Proposed Action

That the Metropolitan Council authorize the Regional Administrator to execute a contract with North Central Bus for up to 6 accessible low floor buses in an amount not to exceed \$1,500,000.

Background

The 6 buses will be used in MVTA fixed route service and will replace 6 buses that have exceeded their useful life. This project aligns with the Capital Improvement Plan (CIP). These vehicles have a seven-year useful life. It is anticipated that the new buses would be delivered in the second quarter of 2024.

The Council was originally pursuing the purchase of the 6 needed buses through a different vendor. The Transportation Committee approved business item 2023-127 at its June 26, 2023, meeting, to enter into an agreement to purchase these 6 buses from Model 1 (formerly Creative Bus Sales). The following day, however, Model 1 informed staff that it was not eligible to sell Arboc buses to the Council because a local vendor, (North Central Bus), is the authorized dealer to represent Arboc Buses in Minnesota. Arboc has strict dealer license agreements which protect a dealer's territory from other licensed dealers. As a result, the Council cannot proceed with the bus purchase from Model 1.

Rationale

Purchase of these buses will allow MVTA to continue to maintain a state of good repair for its fleet. The Metropolitan Council is using the State of Minnesota Small Bus cooperative agreement to purchase these buses. The State of Minnesota Contract has been reviewed and includes all necessary federal clauses. The Council is an eligible public agency that may use this agreement. The Council has statutory authority under Minnesota Statutes Section § 471.345 to utilize such cooperative service agreements. The execution of a goods contract of more than \$500,000 requires Council approval.

Thrive Lens Analysis

This purchase supports safe and reliable transit infrastructure now and into the future for transit passengers throughout the MVTA area (sustainability) and enhances the quality of life in the region by allowing for transportation options at the community and regional level (livability).

Funding

This bus project is in the Authorized Capital Program (Project numbers 36216 [4 buses] and 36183 [2 buses]) and will use federal and local funds.

Small Business Inclusion

The Office of Equity and Equal Opportunity (OEEO) did not establish a Disadvantaged Business Enterprise (DBE) goal for this procurement. Transit vehicle manufacturers are required to submit DBE programs plans directly to FTA. The FTA maintains a list of approved transit vehicle manufacturers and the Council may only purchase transit vehicles from that list.
