Bike/Ped categories.** Technical committees are producing a list of pros and cons about each option, as well providing other technical feedback.

### Background and Purpose

The following funding options are provided for the Committee’s consideration:

- Midpoint + **Extra to Bike/Ped** (Blue): This option is similar to TAB’s past selection history dating back to 2014. The option focuses on the midpoints of the TAB-approved funding ranges (55.5% for Roadways, 30% for Transit/TDM, and 14.5% for Bicycle/Pedestrian). A 3% increase in the midpoint for Transit/TDM (with a 2.5% decrease in roadways and 0.5% decrease in Bicycle/Pedestrian) was approved as part of the 2020 application. Funding within modal categories is allocated based upon the number of application submittals within each application category. ~~Forty-eight different cities and townships are included in this option.~~ **Unprogrammed dollars from the transit category would be applied to projects in Bike/Ped categories.**
- Bicycle/Pedestrian-Heavy + **Extra to Roadway** (~~Orange~~ **Pink**): This option remains within the established modal funding ranges for each mode but funds the Bicycle/Pedestrian

mode near the top of its range (9% to 20%). This option was created at TAB's request. ~~Forty-nine different cities and townships are included in this option.~~ **Unprogrammed dollars from the transit category would be applied to projects in Roadway categories.**

- **Bicycle/Pedestrian-Heavy + Extra to Bike/Ped (Orange):** This option puts 21% (modal range 9% to 20%) to Bike/Ped categories and reduces total funds by \$11M relative to the Midpoint option. Unprogrammed dollars from the transit category would be applied to projects in Bike/Ped categories.

Additionally, Council staff was recently made aware of two new funding sources that were established by the Infrastructure Investment and Jobs Act (IIJA). The first is the On-System Bridge Program. Both attached options show funding of all five applications in the Bridge category to accommodate this funding source. This program provides \$4M to \$5M per year from 2023 to 2027. The Bridge funding, therefore, is larger than it would have been without this new source and this increase does not count against roadways in the overall modal split.

The other new funding source is the Carbon Reduction Program, which is meant to fund projects designed to reduce transportation emissions, defined as carbon dioxide (CO<sub>2</sub>), from on-road highway sources. This will be discussed in Action Transmittal 2022-46. Like On-System Bridges, this new federal source does not count against bicycle/pedestrian in the overall modal split.

A list of pros and cons and other technical feedback from the two technical committees will be forwarded to TAB to help in their decision in November.

### **Relationship to Regional Policy**

The Regional Solicitation is a key responsibility of the TAB. Through this process, federal funds can be directed to a variety of locally initiated projects that help implement regional transportation and development policies. The Regional Solicitation is part of the Metropolitan Council's federally required continuing, comprehensive, and cooperative transportation planning process for the Twin Cities Metropolitan Area.

### **Committee Comments and Action (In Progress)**

This meeting is the first scheduled action. However, TAB has requested a list of pros and cons for each funding option. Members of the Technical Advisory Committee (TAC) provided the following during and after its October 5 meeting. The TAC had a limited amount of time to discuss the pros and cons and will be given another opportunity to contribute to the list:

#### **Midpoint Option**

- PRO: Funds a higher amount of roadway and transit needs relative to the other option.
- PRO: Most closely follows the midpoint of the funding range approved by TAB, which was provided in the application materials.
- PRO: When combined with the Carbon Reduction funds (\$16M), the end level of investment is the same for this mode as under the Bicycle/Pedestrian-Heavy option (which shifts \$16M to bicycle/pedestrian).

#### **Bike/Pedestrian-Heavy Option**

- PRO: Safety benefit the most vulnerable users by funding more projects in bicycle/pedestrian.
- PRO: Funds several SRTS projects, which are low-cost and high benefit.
- PRO: Funds an extra Roadway Reconstruction/Modernization project at the expense of two strategic capacity projects, which even further prioritizes this project type (17 projects and \$100M in Reconstruction compared to 4 projects and \$33M in Strategic Capacity).

Members also expressed concern with funding the last few projects in any one application category while there were long lists of unfunded projects in other categories.

In a similar manner, members also expressed concern with lower-funded applications being funded in some categories, while many high scoring projects in other categories are left unfunded. Staff believes it is important to caution technical and policy committee members that it is virtually impossible to compare projects from one category to another.

The Funding & Programming Committee is asked to provide TAC and TAB with pros and cons of the options.

## Routing

To	Action Requested	Date Scheduled / Completed
TAC Funding & Programming Committee	Review & Recommend	October 20, 2022
Technical Advisory Committee	Review & Recommend	November 2, 2022
Transportation Advisory Board	Review & Approve	November 16, 2022
Transportation Committee	Review & Recommend	November 28, 2022
Metropolitan Council	Review & Concur	December 14, 2022

## TAB Policy Direction on October 19

As part of the October 19 TAB meeting, Council staff will seek policy direction on a few key policy questions. Direction on these items may result in different projects being shown as funded under each funding option. Council staff will provide any new TAB direction and the resulting impacts at the TAC Funding & Programming meeting the next day after TAB. This policy direction will help provide TAC Funding & Programming with a more defined set of funding options. F&P, and then TAC on November 2, will forward a pros/cons list, as well as other technical feedback to TAB at its November meeting to help in decision-making.

Also, attached to the packet is a memo describing the Unique Projects Scoring Committee recommendations and discussions.

## Reference notes for scenario tables

Below is an explanation on how to understand the funding options developed, including what the color shading implies throughout the tables.

Color Shading:

- Blue: Midpoint scenario with extra funding to Bike/Ped categories
- Pink: Bike/Ped-Heavy scenario with extra funding to Roadway categories
- Orange: Bike/Ped-Heavy scenario with extra funding to Bike/Ped categories
- Purple: Bridge category (all Bridge projects funded in each scenario)
- Gray (Travel Demand Management): TDM projects funded to the standard amount
- Green (Carbon Reduction in the Bike/Ped categories): 2023-2024 Carbon Reduction Funding spending on top of the scenarios

**■** Bold black underlines on tables indicate the likely approximate scenario outcome prior to receipt of additional IIJA funds (i.e., funded projects below the bold lines are beyond what would have been funded prior to the increase). It is also assumed that no projects will have their request partially funded. This is subject to change pending TAB final direction.

The right column on each of the tables shows the percentage of points applications received relative to the top scoring project in that category.

## 2022 Unique Projects Scoring – Committee Memo to TAB 10/12/2022

The Unique Projects Scoring Committee met on October 10 to discuss funding of the project applications. Below is a summary of the scores arrived at by the committee, federal funding requests, the committee’s recommendation to TAB, and future considerations.

### Scoring Summary

A summary of the average scores across all scorers is provided in Table 1. The following point scale was used to evaluate projects: Excellent (5 pts), Very Good (4 pts), Good (3 pts), Fair (2 pts), Poor (1 pt).

The following three projects were scored:

- [EV Spot Network Strategic Expansion](#) submitted by City of Saint Paul
- [‘True Impacts of Transportation’ Public Education Campaign](#) submitted by Move Minnesota
- [Mobility Hubs](#) submitted by Metro Transit

Table 1 – Summary of the Average Unique Projects Scores by Project and Criteria

Criteria	Weight	17635	17547	17596
		EV Spot Network	Education	Mobility Hubs
1. Innovation	28%	2.6	1.6	3.0
2. Environmental Impacts	21%	3.5	1.7	2.9
3. Racial Equity	18%	3.1	1.8	2.7
4. Multimodal Communities	13%	3.0	1.3	3.6
5. Regional Impact/Scalability	11%	3.5	1.9	3.4
6. Partnerships	9%	2.8	1.7	3.0
<b>TOTAL</b>	<b>100%</b>	<b>3.0 (Good)</b>	<b>2.1 (Fair)</b>	<b>3.1 (Good)</b>

### Scoring Notes:

- Nine scorers reviewed the projects.
- One scorer ranked projects in order of their preference and scores of 3.8, 2.2, and 3.0 were interpreted from this ranking.<sup>1</sup> Two other scorers provided overall scores without distinguishing scores of the individual measures. Those scores are not factored into the individual criteria scores, meaning only six scorers contributed to those.

### Federal Funding Requests

The Unique Projects funding availability was established during the 2020 Regional Solicitation.

	Federal
<b>TOTAL AVAILABLE</b>	<b>\$4,500,000</b>
<b>17635—EV Spot Network</b>	\$1,440,000
<b>17547—Education</b>	\$768,100
<b>17596—Mobility Hubs</b>	\$1,600,000
<b>Travel Behavior Inventory</b>	\$733,000
<b>TOTAL Federal Requested</b>	<b>\$4,541,100</b>

<sup>1</sup> It was assumed that the second ranked project would receive a score of 3.0. Standard deviations from the other scorers were used to determine the scoring margins for the other scores.

#### Funding Notes:

- The Travel Behavior Inventory (TBI) was agreed upon for inclusion as a multi-phase project during previous Regional Solicitation approvals.
- The \$41,100 above the available funds is not an obstacle to funding all these projects. Other Solicitation funding is available to cover this difference.
- If TAB decides not to fund all the applications, unused funds can be used on applications applied for in the other Regional Solicitation funding categories or to increase total Unique Projects funding availability for the 2024 Unique Projects category.

### Committee Recommendation to TAB

All present committee members discussed their scores during the scoring meeting and no changes were made. Some members supported funding multiple projects and others only wanted to fund the Travel Behavior Inventory (TBI) commitment that TAB previously made. Chair Hovland polled the group on the numbers of projects that they wanted to fund beyond the TBI, using the ranked list of projects based on scores. About half the participants indicated support for the TBI and two projects and the other half indicated support for the TBI and no additional Unique Projects. The group discussed a compromise to recommend funding one project, Mobility Hubs, but did acknowledge that the EV Spot Network project was only 0.1 points lower in its score.

The committee also discussed two options for any unallocated Unique Project funds: rolling the funds forward to the 2024 Regional Solicitation Unique Projects category or increasing the amount available in this Solicitation. If funds are moved to other modal categories in this Solicitation, there are two options of either moving the funds to the Bicycle and Pedestrian modal category only (suggested by the scoring committee) or proportionately distributing the funds amongst all the modal categories.

As a result of the committee's discussion, the following questions are recommended to be brought forward to TAB in October.

1. What Unique Projects should be funded?
  - Option 1A – Fund the TBI and the Mobility Hubs project at \$2,333,000, leaving \$2,167,000 remaining.
  - Option 1B – Fund the TBI, Mobility Hubs and EV Spot Network projects at \$3,773,000, leaving \$727,000 remaining.
  - Options 1C – Fund only the TBI at \$733,000, leaving \$3,767,000 remaining.
2. How should any remaining funds be allocated??
  - Option 2A – Increase the set aside for the 2024 Unique Projects funding allocation by the amount of remaining funds (given the reality that this was the first time soliciting under this new category and there was limited time to develop project ideas).
  - Option 2B – Keep the funding in the 2022 Regional Solicitation and reallocate it among other modal categories.
3. If it is recommended to use the remaining funds in 2022, how should the funds be reallocated? (only if Option 2B is selected)
  - Option 3A – Move any remaining funds to the Bicycle and Pedestrian modal category given the high demand and closer tie to Unique Project goals.
  - Option 3B – Move any remaining funds to Roadway, Transit, and Bicycle and Pedestrian proportional to their midpoint given this is how the funds were originally sourced.

Committee members **avored Option 1A** be brought to TAB as a recommendation, with the understanding that the other options discussed by the committee would be presented for

discussion. Committee members acknowledged that the scoring gap between the Mobility Hubs project and the EV Network project is small but decided that the projects could be split because the former is closer to a pilot project while the latter is an extension of a project that was funded in the previous Regional Solicitation. The committee members discussed options 2A and 2B as well as option 3A, but there was no consensus on making a recommendation to TAB. The committee ultimately felt it was TAB's role to decide what to do with any remaining funds from the Unique Projects category.

### **Future Considerations**

Members would like future Regional Solicitations to better indicate the desire for innovation to be at the forefront of the category, even suggesting that the category name be changed to "Unique and Innovative Projects." There was an acknowledgement that the TAB needs to do a better job defining innovation or promoting the idea to get better project applications.
