For the Metropolitan Council: April 27, 2022

## Business Item: 2022-79

METRO Gold Line Bus Rapid Transit – Subordinate Funding Agreement No. 6 with St. Paul

<b>District(s), Member(s):</b>	District 12 (Gonzalez), District 11 (Vento), District 13 (Lee)
<b>Policy/Legal Reference:</b>	FM14-1 Procurement Policy
<b>Staff Prepared/Presented:</b>	Wes Kooistra, General Manager, 612-349-7510 Nick Thompson, Deputy General Manager, 612-349-7507 Chris Beckwith, Gold Line Project Director, 651-602-1994 Robin Caufman, Director of Administration, Capital Projects, 651-602-1457
<b>Division/Department:</b>	Metro Transit / METRO Gold Line Project Office

### Proposed Action

That the Metropolitan Council (“Council”) authorize the Regional Administrator to negotiate and execute a Subordinate Funding Agreement (“SFA”) #19I056-F with the City of St. Paul (“the City”) for construction of non-project activities concurrent with the Gold Line Bus Rapid Transit Project (“the Gold Line”) in an amount not to exceed \$1,204,975.83

### Background

In 2020, the Council and the City entered into a Master Funding Agreement (#19I056) to establish a framework for interagency funding transfers. All requirements of the MFA will be incorporated into this SFA.

The Council completed design of this work under SFAs #1-5 (#19I056 A-E). All these projects will be delivered by the Gold Line’s construction contractor as concurrent non-project activity (CNPA) and fully funded by the City independent from the base project.

SFA #6 transfers up to \$1,204,975.8 from the City to the Council for construction of five locally funded improvements including:

- a sewer separation project along Conway Street,
- additional pedestrian lighting along Hudson Road,
- sanitary sewer replacement near Hudson Road,
- conduit installation near the Burns Avenue / Trunk Highway 61 intersection,
- private sanitary sewer connections, and,
- construction management and inspection.

SFA #6 also provides funding from the City to cover the Council’s construction management and inspection costs.

### Rationale

Council Policy requires Interagency Agreements valued at greater than \$500,00 be approved by the Council.

Executing this SFA allows the City to have this work completed concurrent with the Gold Line which benefits Council and the City by realizing cost savings and avoiding the need to coordinate different contractors working in the same area. The Gold Line design and construction plans include the work to be funded under this SFA #6, and the Council would incur additional costs to remove that scope if this agreement is not executed.

### **Thrive Lens Analysis**

Investment in high-quality transportation options will advance the Thrive outcome of prosperity, by making the region more economically competitive through increased workers' access to employment, and support to employers by increasing available workforce with affordable, convenient transportation.

The Gold Line project advances the Equity outcome by distributing transit resources throughout the region and improving access to jobs, educational opportunities, and health services to diverse communities.

### **Funding**

No impacts to the Gold Line budget. All funding under this agreement will be provided by the City.

### **Small Business Inclusion**

There are no direct subcontracting opportunities associated with this agreement, however, local work constructed for the City as part of the Gold Line, will include small business sub-contracting goals.
