

Transportation Committee December 14, 2020

Adam Harrington, Service Development Anna Flintoft, Engineering & Facilities

What is a Park-and-Ride facility?

- Commuters to downtown and U of M
- Creates customer density needed for cost-effective transit service from suburban and rural areas
- Peak period congestion management tool

Hwy 610 & Noble Park & Ride

St. Luke's Lutheran Church Park & Ride

Elements of Successful Park-and-Rides

- Frequent transit service
- Fast trip to downtown
- Upstream of congestion
- Downstream of large residential population
- Convenient freeway access

Foley Blvd Park & Ride

T

Regional Park-and-Ride System Facts

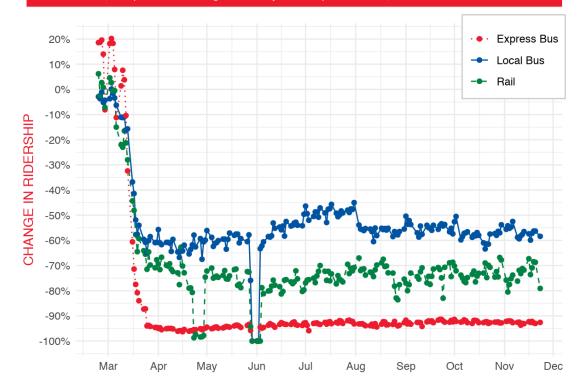

- 33,000 parking spaces in about 100 facilities
- 55-60% of parking spaces are typically utilized
- 4% increase in parking utilization 2008 to 2019
- 7% of 2019 Metro Transit weekday bus boardings occurred at locations with P&R facilities
- 11% of regional bus and rail riders surveyed in 2016 drove and parked at one end of their trip (7% parked at a park-and-ride)

Ū

2020 COVID 19 Response

- Governor Executive Orders Remote Office work
- Adjust to State and Industry Guidance
- Highest ridership service, People reliant on transit
- Balance health and travel needs
- Equity lens in bus and rail service scheduling

(Compared to average weekday ridership 2/24–2/28)

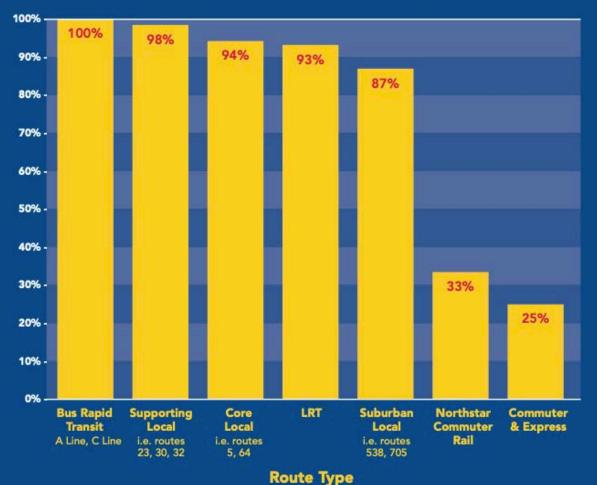

*Preliminary estimates, subject to change
