Proposed Action

That the Metropolitan Council (Council) authorize the Regional Administrator to negotiate and execute a Subordinate Funding Agreement (SFA) with the Minnesota Department of Transportation (MnDOT) in the amount up to \$2 million.

Background

The Council and MnDOT entered into a Southwest Light Rail Transit Project Master Funding Agreement (“MFA”) (Council contract No. 12I021) effective on October 28, 2012. The Project scope includes locally funded work for which MnDOT will fund and the Council’s contractor will construct (“Local Work”).

This SFA provides for construction of Local Work along with the Southwest Light Rail Transit Project (“Project”), construction that may include the following components:

- Flying Cloud Drive Improvements: Trail Reconstruction
- Flying Cloud Drive Improvements: Traffic Signal Reconstruction
- Flying Cloud Drive Improvements: Bridge Work

The SFA defines the authorized funding, the payment schedule, the general purpose of the funds, and a project activity period. The SFA is also anticipated to assign ownership and maintenance responsibilities for the Local Work to MnDOT or its permittees. The SFA represents MnDOT’s commitment to fund to the Council’s cost to construct the Local Work. This SFA will be SFA08 (12I021H) with MnDOT.

Rationale

Negotiating and executing this SFA is necessary as a contractual mechanism for MnDOT transfer of funds to the Council to pay for the Local Work items identified above. Constructing the Local Work items results in efficiencies for both public agencies.

Funding

The Local Work detailed in the SFA will be fully funded by MnDOT.

Known Support / Opposition

MnDOT supports this SFA.
