

## Transportation Committee

Meeting date: August 24, 2020

**Subject:** Regional Solicitation Scoring Process Update

**District(s), Member(s):** All

**Policy/Legal Reference:** Minn. Stat. §§ 473.3997; 473.3999

**Staff Prepared/Presented:** Elaine Koutsoukos, TAB Coordinator (651-602-1717)

**Division/Department:** Transportation Advisory Board

The 11 Regional Solicitation categories received 132 applications (as shown the attached summary). Eight Scoring Committees were set up to score the applications. Each Scoring Committee initially met in late June to review the application measures and scoring guidance. Scorers reviewed scored measures during July and submitted measure scores. For measures that were similar across applications, scorers consulted with each other to make sure the same methodology was applied in scoring. The Scoring Committees met a second time from late July to early August to review the submitted scores and answer questions that scorers had.

The scoring effort involved 72 scorers, representing 24 entities. The extensive time and dedication of the scorers, beyond their regular work assignments, is greatly appreciated in providing a regional effort for scoring the Regional Solicitation applications. Below is a list of scorers, and the organization they work for, that we extend our thanks to.

The draft scores will be presented to the TAC Funding & Programming Committee on August 20. The scores were also sent to the applicants to review. Applicants will review their scores and may submit an appeal, by August 31, for a measure that may have been scored in error. Metropolitan Council staff will review appeals with the scorers. The appeals will be presented to the TAC Funding & Programming Committee on September 17 and voted on to finalize scores. The final scores will be used to develop funding scenarios.
