RE: Draft 2014-2017 Transportation Improvement Program for the Twin Cities Metropolitan Area.

Dear Metropolitan Area Transportation Stakeholders and Citizens;

In accordance with federal requirements and the desire to gain effective public participation in the preparation of the region's Transportation Improvement Program, the Transportation Advisory Board held a public hearing on the draft 2014-2017 Transportation Improvement Program for the Twin Cities Metropolitan Area at 3:00 PM on Wednesday, June 19, 2013. A public comment period of 45 days was also held open to receive comments outside the formal public hearing. This document and the attached material comprise the public comment report on the Draft 2014-2017 Transportation Improvement Program for the Twin Cities Metropolitan Area.

This public comment report includes the following:

Appendix A

The public hearing notice that appeared in the State Register, area newspapers and Metropolitan Council website.

Appendix B

Copies of the presentations made by Minnesota Department of Transportation and Metropolitan Council staff at the June 19, 2013 public hearing.

Appendix C

Public hearing report and all written comments received during the public comment period with staff responses.

Sincerely,

Kevin Roggenbuck
TAB Transportation Coordinator

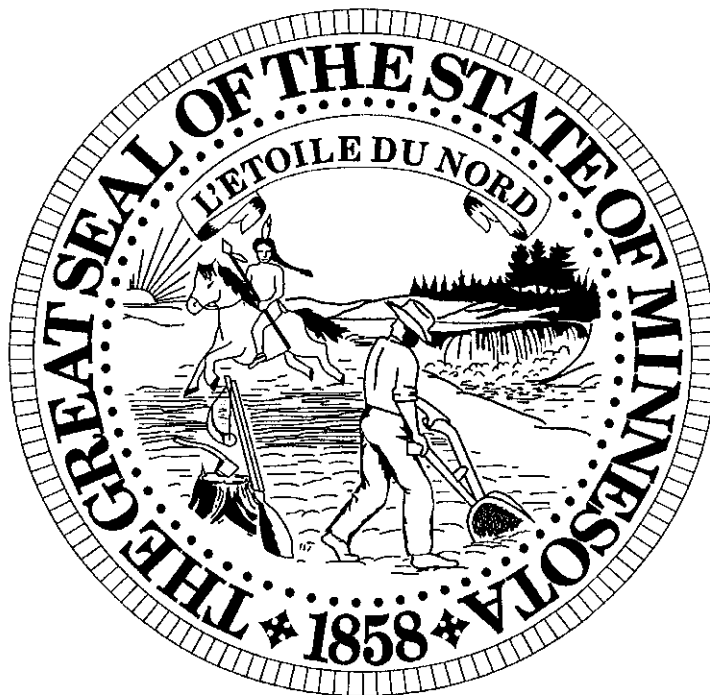

Attachment A

Public Hearing Notices.

- Notice in the State Register, May 28, 2013.
- Notice that appeared on the Metropolitan Council website.
- Notice that was sent to area stakeholders.
- Notices that appeared in area newspapers and other publications.

Metropolitan Council Public Hearing on the Proposed 2014-2017 Transportation Improvement Program (TIP) for the Twin Cities Metropolitan Area

The Transportation Advisory Board (TAB) of the Metropolitan Council will hold a public hearing on June 19, 2013, to receive public comments on the proposed 2014-2017 Transportation Improvement Program (TIP) for the Twin Cities Metropolitan Area. The program will include highway, transit, bikeway and pedestrian enhancements, and air quality projects that are proposed for federal funding in the seven-county metropolitan area in the next four years. The TIP includes the recommended projects selected through the 2011 Regional Solicitation process for federal transportation funds. The program is prepared annually and must contain all projects that are to be implemented with federal transportation funding. This TIP also contains the Metropolitan Council's Program of Projects, which includes transit projects for Metro Transit, Metro Mobility, contracted services and suburban transit providers. This hearing fulfills FTA's public participation requirements for the Program of Projects.

Public Hearing for Comments on the TIP

Wednesday, June 19, 2013 – 3:00 p.m.

Metropolitan Council Chambers

390 Robert Street North

Saint Paul, MN 55101

The TIP is prepared jointly by the Metropolitan Council and the Minnesota Department of Transportation. Projects contained in the TIP reflect the region's priorities and help implement the region's transportation plan. All specific projects are assumed to have independent utility and are fully funded unless noted otherwise in the project description. The projects in aggregate have been analyzed to determine impact on regional air quality. Progress made on implementing the region's transportation plan will be reported in the TIP. The program will be adopted by the TAB and approved by the Metropolitan Council.

Upon request, the Council will provide reasonable accommodations to persons with disabilities. In addition to providing oral or written comments at the public hearing, comments may be made in the following ways:

- Write to Metropolitan Council, Public Information at 390 Robert St. N., St. Paul, MN 55101
- E-mail to Metropolitan Council, Public Information at public.info@metc.state.mn.us
- Record a comment on the Public Comment Line at (651) 602-1500; TTY: (651) 291-0904
- Fax to Metropolitan Council, Public Information at (651) 602-1464.

Comments must be received by 5 p.m., June 28, 2013. Download the draft 2014-2017 TIP from www.metrocouncil.org. If you need a printed copy of the draft, please call (651) 602-1140; TTY: (651) 291-0904 to request a copy. Other background materials describing the Council's transportation planning and programming efforts are also available.

Questions about the hearing or transportation assumptions and technical materials should be directed to Kevin Roggenbuck at Kevin.Roggenbuck@metc.state.mn.us or Heidi Schallberg at Heidi.Schallberg@metc.state.mn.us, Metropolitan Council, 390 Robert St. N., St. Paul, MN 55101.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

Transportation Improvement Program for the Twin Cities Metropolitan Area

The Transportation Improvement Program (TIP) is updated each year by the Transportation Advisory Board and the Metropolitan Council. The federal transportation bill, [MAP-21](#), requires that all federally-funded transportation projects within the seven-county metropolitan area be included in the four-year Transportation Improvement Program. The TIP is prepared by the Metropolitan Council with assistance from the Minnesota Department of Transportation. It represents a fiscally-constrained four-year program of project delivery.

TIP Public Hearing

Metropolitan Council Public Hearing on the Proposed 2014-2017 Transportation Improvement Program (TIP) for the Twin Cities Metropolitan Area

The Transportation Advisory Board (TAB) of the Metropolitan Council will hold a public hearing on June 19, 2013, to receive public comments on the proposed 2014-2017 Transportation Improvement Program (TIP) for the Twin Cities Metropolitan Area. The program will include highway, transit, bikeway and pedestrian enhancements, and air quality projects that are proposed for federal funding in the seven-county metropolitan area in the next four years. The TIP includes the recommended projects selected through the 2011 Regional Solicitation process for federal transportation funds. The program is prepared annually and must contain all projects that are to be

implemented with federal transportation funding. This TIP also contains the Metropolitan Council's Program of Projects, which includes transit projects for Metro Transit, Metro Mobility, contracted services and suburban transit providers. This hearing fulfills FTAs public participation requirements for the Program of Projects.

Public Hearing for Comments on the TIP
 • Wednesday, June 19, 2013
 - 3:00 p.m.
 Metropolitan Council Chambers
 390 Robert Street North
 Saint Paul, MN 55101

The TIP is prepared jointly by the Metropolitan Council and the Minnesota Department of Transportation. Projects contained in the TIP reflect the region's priorities and help implement the region's transportation plan. All specific projects are assumed to have independent utility and are fully funded unless noted otherwise.

In the project description. The projects in aggregate have been analyzed to determine impact on regional air quality. Progress made on implementing the region's transportation plan will be reported in the TIP. The program will be adopted by the TAB and approved by the Metropolitan Council.

Upon request, the Council will provide reasonable accommodations to persons with disabilities. In addition to providing oral or written comments at the public hearing, comments may be made in the following ways:

- Write to Metropolitan Council, Public Information at 390 Robert St. N., St. Paul, MN 55101
- Email to Metropolitan Council, Public Information at publicinfo@metc.state.mn.us
- Record a comment on the Public Comment Line at 651.602.1500 (TTY 651.291.0904)
- Fax to Metropolitan Council, Public Information at 651.602.1464.

Comments must be received by 5 p.m., June 28, 2013. Download the draft 2014-2017 TIP from www.metrocouncil.org. If you need a printed copy of the draft, please call 651.602.1140 (TTY 651.291.0904) to request a copy. Other background materials describing the Council's transportation planning and programming efforts are also available.

Questions about the hearing or transportation assumptions and technical materials should be directed to Kevin Roggenbuck at Kevin.Roggenbuck@metc.state.mn.us or Heidi Schallberg at Heidi.Schallberg@metc.state.mn.us, Metropolitan Council, 390 Robert St. N., St. Paul, MN 55101. Your Destination... Our Priority

- ### Key Changes- STIP
- ▶ Pavement
 - Additional \$33 million in pavement funding added 2014-2016
 - Pavement funding in FY 2017 at \$72 million
 - ▶ Bridges
 - Brought three Chapter 152 bridges into this STIP
 - High Bridge in St Paul
 - 2 Downtown Minneapolis bridges on 35W
 - ▶ Mobility Program
 - Additional \$20M per year 2014-16
 - \$56M total mobility in 2017
- 

- ### 2014 Major Projects
- ▶ Infrastructure
 - St Croix River Crossing Project (\$290.6 M)
 - TH 5 Bridge @ Fort Snelling (\$11 M)
 - TH 101 Flood Mitigation Project in Shakopee (\$34 M)
 - ▶ Mobility
 - I-494 Dynamic Shoulder Lane from I-394 to I-94 (\$48 M)
 - I-35E MnPASS project (\$105 M)
 - ▶ TED/SAM
 - TH 101/CR 144 in Rogers (SAM/STP funds=\$17 M)
 - 4th Street/I-35W in Minneapolis (TED/Local Funds=\$13.5 M)
 - TH 169/CR 69 (SAM/Local Funds=\$15.5 M)
- 

2015 Major Projects

- ▶ Infrastructure
 - TH 100 from I-394 to 36th Street (\$62 M)
 - TH 149 pavement (\$6.9 M)
 - TH 36/Lexington (\$13.6 M)
 - I-35E - Goose Lake Bridge and Pavement (\$14.5 M)
 - I-35W and CR H (\$6.5 M)
- ▶ Mobility
 - TH 610 105th Street project (\$10M)
 - Snelling Avenue Bus Rapid Transit (\$6 M)
 - Congestion Management Safety Plan (CMSP) (\$14M)

2016 Major Projects

- ▶ Infrastructure
 - I-94 and TH 61 from Mounds Blvd to TH 120 (\$32.5 M)
 - TH 100 from 36th to 494 (\$10 M)
 - I-35W from CR C to I-694
 - Mill and overlay (\$10.6 M)
 - Bridges at CR E2 and CR F (\$10.7 M)
- ▶ Mobility
 - I-35E Managed Lane Implementation (as setaside for now - assuming \$20 M)
 - I-35W Auxiliary Lanes included in mill/overlay above
 - Right of Way funding for TH 610 (\$8.5M)
 - CMSP (\$2M)

2017 Major Projects

- ▶ Infrastructure
 - I-94 from Nicollet to TH 252
 - Concrete Pavement Repair (\$23.4 M)
 - Tunnel (\$4.7 M)
 - Bridge (\$11.4 M)
 - High Bridge in St Paul (\$14.1 M)
- ▶ Mobility
 - I-35W from 46th to I-94 (\$120 M)
 - 610 Right of Way (\$6.6M)
 - CMSP (\$15.5M)

Thank you

Metropolitan Council

TRANSIT FUNDING IN THE TIP

TAC May 1, 2013

Transit in the TIP

- The TIP includes all transit projects with federal funding, both capital and operating
 - Projects planned to use federal formula funds
 - Transit projects funded with CMAQ through the regional solicitation
 - Federal Transit Administration competitive grants and earmarks awarded to the Council and others

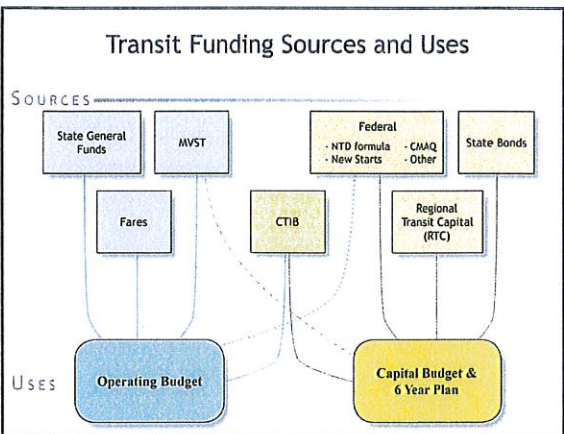

Transit in the TIP

- 2014-2017 TIP - Transit Projects
 - CMAQ projects:
 - CCLRT operations, Park & Rides, Demo Bus Routes, TDM
 - New Starts and Discretionary:
 - CCLRT and Southwest LRT Capital
 - FTA Formula Funds:
 - Components of Council CIP and Operating Budget (5307)

Continued on Next Slide

Transit in the TIP

- 2014-2017 TIP - Transit Projects
 - FTA Formula Funds (continued):
 - State of Good Repair (5337) – preservation only
 - High Intensity Fixed Guideway – Rail maintenance, LRV replacement, LRV Overhaul
 - High Intensity Bus – Bus replacement, maintenance & maintenance facilities, passenger facilities maintenance
 - Bus and Bus Facility (5339) – Bus replacement and Bus Facilities Maintenance – preservation only

Capital Planning

Council annually prepares a 6-year transit Capital Improvement Plan (CIP)

CIP includes all local, state and federal (formula and competitive) funds expected to be received by the Council

CIP includes funds that Council (as designated federal recipient) receives/passes through to other transit entities

TPP and CIP Priorities

Maintain Current System

- Replace vehicles per fleet management plans
- Maintain & repair existing facilities

Expansion

- Seek to meet 2030 goal of doubling ridership through:
 - Building Transitways
 - Central Corridor
 - Other Transitways
- Bus Expansion
 - Provide fleet and facilities expansion where demand exists or is anticipated

Metropolitan Council

Transit Capital Spending

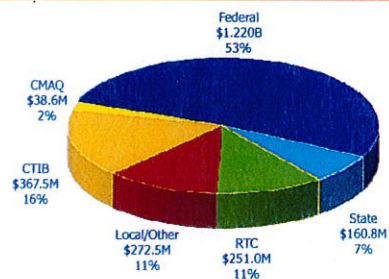

Capital spending is about \$140-\$160 M annually (excluding major transitways)

Spending primarily for fleet replacement, existing fleet and facility maintenance, park and rides, garages & other facilities, technology, limited expansion

Major transitway construction can more than double annual capital spending, i.e. Central Corridor will average \$200+ M per year

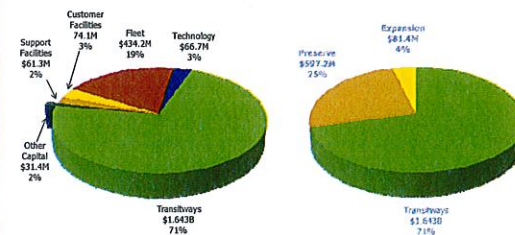

Metropolitan Council

2013-2018 CIP Revenue Sources Total: \$2.31B – Includes CCLRT & SWLRT

Metropolitan Council

2013-2018 CIP: \$2.31B Uses Includes CCLRT & SWLRT

Metropolitan Council

Twin Cities Metropolitan Area

Draft 2014-2017 Transportation Improvement Program

Transportation Advisory Board, May 15th

What is a TIP?

- Four-year list of transportation projects funded in whole or part with Federal funding
- Must include all projects funded with federal transportation funds and projects that affect air quality prioritized by year
- "Regional Capital Improvement Program" for use of federal transportation funds
- Required for all Metropolitan Planning Organizations (MPOs)
- Provides connection between regional planning and federal implementation assistance

TIP Specifics

- Assures conformity with Clean Air Act Requirements
- Region revises and adopts annually
- TIP included in State Transportation Improvement Program (STIP) developed by MnDOT
- Key Responsibility of TAB: Prepare, Adopt and Maintain TIP
- Locally Elected Officials Must Program Federal Funds
- Regionally Selected STP, CMAQ, Transportation Alternatives Projects Included
- Amendments as Needed

Key Criteria for TIP and Amendment Approvals

- Consistent with expected funding level – fiscally balanced TIP
- Consistent with regional transportation plan
- In conformity with Clean Air Act requirements
- Opportunity for public input

Twin Cities Transportation Capital Funding Process Percentage of Funding Source 2014-2017 TIP

	Federal Selection	Regional Solicitation Selection	MnDOT Metro Selection	Metro Transit & Other Providers Selection*
All Funding	1%	18%	44%	36%
Federal Funding	2%	24%	30%	44%

*Transit includes New Starts funding

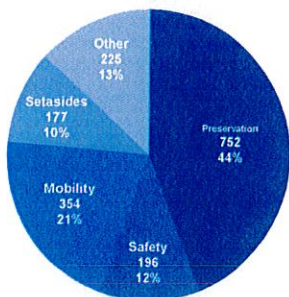

Source of Funds 4-Year Summary

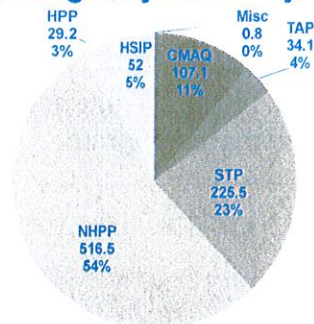

Source	Amount (Millions)	Percentage
Federal Highway	965	31%
Federal Transit	739	23%
Local and State Taxes	707	22%
State Trunk Highway	772	24%

Sections shown in millions
Total – \$3.2 Billion

Highway Funds Allocation by Work Type – Consistency with TPP

Federal Highway Summary

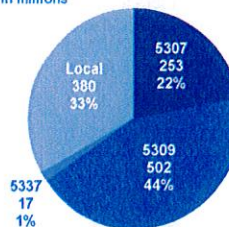

Regional Solicitation

- Includes STP, CMAQ, TA projects for 2015 and 2016 from 2011 solicitation
- Example projects:
 - Brooklyn Park: \$11.2 M to reconstruct Hennepin County Highway 81 into multi-lane highway with median, multiuse trail
 - Scott County: \$8.4 M for reconstruction of County Hwy 17 as 4-lane highway w/ multi-use trail between Co Hwys 78 & 42
 - Edina: \$11.4 M for pedestrian/bicycle trail between Tracy, France Avenues
 - Limited stop transit service in Minneapolis, Richfield, Bloomington, St. Paul, Maplewood

Federal Transit Summary

Sections shown in millions
\$1.15 B total

Schedule for 2014-2017 TIP

- TAB approves draft for public review – May 15, 2013
- Public hearing at TAB meeting – June 19, 2013
- Public review/comment period ends – June 28, 2013
- TAB considers comments, approval – August 21, 2013
- Transportation Committee – September 9, 2013
- Metropolitan Council concurrence – September 25, 2013
- MnDOT inclusion into STIP – September/October
- Federal approvals – By November 2013

METROPOLITAN COUNCIL

Metropolitan Council Chambers, 390 North Robert St., St. Paul, MN 55101

Wednesday, June 19, 2013

3:00 P.M.

Public Hearing on the DRAFT 2014-2017 Transportation Improvement Program (TIP) for the Twin Cities Metropolitan Area

CALL TO ORDER

Transportation Advisory Board Chair William Hargis called the public hearing on the DRAFT 2014-2017 Transportation Improvement Program (TIP) for the Twin Cities Metropolitan Area to order at 3:00 pm, June 19, 2013, Metropolitan Council Chambers, 390 North Robert St., St. Paul. Chair Hargis invited members of the public to provide comments and ask questions.

Staff present:

Amy Vennewitz, MTS
Heidi Schallberg, MTS
BrieAnna Simon, MTS

Ryan Gaug, MnDOT
Kevin Roggenbuck, TAB

Attendees:

Kris Radford, KMR Design Group
Shosh Dworsky, Citizen, Apple Valley
Kathleen Murphy, Transit for Livable Communities
Adam Duininck, Metropolitan Council District 8
Gary Van Eyll, Metropolitan Council District 4
Susan Moe, Federal Highway Administration
Todd Olson, Association of Metropolitan Municipalities
Peter Berglund, Metropolitan Council Environmental Services

Ryan Gaug presented information on the amount of federal and state funds that are allocated statewide by MnDOT and the investment philosophy that guides the allocation. Mr. Gaug described the Metro District transportation investments by program for fiscal year 2017, the first year affected by the Metro District investment outcomes for all four years of the TIP and highlighted major projects in the Program.

Kevin Roggenbuck described how the TIP is developed and which organizations program transportation funds in the TIP. Mr. Roggenbuck also described how the TIP is prepared and adopted, including the public involvement process, and finally approved by the US Department of Transportation.

Amy Vennewitz presented information on the amount of federal funds that are allocated toward transit projects in the metro area by the Metropolitan Council. Ms. Vennewitz described the different federal sources of funds and described the council's capital planning process. Ms. Vennewitz highlighted several major transit projects programmed in the TIP, including federal New Starts funding for the Southwest light rail transit line.

Comments and Questions from the public in attendance:

Kathleen Murphy, Transit for Livable Communities, expected that the Southwest light rail transit line would start in 2014 and commented on the delay in funding and implementation of the Southwest light rail transit line. Transit for Livable Communities has been lobbying the Governor's office and legislators to begin construction in 2014 but without success.

Ms. Vennewitz responded: Met Council is working with the federal government, currently in Preliminary Engineering, and is fully funded with local funds, the project is not delayed. What you see in the TIP is when the Council first expects to receive federal funds. Once the Council gets approval to enter the construction phase, the the federal government will commit funding and be received in 2016.

Heidi Schallberg described what the TIP is and explained the four federal requirements that must be met in preparing the TIP and the schedule for adoption and approval. Ms. Schallberg described the percentage of federal funds and total funds that are programmed in the TIP by the Metropolitan Council, Minnesota Department of Transportation and the TAB.

Shosh Dworsky, resident of St. Paul: Said she is excited about bus service between the MSP Airport and the Apple Valley transit center and asked whether it would help get her to work in Northfield.

Ms. Schallberg responded: The Cedar Avenue bus rapid transit line will serve Apple Valley and is scheduled to open on June 22, but also asked for her contact information to more directly answer her question.

Kris Radford, KMR Design Group: Encouraged de-bundling of work on large transportation projects for small women and minority landscape businesses.

Mr. Hargis responded: MnDOT and Council staff has heard you and will pass that comment along to those developing large transportation projects.

Those present were reminded of the public comment period and encouraged to submit their comments as directed on the Metro Council website.

ADJOURNMENT

Hargis adjourned the public hearing on the DRAFT 2014-2017 Transportation Improvement Program for the Twin Cities Metropolitan Area at 3:45 pm on Wednesday, June 19, 2013.

Respectfully submitted: Kevin Roggenbuck, TAB Transportation Coordinator

Transportation Advisory Board: Public Hearing

The public may comment at the public hearing on the draft 2014-2017 Transportation Improvement Program. If you are interested in providing comment, please provide your name, the name of the organization you represent, (if applicable) in the space below.

Roseville, MN 55113

June 28, 2013

William Hargis, Chair
Transportation Advisory Board
Metropolitan Council
390 North Robert Street
St. Paul, Minnesota 55101

Dear Mr. Hargis:

The Minnesota Department of Transportation (MnDOT) has worked closely with the staff of the Metropolitan Council and the Transportation Advisory Board (TAB) and the Technical Advisory Committee (TAC) in development of the draft 2014-2017 Transportation Improvement Program (TIP). As part of our normal process, several minor changes have occurred since that time, including end-of-year changes affecting a number of individual projects.

The attached tables identify the individual proposed changes to the draft 2014-2017 TIP. These changes are, for the most part, end of fiscal year balancing changes, and projects shifting among years of the TIP along with any additions or deletions. In addition to changes in these tables, some changes have been made to "Advance Construction" and "Advance Construction" paybacks due to projects moving between years of the TIP, and actual project letting costs have been updated.

With the proposed changes, we believe that the TIP remains fiscally balanced in the first two years, and generally balanced in the remaining years. These proposed changes do not affect the air quality conformity analysis of the TIP, as we have discussed with staff of the Minnesota Pollution Control Agency and the Metropolitan Council.

Thank you for the opportunity to comment on the 2014-2017 TIP for the Twin Cities area by providing these proposed changes.

Sincerely,

A handwritten signature in blue ink that reads "Scott McBride".

Kevin Roggenbuck,

Here are Hennepin County Transportation comments on the Draft 2014 - 2017 TIP. One project (CSAH 53 – 027-653-021) has a minor description correction to make it consistent with the approved project application description. All the projects CSAH 5 (027-605-029), CSAH 61 (027-661-046), CSAH 53 (027-653-021) and CSAH 81 (027-681-034) CSAH 135 (027-735-003) have cost changes due to refinements in estimating the project cost, not changes in project scope. The bridge project estimate for CSAH 135 (027-735-003) is for bridge construction only and excludes R/W and related work beyond the abutments such as roadway approaches. The total change in project costs do not trigger the need for a TIP/STIP amendment based on FHWA and MnDOT guidance for STIP amendments and administrative modifications. Changes are shown in **BOLD**. All additional costs are shown as non-federal. Please accept these construction estimate changes pending review by staff as to how they might affect the project’s ranking in the regional solicitation.

Draft Tip Comments

Table A3 Agency	Route	Project #	Prog	Description	Current TIP <i>Refined estimate</i> <i>% change</i>	FHWA	Other

Heidi,

Below are Minneapolis comments regarding two of our projects in the draft TIP. Please let me know if there are any questions regarding these. We've provided both the total project cost and construction only cost as well.

Thanks Much.
Jeni

STP 2014 141-454-001 Replace BR90664
Total cost = \$27,100,000 (const only \$23,000,000) Local share = \$18,140,000 (const only \$14,040,000)

STP 2015 141-328-004 BR2796
Total cost = \$11,700,000 (const only \$7,500,000) Local share = \$8,330,700 (const only \$4,130,700)

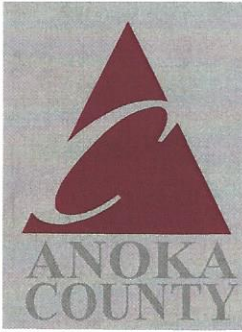

In both cases there is no change to the federal funding share.

Re: Draft 2014-2017 TIP

Dear Mr. Roggenbuck:

Thank you for the opportunity to review the 2014 -2017 TIP and to make comments on the program as a whole. Surface transportation policies at the regional and state levels have a direct impact on the quality of life that our residents enjoy, as well as direct impacts to the growth and economic vitality of Anoka County. Your report states that 60 percent of new households and 45 percent of new employment opportunities will be in developing areas, which describes much of Anoka County. However, with this new growth come new challenges. Our transportation systems are being asked to carry more traffic and we, along with our local communities, are asked to convey more of the burden of transportation funding for routes that have major state and regional significance.

With this being said, it is concerning that when a resident of the metro region who resides in Anoka County looks at this plan he will see that significant inequalities are apparent. The lack of major projects in Anoka County is concerning. But for the STP and HSIP projects that Anoka County has directly competed for and garnered, there is a complete absence of projects in Anoka County. Unless we are reading this document incorrectly, how can it be that Anoka County will receive only one minor project in the NHPP program, and no projects in the CMAQ and TAP funding categories? These three programs represent over \$1 billion in investments for the metropolitan area but practically none of it is being spent in Anoka County. Anoka County represents 14.4% (2,364 miles) of the roadway miles in the 7-county metro area and carries 11.2% (8.2 million daily VMT) of the traffic volume. While the funding splits of the STP (8.78%) and HSIP (5.21%) are somewhat reflective of an equitable regional split, the lack of funding through the other programs is very disturbing.

Mr. Kevin Roggenbuck
June 28, 2013
Page 2 of 2

It is our hope therefore, that as the region implements the new MAP-21 legislation and sets regional priorities, it continues to allow a fair and robust competition for these funds, and for those funds that a solely at the discretion of MnDOT, TAB or the Metropolitan Council, that a fair and equitable distribution is made across the entire metro area including Anoka County.

Again, thank you for the opportunity to comment on the draft 2014-2017 TIP. If you have any questions or need additional information, please feel free to let me know.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Douglas W. Fischer', with a long horizontal flourish extending to the right.

Douglas W. Fischer, P.E.
County Engineer

RE: TIP Public Comment

Dear Mr. Roggenbuck:

The purpose of this letter is to provide Scott County comment on the proposed 2014 – 2017 Transportation Improvement Program (TIP). The County has reviewed the TIP in relation to our own planning and budget. The County provides the following comments:

1. Scott County has programmed Highway Safety Improvement Project (HSIP) SP 070-602-020 (roundabout at CSAH 2 and CSAH 46) for construction in 2014 to coincide with a 2014 Dakota County project (SP 019-609-018). Scott County requests the HSIP funding to be advanced from 2015 to 2014. If it is not possible to move the funds to 2014, the County requests to Advance Construct this HSIP project in 2014. We request this change is reflected in the final TIP.
2. In the description for project 7005-106, under 100% State Funded Project in 2016, the eastern project limit should be revised to CSAH 21 instead of CSAH 18. The County redesignated a portion of CSAH 18 as CSAH 21 when a new segment of CSAH 21 opened to traffic in 2011.

Thank you for the opportunity to comment on the proposed TIP. Please contact me if you have any questions.

Sincerely,

Mitchell J. Rasmussen P.E.
County Engineer

**RE: Metropolitan Council Notice of Public Hearing on the Proposed 2014-2017
Transportation Improvement Program (TIP)**

Dear Mr. Roggenbuck

Washington County has received the public notice that the Transportation Advisory Board (TAB) of the Metropolitan Council will hold a public hearing on June 19, 2013, to receive public comments on the proposed 2014-2017 Transportation Improvement Program (TIP) for the Twin Cities Metropolitan Area. Washington County has participated in this program that includes highway, transit, bikeway and pedestrian enhancements, and air quality projects that are proposed for federal funding in the seven-county metropolitan area in the next four years.

The county has reviewed the proposed TIP for conformance and found it consistent with the current Washington County Comprehensive Plan 2030. However, the county has not been successful in obtaining STP funding for a number of projects that were of regional significance. Currently, there are two identified Washington County projects in the TIP which include:

2014 082-090006 Right-of-Way Acquisition and Trail Improvements in the City of Hugo for the Hardwood Creek Regional Trail Extension

2015 082-090-005 Trail Improvements for the Point Douglas Regional from US 61 to US 10 in Demark Township

Washington County will continue to work with the Metropolitan Council on updating the regional policy plans in the next few years and look forward to implementing highway, transit, bikeway and air quality projects that not only benefit Washington County but the Metropolitan Region.

Sincerely,

A handwritten signature in black ink, appearing to read "Wayne Sandberg".

Wayne Sandberg
County Engineer

Subject: RE: 3 transit projects coming for 2014-17 TIP
Attachments: Additions to 2014-2017 ATIP - Metropolitan Council - 6-24-2013.xlsx

Importance: High

Greetings,

Attached is the STIP template with the four (4) projects.

One project – the first one – is actually already in the 2014-2017 draft ATIP but doesn't have enough funding in the line. I discovered this on Friday.

The other three are projects that were supposed to be done this year but because of lack of NEPA authorization were not able to be applied for from FTA. So, two were actually deleted when I did the draft 2014-2017 STIP in February 2013 because I thought they were going to be done in 2013. The final one which shows a project # of NEW is truly a new project that was in our Capital Improvement Plan and would have needed a STIP amendment in 2013 but now has to wait until 2014 for NEPA.

Please call me with your questions, Cindy and Marv!! ☺

Best regards,

Mary

Adding Quality to Life

June 11, 2013

Metropolitan Council
Mears Park Centre
230 East Fifth Street
St. Paul, MN 55101-1634

To Whom It May Concern:

I am writing in response to the Metropolitan Council's Transportation Advisory Board (TAB) request for comments on the 2014-2017 Transportation Improvement Program (TIP). My comments are specific to the I-494 Unbonded Concrete Overlay and Right Side Dynamic Shoulder (referred to as S.P. 2785-330 by MnDOT) project included in the program. This project is very important to Plymouth, the community that I represent as mayor.

While the City Council is disappointed that MnDOT has not included a project for I-494 that reflects a general purpose third lane, we are fully aware of the fiscal limitations they have for a project of this magnitude. We also appreciate MnDOT's efforts to work within those constraints and support any capacity improvements on I-494.

For your information I have attached a copy of the City's 2010 comments on the Metropolitan Council's Regional 2030 Transportation Policy Plan.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kelli Slavik', written over a white background.

Adding Quality to Life

September 20, 2010

Metropolitan Council
Mears Park Centre
230 East Fifth Street
St. Paul, MN 55101-1634

To Whom It May Concern:

I am writing in response to the Metropolitan Council's request for comments on the Regional 2030 Transportation Policy Plan. My comments are specific to the I-494 Third Lane Addition (referred to as S.P. 2785-330 by MnDOT) project included in the plan. This project is very important to Plymouth, the community that I represent as mayor.

The Project in Historical Context

Because I-494 goes from three to two lanes through Plymouth, causing bottleneck congestion, adding a third lane has been a priority of the Plymouth City Council for many years. Beginning in 2005, former Council Member Sandy Hewitt and staff represented the City of Plymouth on various working committees that were charged with developing a plan to add a third lane on I-494 from TH 55 to Fish Lake Road in Maple Grove.

As the planning of that project progressed, so did the magnitude of the improvements. In 2006, the debate had evolved to whether the improvements to I-494 should include three lanes in each direction or four. As the project scope grew, so did the price tag. The estimated cost was about \$245 million. MnDOT ultimately determined that a project of this magnitude was unaffordable. Consequently, the project was shelved.

In late 2008, MnDOT advised the City of Plymouth that it was developing a smaller scale, low cost/high impact improvement for I-494 in Plymouth (see attached Project Summary).

On February 17, 2009, city staff members and I met with MnDOT representatives to discuss the specifics of their proposal. It was a project that MnDOT was enthusiastic about. We were encouraged to hear that the proposal, which had a dramatically lower cost of \$43 million, would yield exceptionally high returns in terms of easing congestion. We were also pleased to hear that the project could be shovel-ready for additional stimulus funding as soon as 2012.

In January 2010, MnDOT staff met with city staff and me. We learned that MnDOT had changed course. Instead of the \$43 million project presented in February 2009, MnDOT and the Metropolitan Council were considering the I-494 lane addition as a strong candidate for a “managed lane.” This came as a surprise to us given the historical context provided above.

We subsequently met with area appointed and elected officials as well as staff from the Metropolitan Council and MnDOT to discuss the managed lane concept. During that meeting it became clear that whether a managed lane made sense for this stretch of I-494 was secondary to getting a jump start on a managed lane system for the metro as a whole. At this meeting we heard statements like, “We will never have a managed lane system if we don’t start now” as the reasoning behind this proposal. We were advised by MnDOT not to make up our mind about the managed lane until further analysis was done.

Comments on Proposed I-494 Managed Lane

It is with this historical context as a backdrop that I offer the following comments on your plan:

- **Page 93, Table 6-32:** “Lower-Cost/High-Benefit Projects Recently Completed/Under Development” fails to include the \$43 million option proposed by MnDOT in 2009 despite its findings that the project has an extremely high benefit/cost ratio.
- **Page 96, Figure 6-34:** “Managed Lane System Vision” identifies the interchange of I-494 and I-394, a managed corridor already in place, as “Through Movement Only” rather than “Direct Connection.” This seems to contradict the statement on page 98 of your plan that “...opportunities for new managed lanes will be sought with the objective to grow and builds upon and connects to managed corridors already in place...”
- **Page 97, Table 6-35:** “Managed Lane Vision Projects” identifies Corridor I-494 A as adding a left MnPASS lane at a cost of \$61 million. It seems that this conclusion has been arrived at despite there being no additional analysis that I am aware of.
- **Page 99, Table 6-36:** “Expansion Projects Reassessed” and **Page 100, Figure 6-37:** “Expansion Projects to be Reassessed” identify the previous \$245 million project on I-494 as an expansion project that should be reassessed. Both are silent to the \$43 million option proposed by MnDOT in 2009 despite its findings that it has an extremely high benefit/cost ratio. This conflicts with page 101 of the plan, which state, “Particular emphasis has been placed in the reassessment process to identify lower-cost/high-benefit improvements.”
- **Page 102, Table 6-38:** “TPP Major Project Funding Recommendations” identifies the I-494 managed lane project as funded in the 2021-2030 timeframe, provided the funding scenario in Table 6-29 is achieved. This funding scenario assumes supplemental funding in addition to formula funds. The timing and funding uncertainty is disconcerting given the history of this project as identified above.

In conclusion, in 2010 the Plymouth City Council adopted the following goal:

“Promote Transportation Solutions. Advance transportation and transit solutions to improve the local economy, promote business growth and development, and improve area roadways and highways to reduce commuter congestion. Focus on maintaining suburban transit and advancing the following projects: third lane on I-494, study of Highway 169 between I-494 and I-94, and improvements to Highway 55.”

This has long been a goal of ours, and we will continue to strive to achieve it. We believe that greater consideration should be given to the lower cost option proposed by MnDOT in 2009 and that consideration be given to advancing that project so that construction can begin as soon as possible.

Based on MnDOT’s own assessment, this is a lower cost/extremely high benefit project that would ease congestion sooner rather than later. It would also not treat this relatively short segment of I-494 in Plymouth differently than it has been treated on either side of our community.

Thank you for your consideration of our comments. We encourage you to reassess instituting the concept of a managed lane “mid-stream” on I-494 in Plymouth, and instead look for areas where it will better integrate with the existing freeway system.

Sincerely,

Kelli Slavik
Mayor

Subject: I494 Widening

I am writing to strongly support the road project that will eventually widen I494 from I394 to the I694 split. This project needs to remain high on any priority of work project list and be completed without further delay or reduction in funding/prioritization.

The Twin Cities cannot continue to live with this bottleneck to both morning and evening traffic. Any honest evaluation will certainly show how the current traffic situation will continue to worsen traffic flow and certainly affect the quality of life and commute times in the Western suburbs..

Subject: DRAFT 2014–2017 TIP Comment

I am writing in support of the proposal of a noise reduction barrier on I-494 North beyond I-394 in Plymouth (pages A-21 and A-23 of Appendix A of the Draft TIP 2014-17).

We bought in 2011 a newly constructed house in Plymouth on the west side of I-494. Even though the house is by no means adjacent to the highway (at a distance of 2 large houses and a marshland), we still hear highway I-494 noise constantly, particularly in the night and in the summer. We cannot use our deck- the noise is bothersome and we cannot go to sleep with our windows open. There are a number of houses in our neighborhood (our address 14420 10th Avenue North, 55447) and so this is definitely bothersome to many people-particularly the elderly and young children. Therefore, I urge the Metropolitan Council (or appropriate authority) to please construct an effective noise barrier on the West side of I-494 in Plymouth. If you need any further information, I can be reached at: 609-705-1492 and at this email address.

Best regards,
Amit Mukherjee

To: PublicInfo
Subject: Public Comment on 2014-2017 TIP for Twin Cities Metro Area

Hello,

I would like to request that a wall to reduce noise, as seen on many other roads in the metro area (e.g., I-494 south of I-394), be erected on the west side of I-494 from 394 north to the Highway 6 exit (or even to 694) - the noise from the highways is quite loud, and can be a significant detriment to our neighborhood and other neighborhoods' quality of life (I know of many other neighbors who also would like a wall installed).

I've reviewed the most recent draft TIP and note that MnDOT has included a potential project on I-494 from north of I-394 in Minnetonka to the I-94/494/694 interchange in Maple Grove (pages A-21 and A-23); I humbly submit that this would be an excellent use of resources.

The east side of this area is light industrial with some commercial, so it would not necessarily need a similar wall, enabling cost savings. Thank you for the opportunity to comment!

Best regards,

Brian Hayes

Transportation Advisory Board

of the Metropolitan Council of the Twin Cities

TO: Metropolitan Area Transportation Stakeholders and Citizens:
FROM: Kevin Roggenbuck, TAB Transportation Coordinator
DATE: July 16, 2013
RE: Draft 2014-2017 Transportation Improvement Program for the Twin Cities Metropolitan Area: Report on public comments and staff recommendations.

The Transportation Advisory Board held a 45-day public comment period on the draft 2014-2017 Transportation Improvement Program, beginning on May 15 and ending on June 28, 2013. All comments received at the public hearing held on June 19, 2013 are included in the public hearing report and all written comments received by the close of the public comment period are attached to this memo. Below is a summary of the comments received outside of the public hearing during the public comment period with staff response and recommendations.

COMMENTS RECEIVED DURING THE PUBLIC COMMENT PERIOD

Brian Hayes, Resident, City of Plymouth

Staff received an email dated May 21, 2013 with the following comment:

Mr. Hayes requested construction of a noise wall on the west side of I-494 from I-394 north to the CSAH 6 exit or to I-694, noting that a potential project is listed in the draft TIP.

Staff response and recommendation: The project, SP# 2785-330, (I-494 unbonded concrete overlay and right side dynamic shoulder from I-394 to I-694/I-94 split) programmed in 2014 includes the construction of noise walls. The exact location of the noise walls will be determined during project development.

Jim Unterseher

Staff received an email dated May 21, 2013 with the following comment:

Mr. Unterseher expressed support for the road project that will eventually widen I-494 from I-394 to the I-694 split.

Staff response and recommendation: Staff assumes Mr. Unterseher is referring to SP# 2785-330, (I-494 unbonded concrete overlay and right side dynamic shoulder from I-394 to I-694/I-94 split) programmed in 2014. Staff thanks Mr. Unterseher for his support.

Amit Mukherjee, Resident, City of Plymouth

Staff received an email dated May 22, 2013 with the following comment:

Mr. Mukherjee expressed support for the construction of a noise barrier in I-494 beyond I-394 in Plymouth.

Staff response and recommendation: The draft 2014-2017 TIP includes SP# 2785-330, (I-494 unbonded concrete overlay and right side dynamic shoulder from I-394 to I-694/I-94 split) programmed in 2014. The project scope includes the construction of noise walls. The exact location of the noise walls will be determined during project development.

Kelli Slavik, Mayor of Plymouth Minnesota

Staff received a letter dated June 11, 2013 and an attachment; a letter dated September 20, 2010 addressed to the Metropolitan Council, with the following comment:

Mayor Slavik stated that SP# 2785-330 (unbonded concrete overlay and right side dynamic shoulder from I-394 to I-694/I-94 split) is very important to the city of Plymouth. The city council was disappointed that the draft 2014-2017 TIP did not a third general purpose lane on I-494 but appreciates that MnDOT is able to provide some capacity improvement given its fiscal constraints.

Staff response and recommendation: MnDOT's State Highway Investment Plan illustrates that the lack of available funding and the high cost of adding mixed use capacity to the region's freeway system limits their ability to address mobility needs. The addition of dynamic shoulder lanes is one tool to address mobility needs as a low cost, high benefit type of project.

Mary Gustafson, Grants Manager, Metro Transit

Staff received an email dated June 24, 2013 and an attached spreadsheet. Ms. Gustafson requested the following changes in program year 2014 in Table A-10; Section 5307 Transit Funding:

- Increase the federal Section 5307 and matching fund amount on TRF-TCMT-14BA (Central Corridor bus facilities and Como Park facility improvements) to adequately fund the project.
- Include TRF-TCMT-14AJ (overhaul base renovation and maintenance shop) and TRF-TCMT-14T (new police facility) with amounts listed on the attached spreadsheet. These projects were not ready for delivery in 2013 as anticipated and need to be carried over to 2014.
- Add a new project, TRF-TCMT-14BC, construction of a light rail platform station at Nicollet Mall, Minneapolis.

Staff response and recommendation: Section 5307 program funds are one of several federal transit program funds that come to the Metropolitan Council as the designated recipient for the region. The adjustment of these funds and the inclusion of a new project represent the normal adjustment to the Program of Projects at the end of a fiscal year. Staff recommends that these changes be included in the final 2014-2017 TIP.

Wayne Sandberg, Washington County Engineer

Staff received a letter dated June 25, 2013 with the following comment:

The proposed TIP is consistent with the current Washington County Comprehensive Plan 2030; however, the county has not been successful in obtaining STP funds for certain regionally

significant projects. Mr. Sandberg cited two TAP projects in Washington County in the draft 2014-2017 TIP.

Staff response and recommendation: The draft 2014-2107 TIP includes projects only within that four-year timeframe. While the current TIP does not include many projects in Washington County, over a longer period of time, the distribution of federal transportation funds has been more geographically equitable. Washington County, along with other local governments, agencies and special interest groups, should continue to advocate for funding of their priority projects..

Mitchell Rasmussen, PE, Scott County Engineer

Staff received a signed letter dated June 27, 2013 with the following comments:

- Scott County requests that the federal Highway Safety Improvement Program funds for project SP# 070-602-020 (CSAH 46 roundabout construction) be advanced from 2015 to 2014 or allow Scott County to Advance Construct the project in 2014, to coincide with a Dakota County project.
- The description of SP# 7005-106 (Table A-8; reconstruct TH 169) should list the eastern project limit as CSAH 21 instead of CSAH 18 because that portion of CSAH 18 was re-designated as CSAH 21 when it was opened to traffic in 2011.

Staff response and recommendation: The region does not have available HSIP funding in program year 2014 but staff recommends that the project be Advance Constructed with local funds in 2014 with the Advance Construction payback in program year 2015. Staff recommends that the description of SP # 7005-106 be changed to reflect the current CSAH designation.

Douglas Fischer, PE, Anoka County Engineer

Staff received a signed letter dated June 28, 2013 with the following summarized comments:

Anoka County lacks major projects in the 2014-2017 TIP and received a disproportionately low share of funding compared to highway miles and daily vehicle miles traveled in the County. The TIP includes only one small NHPP project and does not include any CMAQ or TAP funded projects in Anoka County. As the region implements MAP-21, it should continue to allow fair and robust competition for the regional solicitation funds, and that the distribution of other funds is done fairly and equitably across the region.

Staff response and recommendation: The draft 2014-2107 TIP includes projects only within that four-year timeframe. While the current TIP does not include many projects in Anoka County as Mr. Fischer points out, over a longer period of time, the distribution of federal transportation funds has been more geographically equitable. Anoka County, along with other local governments, agencies and special interest groups, should continue to advocate for funding of their priority projects.

Jenifer Hager, PE, City of Minneapolis

Staff received an email letter dated June 28, 2013 with the following comments:

Minneapolis requested that the “Total” and “Local Share” costs of bridge project SP# 141-454-001 (St. Anthony Pkwy. over BNSF) be increased and bridge project 141-328-004 (10th Ave. over Mississippi River) be reduced.

Staff response and recommendation: The requested cost changes reflect more accurate estimates as these projects proceed through the development process. The cost changes do not affect the projects’ score and rank in the regional solicitation process because cost effectiveness is not part of the criteria. Staff recommends that the cost adjustments be included in the final 2014-2017 TIP.

Tom Johnson, Transportation Planning Engineer, Hennepin County

Staff received an email dated June 28, 2013 and an attached table with the following comments:

Hennepin County requests that the “Total” and “Other” or local costs of five projects listed in the table be adjusted to reflect more current cost estimates, and that the description of SP# 027-653-021 be changed to more accurately reflect the project scope as described in the original application.

Staff response and recommendation: The cost changes reflect more accurate estimates as the projects proceed through the development process and they do not appear to affect the project’s score and ranking in the regional solicitation process. The requested change in project description does better match the project description found in the original STP application. Staff recommends that the cost adjustments and project description changes be included in the final 2014-2017 TIP.

Scott McBride, Metro District Engineer, Minnesota Dept. of Transportation.

Staff received a letter dated June 28, 2013 requesting that a number of changes be made to state and local projects listed in the Public Hearing copy of the draft 2014-2017 TIP. Mr. McBride stated that this reflects end-of-the-year changes affecting a number of individual projects. Attached to the letter were several tables listing projects to be deferred, projects to be deleted, projects to be advanced and a table of new projects to be added.

Staff response and recommendation: The changes described in the tables sent with Mr. McBride’s letter reflect MnDOT’s normal end of fiscal year balancing changes, updated project cost estimates, new project funding commitments and projects shifting among program years within the TIP timeframe. Staff recommends that the changes provided in the attached tables be incorporated into the final 2014-2017 TIP.
