Proposed Action

That the Metropolitan Council authorize public hearings on the West Suburban Service Changes Concept Plan.

Background

Based on recommendations contained in the 2012 Minnetonka Transit Study and a review of service performance in the west suburban area, Metro Transit is recommending local service improvements and express route restructuring in the communities of Minnetonka, Hopkins, St. Louis Park, Deephaven, Greenwood, Excelsior, Shorewood and Tonka Bay.

Rationale

The recommended service changes meet the definition of a major service change under Council policy 1-3a and require public hearings to allow review and comment. Council policy requires authorization for public hearings 45 days before the hearings begin. State law requires public notice of the public hearings 30 days before the hearings begin.

Staff recommends that two hearings be held in the communities, Minnetonka and Hopkins, most impacted by the proposed changes.

In addition to providing comments at the hearings, the public will be invited to submit comments via telephone, fax, mail, e-mail and the Council website. The comment period will extend 10 days after the last public hearing.

Staff will bring forward a separate business item to approve the details of the West Suburban Concept Plan. Once approved, this Concept Plan will be published no less than 10 days before the first public hearing.

After the comment period closes, staff will consider changes to the Concept Plan to address the comments submitted by the public. A recommendation for final action will then be brought to the Council.

Funding

The outreach and public meetings will be funded through existing operating budgets. The service changes resulting from the Concept Plan will be operated within existing Metro Transit and Metropolitan Council transit service resources.

Known Support / Opposition

There is no known opposition to scheduling public hearings for this concept plan.
