Better Bus Stops: Enhance access to opportunity by investing in bus stops

Better Bus Stops Focus Neighborhoods

- Neighborhoods being considered for bus stop improvements
- Specific areas within neighborhoods as priority areas for investment (ACP50)

Capital Project

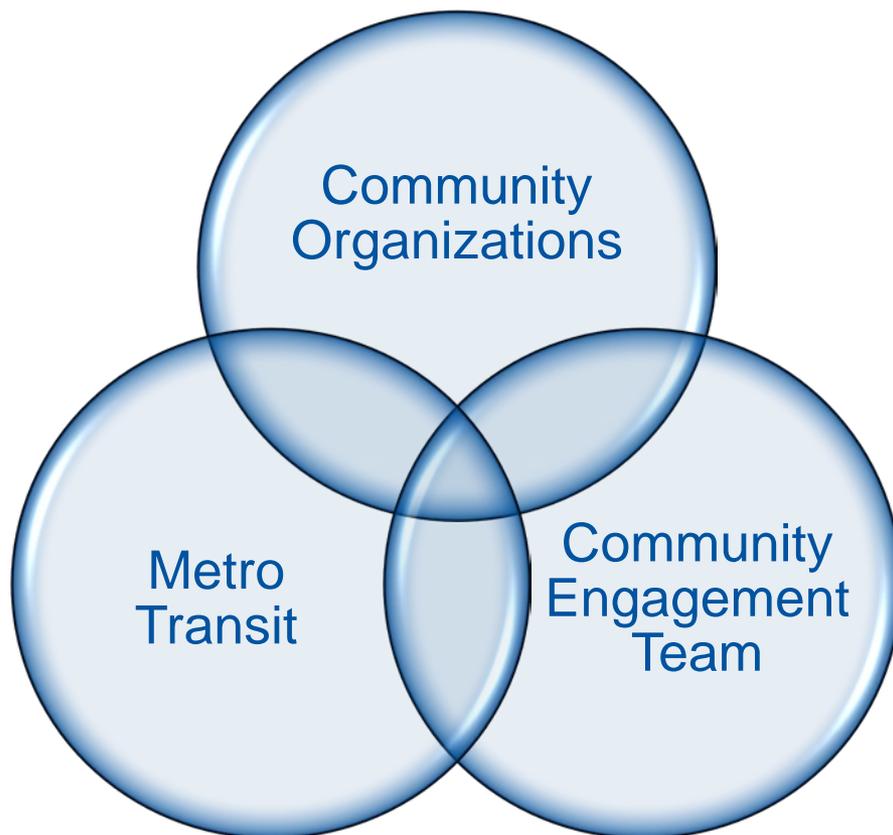

- Add up to 150 new shelters
- Improve up to 75 existing shelters with light, heat
- Approximately half-way complete at end of 2016

Community Engagement Process

- March 2016 – March 2017

Community Engagement Model

Harrison Neighborhood Association's Better Bus Stops Team

Community Engagement Numbers

- 7,000 people participated in community engagement
- 2,013 Metro Transit surveys completed
 - Survey respondents from focus area and all 7 counties
 - Survey respondents' race, income, age generally the same as what we know about transit riders
- 2,230 customized surveys
- 200 community events
 - 40 neighborhoods
 - 11 cities

What Did We Learn?

Priorities for **Shelter Placement Guidelines:**

- Where many people wait for the bus
- Near hospitals, social service centers, senior housing
- Where residents don't have a car and rely on transit
- Shelters are very important – also transit information, lighting, heat, benches

"Bus shelters with lighting, heat, benches and maps are extremely helpful to those of us who rely on transit."

– Survey Participant

What Did We Learn?

Priorities for Bus Stops and Beyond:

- Safe street crossings
- Personal safety
- Maintenance at bus stops and shelters
- Bus service and operations
- Equitable distribution of resources
- Fares

"When buses run late or too early, peoples' livelihoods are at stake."

– Community Organization
