# Metro Transit Service Improvement Plan

Help shape the future of Metro Transit bus service We're setting priorities for our growing transit system

Transportation Committee
April 13, 2015

Cyndi Harper
Manager of Route Planning

Kyle Burrows
Transit Planner

a service of the Metropolitan Council

## What is the Service Improvement Plan (SIP)?

- Bus service expansion plan
  - Builds on existing network
  - Identifies potential new routes, frequency and span improvements on existing routes
- Prioritized, specific list of how to grow and improve local and express bus service between 2015-2030
- Establish a framework of when and how to expand the bus network
- Implementation requires additional operating funds
- Informs the legislative program, Regional SIP, and other transit funding opportunities

#### **SIP Evaluation Criteria**

- Productivity criteria demonstrate the ridership potential of service improvements using land use and density factors (50% weight)
- Social equity criteria evaluate how well improvements serve people most reliant on transit (25% weight)
- System connectivity criteria establish how well projects improve connections and service throughout the Metro Transit service area (25% weight)

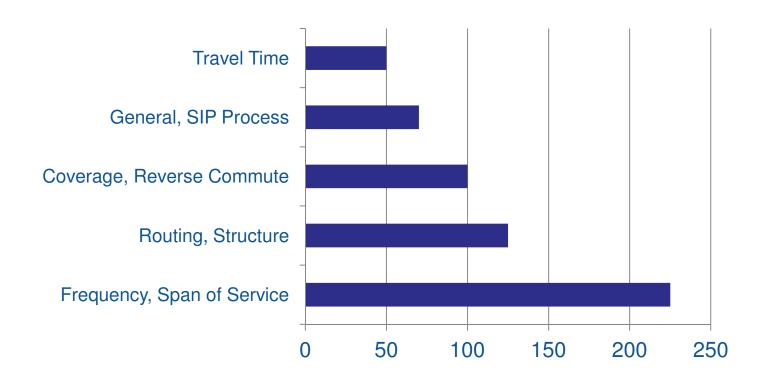

## **SIP Scoring**

- Three project priority categories
  - High 75 percent of possible points or greater
  - Medium 55 percent of possible points or greater
  - Low less than 55 percent of possible points
- High and Medium projects prioritized for implementation
  - Represent resource requirements and ridership growth in SIP
  - Arterial BRT included in resources but not evaluated under SIP
- Implementation Phases
  - **–** 2015-2017; 2018-2020; 2021-2030

#### Nov. 2014 Public Comment Period

Received 570 service suggestions; 176 contacts from individuals and organizations

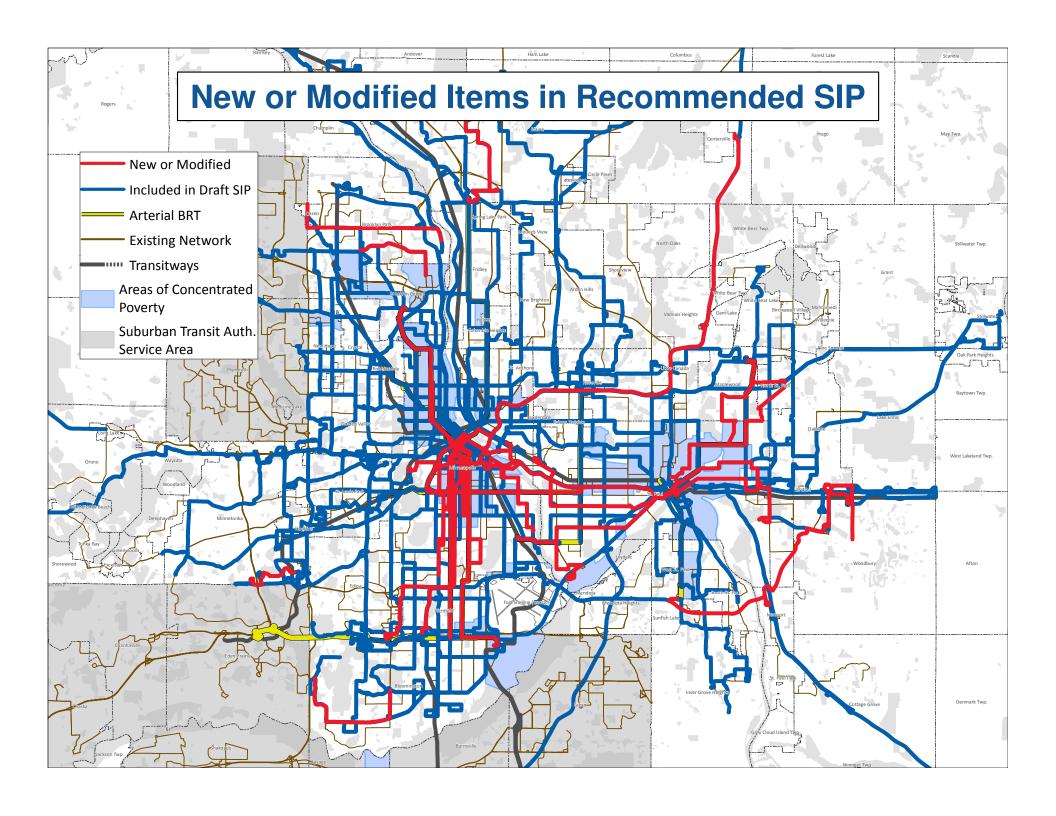

#### **SIP Modifications**

- Guiding principles, evaluation criteria reviewed and clarified
  - Improve transit equity
  - Define key destinations
  - Weight high-frequency routes and transitways higher
  - Compared with regional solitication evaluation criteria
  - Evaluated park-and-ride based routes in all relevant categories
- 24 new projects were evaluated

#### **Evaluation Results**

- 50 High projects
  - 9.7 Million new rides
- 87 Medium projects
  - 8.8 Million new rides
- 11 Arterial BRT projects
  - 10.2 Million new rides

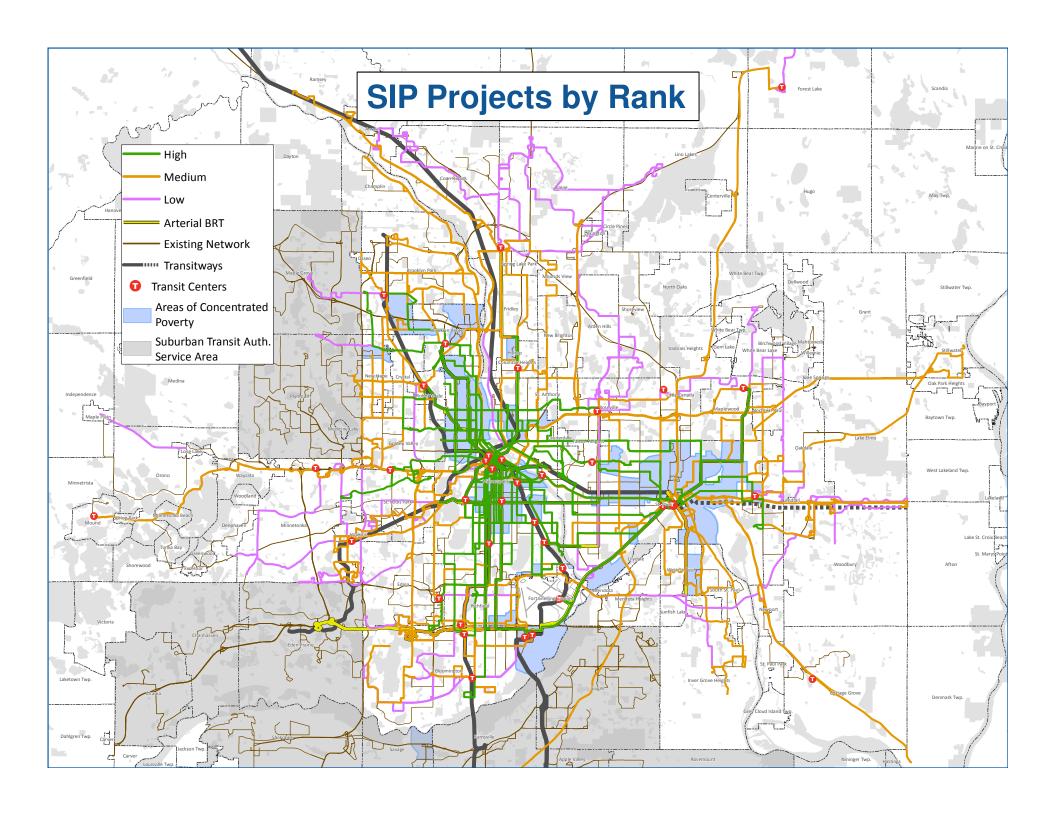

- 48 Low projects
  - 2.7 Million new rides

Recommended for Implementation

### 148 projects on 94 routes

- 58 expand coverage/ improve connectivity
- 71 improve frequency on existing service
- 52 expand span of service
- 7 add reverse commute service

## **Annual Ridership and Resources**

Total Service Hours	870,000
Additional Peak Buses	161
New Annual Passengers	29 Million
Additional Annual Operating Cost (\$2015)	\$98.3 Million
Additional Annual Subsidy (\$2015)	\$67.3 Million
Subsidy Per Passenger (\$2015)	\$2.35

<sup>\*</sup> Costs do not include capital costs of fleet, expanded bus operating facility

## **Proposed Action**

That the Metropolitan Council approve the Metro Transit Service Improvement Plan
